**Paris-Orleans Bonds Offered.**

A banking group headed by A. Iselin & Co. and including Halsey, Stuart & Co., Inc., and Hemphill, Noyes & Co. will offer to the public a 50,000,000 franc issue of 6 per cent. bonds of the Paris-Orleans Railroad Company. At the current rate of exchange the offering is equivalent to about $3,500,000. The Paris-Orleans Railroad is the second largest railroad system in France, its system covering about 4,848 miles. Under agreements, confirmed by law, the payment of principal and interest of its bonds is secured to the company by the guarantee of the French Government. They are redeemable at par by annual drawings in amounts sufficient to retire the entire issue by 1956. It is understood that the offering price is 93 per cent. of par to yield 6½ per cent. The bonds are payable as to principal and interest without any deduction of French taxes present or future.

**Railroad Equipments.**

An issue of approximately $2,500,000 of Soo Line Railway five to fifteen year 6½ per cent. equipment trust notes was placed privately yesterday by Dillon, Read & Co. at prices ranging from 101 to 100, dependent on maturity, the basis ranging from 6.40 to 6.50 per cent. Plympton, Gardiner & Co. announced that an offering of $1,656,000 of Long Island Railroad equipments was all sold. The Soo Line equipment covered by the financing in the proportion of $75 borrowed to $25 paid in cash was as follows: Five hundred box cars, 400 stock cars, 250 refrigerator cars and three dining cars. The financing is subject to approval by the Interstate Commerce Commission.

**North Carolina Notes.**

The Treasurer of the State of North Carolina, who was in New York, awarded the issue of $4,500,000 6¼ per cent. one year notes to the Guaranty Company, Stacy & Braun and S. N. Bond & Co. at their bid of 100.06. The notes are being offered to-day on a 6 per cent. basis.

**State Issues.**

Bond dealers are especially interested in two groups of sealed bids which will be opened to-day at the capitals of two States. In Maryland sealed bids for $2,500,000 of 4½s of 5¾ year average will be opened, and in Minnesota sealed bids for $4,538,000 of 5s of ten year average.

**Offer Washington Bonds.**

A syndicate headed by the Bankers Trust Company and composed of Estabrook & Co., Hallgarten & Co., Stacy & Braun, Cyrus Pierce & Co., John E. Price & Co., the Guaranty Company of New York, Halsey, Stuart & Co., Inc., the William R. Compton Company, R. L. Day & Co., Carsten & Earles, Inc., Ferris & Hardgrove and Eldredge & Co. are making a public offering of $5,000,000 of State of Washington 5½ per cent. general fund gold bonds. The bonds are dated February 1, 1921, and are due on February 1, 1941. They yield about 5.15 per cent. to their optional date and 5½ per cent. thereafter. The bid price put in by the syndicate for the bonds was 100.656.

**Cincinnati Gets One Bid.**

Only one bid was received by the authorities of Cincinnati for $700,000 of 6 per cent. one to seven year serial refunding school bonds and that one was from Hayden Miller & Co. of Cleveland, who offered a premium of 1,827. The city's Board of Education is considering the bid.

**New Competition for Bonds.**

The expanding interest in bonds and other funded securities during the last three years has not been overlooked by bankers in all parts of the country. Bond men themselves are fully aware of the increased competition that has arisen through the establishment of bond departments by banks and trust companies, although not much account has been made of the movement outside of bond distributing circles. The large houses of issue are making the most of the new field opened since the Government war issues brought a great mass of the public into the investment market to stay. Probably an important factor in the recent large oversubscriptions of offerings has been the applications from small banks and big ones in the South and West as well as in the East.

**A Public Utility Issue.**

The Milwaukee Coke and Gas Company has sold to Dillon, Read & Co. $2,000,000 of first mortgage collateral sinking fund 7½ per cent. gold bonds and those bankers will start to offer the issue to-day. The issue has an annual sinking fund to retire the entire amount by maturity up to 103 and interest and the bonds are callable as a whole or in part on any interest day at 103. The new issue is secured by a like amount of the company's 6 per cent. first mortgage serial bonds. Its purpose will be to reimburse the company in part for 70 per cent. of additional expenditures for the installation of coke ovens.

**Troy Calls for Bids.**

Proposals for $62,000 of 6 per cent. public improvement bonds, payable serially for twenty years, will be received at the Comptroller's office, Troy, N. Y., up to February 4.

**American Agricultural.**

Stockholders of the American Agricultural Company will meet on March 3 in New London, Conn., to act on its $30,000,000 bond issue, recently offered, and authorize a call for the redemption of its outstanding 5 per cent. convertible debentures on August 1.

**New State Bonus Bonds.**

The Massachusetts award of bonds for soldiers' bonuses is the sixth offering of this kind to be made by States. Maine sold $3,000,000, Rhode Island $2,500,000 and Vermont $1,500,000. Minnesota has sold about $11,000,000 bonds out of an authorized issue of $20,000,000. A further offering of $4,538,000 of Minnesota bonds is advertised for to-day. New Hampshire sold $1,500,000. Altogether seventeen States have taken up the question of financing bonuses and all but two Legislatures have taken definite action. Of the fifteen States, eleven have issued or will issue bonds. A bill introduced into the California Legislature provides for $18,000,000 bonus bonds. New Jersey will consider a $12,000,000 issue after June 15. New York plans an issue of $45,000,000. A $25,000,000 issue has been proposed in Ohio. Washington authorized $16,050,000, and in Wisconsin about twenty-five counties have issued bonds, although there will be no State issue.

**Beaver Board Offering.**

Imbrie & Co. will make to-day a public offering of $5,000,000 of Beaver Board Companies 8 per cent. twelve year sinking fund gold notes, dated January 1, 1921, and due on January 1, 1933. They are the senior issue and constitute the company's only funded debt, excepting $927,689 of mortgages and serial notes of three subsidiaries. The notes are being offered at 99½ and interest. The company's net quick assets are more than 200 per cent. of the principal of this issue. Its earnings before Federal taxes for the last five years have averaged more than five times interest charges on this issue.

**Peoria and Pekin Union.**

Arrangements to purchase, through the Central Union Trust Company of New York, at par and accrued interest to February 1, 1921, the Peoria and Pekin Union Railway Company first mortgage and income, or second mortgage bonds, due on February 1, 1921, which have not been deposited for extension in accordance with their company's circular letter dated December 2, 1920. The privilege to deposit bonds for such extension expired on December 20, 1920. The bonds should be presented to the Central Union Trust Company of New York, 30 Broadway.
