Those wishing to keep up with the news, and the progress of a terrible War, precipitated upon the country by Southern Disunionists, because of the election of LINCOLN, would do well to subscribe for our Weekly. It is now sad to be seen that South Carolina, Alabama, Florida, and other Cotton States are going out of the Union. It is too serious a matter to north, and we must all look the horrors of Disunion in the face. This machine of government, so delicate and complex in its structure, and which cost its great Architects so much labor and thought, so much of the spirit of concession and compromise, and our fathers so much of blood and treasure, is now to be broken to pieces, to gratify a set of corrupt, ambitious, and disappointed demagogues, who said that they can never be rulers over these United States, and hence they seek a building up of more contemptible Southern Confederacy, and in doing, themselves at the head of it. The building and dissolving of states, which Rome was enveloped in flames, was not more brutal, hellish, stupid and wicked than is the conduct of these country-destroying, God-defying, and Hell-deserving traitors to their country, who write and act the disparaging of the most monstrous lie that the human mind can conceive!

Fighting is to be done, and that at no distant day, and the battle ground is to be along the line of the border States of Maryland, Virginia, Tennessee, Kentucky, and Missouri, which States have all declared for the Union. If the wicked leaders who have precipitated the rebellion, will do some of the fighting, we will manage to hold civil and military offices, with large salaries, to pay which, many will be wrung from the masses by a system of direct taxes. And these common people will themselves have to shoulder their muskets and rockets, and do the fighting, or those who voted the Disunion Ticket, fight in their and schools; the Union men, if they must, will fight on the side of the lawful Government, and for the "Union, the Constitution, and the Enforcement of the laws."

"Lincoln should" attempt to inaugurate opposite and unconstitutional measures, and forging section or adopt these measures, whether in relation to slavery or any other subject, then, in our judgment, we of the South could await the decision of the Supreme court of the United States. And if the President, the Congress, and the Supreme Court who Executive, Legislative and Judicial departments of the Government, sanction any so iniquitous measures, and make in attempts to carry them out, I advocate resistance at all hazards, and to the last extremity—and I would then join the South in a war of extermination!

W. G. BROWNLOW,
Knoxville, Feb. 20, 1861. — Editor and Publisher.

FEVER AND AGUE, AND ALL Fevers are cured by perseverance with

BRANDRETH'S PILLS,

which relieve all patients, of whatever nature they may be, from the circulation.

Mr. John T. Hedges, Superintendent of New Castle, Westchester county, N. Y., says, November, 1859—"I was, two years ago, attacked with fever and ague, which, notwithstanding the best medical advice, continued to severely afflict me for six follow months; I became yellow as saffron, and reduced in flesh and hope. Medicine and physicians were withdrawn in despair. As an experiment, I resolved to try a single dose of six of Brandreth's Universal Vegetable Pills, on an empty stomach, early in the morning. The first dose seemed to return all the latent energies—I my substantial friend. I feared the worst—their operative effect was 30 fold more than anything I had ever used or heard of. At length this effect ceased, and I secured lighter and breathed freer. That evening I was indeed scarcely better and slept scarcely all night. The next day I followed the same course, and continued to take the pills in this way about three weeks, when I found myself entirely cured. My health has been unprecedently good ever since." Price 25 cents per box. Sold by Dr. JOHN JACKSON, Knoxville, Tenn., and by all respectable dealers throughout.

PROSPECTUS
OF
THE WATCHMAN.

This weekly journal will be published every Saturday at the rate of Two Dollars per annum, invariably payable invariably in advance. The "Watchman" will be independent in politics and religion, eschewing party political strife, and sectarian controversy. It will faithfully discuss present events, and strive to ascertain the precise interest of every department of human activity within the reach of its circulation, by addressing and appealing to our readers each intelligence as may most conducive to elevate this people.

The "Watchman" does not aspiring for honoring a candidate for public favor at this location. We propose to adhere to the principle, this community, sufficient to justify a class paper, and therefore the support of our efforts to establish, and maintain a public press in our infancy.

It is the particular interest of the friends of this journal to exert in the establishment of this kind of this point. This support will not cost each subscriber two months in our central agencies at a distance and exhibit the superior productions. The workman, his productions of art, and every dollar most engaged in the activities of manufacture.

The advertisement of "Watchman" shall be open to contributions upon all subjects of a chaste and interesting character. It is also our purpose to render our advertisements, and our terms for advertising. Farmers, Mechanics, Merchants, Traders, and school of homes and of a distance, will find it to their interest to advertise through the columns of the Watchman.

The circumstances under which this paper has been gotten up, will be found to adapt the principle, or cash system, and upon mutual reflection, the people, and patrons of this journal will find it to be the better policy reciprocally for both the publishers and themselves. Patrons, and rates of advertising, see first page of this paper.

If the people will come up to our aid, and unitedly as in our endeavors of publishing a weekly paper in the town of Mechanicsville, there will be a place in our table, their interests advanced, the security of the country improved, and an impetus given to the business. Make different subscribers in this section. There is no reason why Harrison and its surrounding neighborhood should remain in the background while other towns in this county and adjacent counties make such superior advancements.

The journal will advocate the Union as it is and is found in the Federal Constitution. We do not deem it the duty of every man to advocate the preservation of the Union and the Constitution. If for the preservation of these it shall be found necessary to secede from the Union, we shall be for seceding from the Union, Harmony, Concession, Everything for the Cause and Nothing for Man!
