The Policies of the Liverpool & London Insurance Company, Differ from Ordinary Policies in these:

1. Under them, all claims are paid upon the presentation of satisfactory proof of loss, without statement of the cause or extent, and not, as is usual, sixty days after presentation of proof.
2. They expire at 12 o'clock P. M. and not at noon.
3. They allow, without notice, fifteen days Workmen's privilege.
4. They permit other insurances to be effected without the Company's consent being applied for, the Policy, which will require notice of such additional insurance, will be same be specially demanded by the Company.
5. They are assignable by simple endorsement, Revocation of such assignment can be given by the Company.
6. They may be made in the face of these—Underwriters and Agents—thus obviating the risk of accidental omission of insurance.
7. They allow the property of Bankrupts to be in the possession, without assignment, being permitted under subsequent policies unless the interest of the Company be involved in settling on the Policy—and without which, the Policy is void. Bankruptcy not to void Policy.
8. They are more simple—more liberal—more prompt—more equitable, and more advantageous to the Insured than any other Policies issued in this country.

The magnitude of the business of the **Liverpool & London** is world-wide. Its large paid up capital and Reserved Fund, amounting in all to upwards of SIX MILLION DOLLARS—being invested in U. S. stocks, and held by the New York Branch, ensures prompt settlement of claims. Losses paid in New York since 1841, over $2,000,000.

PERMANENT POLICIES.

In addition to the ordinary mode of insurance, the Company issues PERMANENT POLICIES, on deposit of the ordinary annual premium. Property is thus insured permanently, upon the payment of but a trifling yearly premium. Policies issued on this plan, are free from all further payment, except in the event of the property being destroyed, when the whole of the deposit, the risk and insurance are at an end. The deposit can be withdrawn at any time by the holder, the deposit being returnable free of cost.

The great success of the Liverpool and London Fire and Life Insurance Company, and the high character of its directors, together with the personal liability of its stockholders entitle it in our opinion to the highest confidence.

FEMALE INSTITUTE,

KNOXVILLE, TENNESSEE.

THE SPRING SESSION OF THIS Institute will open on Monday the 4th day of February, 1861.

Mrs. Mary A. Rutherford, formerly of Virginia, will have charge of the Preparatory Department.

Mrs. Pennington, is an accomplished lady, of mature and thorough experience in teaching, and will demonstrate with unusual degree of satisfaction to her department of the Institute. Reference may be made on her behalf to Rev. Thomas W. Humes, of this city, and to Dr. S. D. Cunningham, former President of E. Tenn. & Virginia Rail Road.

The Music department will continue under the care of Miss Anna A. Hasen, whose superior advantages as a cultivated and finished performer, and teacher of Music, instrumental and vocal, are already known to our patrons and community.

The Principal, with an uninterrupted experience of more than thirteen years teaching, chiefly devoted to the public in hands of Knoxville, and under the notice of the citizens, now offers no new pledge or assurance as to the manner in which he will discharge what seems to be his duties. Unalterably opposed from principle, to all fanciful and merely popularizing expedients in behalf of Education or of Religion, even when circumstances would seem to render them necessary to present success, we only commend the E. T. F. Institute to our patrons, and the public, in so far as it seems to be a public interest worthy of their fostering regard.

CERTIFICATES.

PHILADELPHIA, Sept. 9, '59.

We have carefully tested the sample of Chesnut Grove Whiskey you sent us, and find that it contains none of the Poisonous Oils known as Fusel Oil, which is the characteristic and injurious ingredient of the Whiskies in general use.

SOUTH, GARRETT & CARAH, Analytical Chemists.

New York, Sept. 3, 1858.

I have analyzed a sample of Chesnut Grove Whiskey, received from Mr. Charles Wharton, Jr., of Philadelphia and having carefully tested it, I am pleased to state that it is entirely free from poisonous or adulterated substances. It is an admirably pure and fine flavored quality of whiskey.

JAMES R. CHILTON, Analytical Chemist.

Boston, March 7, 1861.

I have made a chemical analysis of numerical samples of Chesnut Grove Whiskey, which proves to be free from the Poisonous Fusel Oil, so injurious to health and brandied. The fine flavor of the Whiskey is derived from the fruits used in manufacturing it.

Respectfully, A. A. HAYES, State Assayer.
