FRENCH ROAD BOND DEAL IS UNDER WAY

New York Bankers Negotiating to Buy Issue of Paris and Orleans Railway.

Negotiations for the purchase by Iselin & Co. of an issue of 50,000,000 francs bonds of the Paris and Orleans Railway of France, of which 5,000,000, equivalent to approximately $300,000, will be offered within a short time to American investors on an exchange basis, are under way. Hemphill, Noyes & Co. probably will be associated in the offering with Iselin & Co.

This offering of the security of a foreign road will follow very closely the method utilized in the recent sale of 50,000,000 franc bonds, approximately $3,000,000, of the Midi Railroad Company.

The Paris and Orleans Railway, a trunk line system of France, will use the money for extensions and betterments, it is reported.

BOND NEWS AND NOTES.

Although the public offering of about $30,000,000 of sinking fund Belgian Government twenty year 8 per cent. bonds is imminent, the final cable from this side to Brussels having been filed yesterday, there was no official announcement for publication to-day and syndicate letters are not expected to go out before this evening. International negotiations conducted by cable sometimes result in minor details, which require time to clear up and delay an offering after all its essential points have been settled.

New York to Bid for Manila Bonds

It is understood that several New York banking groups will put in bids for $2,750,000 of 5½ per cent. bonds of the city of Manila, which will be awarded early next week. Major-Gen. Frank McIntyre, chief of the Bureau of Insular Affairs, will receive sealed bids for the bonds until 2 P. M. on January 25. The bonds will be dated December 1, 1920, and mature on December 1, 1950, optional after December 1, 1930. No bid for less than par will be considered. A certified check for 2 per cent. is required with the bid.

Libertys Hit Highest.

Liberty bonds touched the highest prices reached so far this year in yesterday's trading, the top prices in certain of those issues being nearly a half point more than their previous high quotations for 1921. Compared with low prices touched during the last week of 1920 yesterday's prices for Government bonds showed 2½ to 4 point gains. The following table shows the lowest prices touched by Liberty bonds last year compared with the low record for the week ended on December 31 and the highest quotations of yesterday:

Victory Offerings Heavy.

Victory Notes stood up under fairly heavy offerings with a greater display of firmness than some of the dealers thought they would on the eve of expected foreign financing of attractive quality. At 97.22 the issues were about 2¼ points higher than they were in the last week of December, when purchases by several local banks and Government bond houses were heavy in anticipation of an easing tendency of money. Evidently realizing sales have been well absorbed by cumulative buying of investors.

Offer Akron Bonds To-day.

A syndicate composed of Harris, Forbes & Co., the National City Company, Estabrook & Co., Curtis & Sanger, R. L. Day & Co. of Boston, and Hayden Miller & Co. of Cleveland, which was awarded the $2,000,000 issue of City of Akron, Ohio, 5½s, will make a public offering of those bonds to-day. They are due on January 1 from 1922 to January 1, 1951, both inclusive, and are being offered at prices to yield from 5.40 per cent. to 5.20 per cent. They are legal investments for savings banks and trust funds, and are a direct obligation of the city of Akron.

Depositing Denver 7s.

More than 51 per cent. of the Denver and Rio Grande adjustment 7s have been deposited in exchange for Western Pacific ten year 4s. It was announced considerable time ago that Western Pacific would make the exchange and that 76 per cent. of the Denver 7s was desired to make the transfer binding. That percentage was reduced subsequently to 51 per cent., which gives the Western Pacific majority opinion in any action in which those bondholders might wish to act as a unit. The deposit of the Denver 7s leaves only the refunding 5s in divided control.

February Maturities.

During February approximately $8,800,000 of public utility bonds mature, in contrast to $7,000,000 of railroad and $4,800,000 of industrial issues. The more prominent maturities of street railway, water and electric companies, excluding those less than $250,000, are $2,000,000 of St. Louis and Suburban Consolidated 5s, $1,222,000 of United Railway and Electric 5s, $1,000,000 of United Railway Investment 5s, $700,000 of Newburgh Light, Heat and Power 7s, $525,000 of Georgia-Alabama Power 7s, $300,000 of Fitchburg and Leominster Street Railway 4½s and $287,000 of Springfield Railway and Light 7s.

Outlook for Activity.

The outlook is for an active year in public utility financing. At least one prominent distributing organization in New York has been training of late its salesmen to handle prospective issues, which, while by no means new in the business of this firm, are expected to count extensively in the turnover of 1921. Many hydro-electric companies, street railway and lighting companies have had their rates advanced in the last six months, and the conjunction of this influence for increased revenue with gradually declining costs is having a real effect upon public utility credit. The need for additional facilities after the last four years of restriction is self-evident.

Cleveland Bonds Sold.

The $5,000,000 of City of Cleveland, Ohio, 6 per cent. school district bonds offered by a syndicate headed by the Bankers Trust Company and composed of Kissel, Kinnicut & Co., Halsey Stuart & Co., Eldredge & Co., the First Trust and Savings Bank of Chicago, the Guaranty Company of New York, the William R. Compton Company, Stacey & Braun, R. L. Day & Co., the Detroit Trust Company and the Continental and Commercial Trust and Savings Bank of Chicago were practically all sold at the close of business yesterday.

Goldsboro, N. C., Offering.

J. S. Bache & Co. are offering $227,000 of City of Goldsboro, N. C., 6 per cent. tax exempt street improvement coupon bonds dated December 1, 1920, and maturing from December 1, 1922, to December 1, 1935 (both inclusive), for a price to yield 6.25 per cent. They are a full and direct obligation of the city and are payable from unlimited taxation on all taxable property within it.

Would Sell Va. Midland Issue.

Application for authority to sell $950,000 of first consolidated 5 per cent. mortgage gold bonds, payable July 1, 1934, to redeem an equal amount of serial mortgage 5 per cent. gold bonds of the Virginia Midland Railway maturing on March 1, was filed yesterday by the Southern Railway Company.

Nassau and Suffolk Lighting.

Minturn & Co. are offering $436,000 of Nassau and Suffolk Lighting Company five year 9 per cent. gold debenture bonds, due on September 1, 1925.
