DUQUESNE LIGHT PLANS FINANCING

Philadelphia Company Subsidiary Negotiating Issue of $10,000,000.

The Duquesne Light and Power Company, a subsidiary of the Philadelphia Company, has started negotiations for the sale of $10,000,000 of fifteen to twenty year 7 per cent. debentures to a local banking syndicate. The houses mentioned are Harris, Forbes & Co., Lee, Higginson & Co. and the First National Bank. The purpose of the financing is to provide funds to anticipate the February 1, 1922, maturity of $9,580,000 of three year 6 per cent. secured notes of the Philadelphia Company. On May 1, 1922, $9,794,000 of Philadelphia Company convertible debenture 5 per cents., issued in New York and London in 1912, will mature.

BOND NEWS AND NOTES.

Land Bank Bonds.

The first day of sales to investors of $40,000,000 of Federal Land Bank bonds resulted in distribution of amounts beyond the anticipation of the managers of the syndicate which offered them. It was estimated that between 40 and 50 per cent. of the issue had been sold at the close of business. A group of offering houses sold their firm quota and had early yesterday afternoon orders for $5,000,000 more than that quota. The bonds were given 90 per cent. firm until 5 P. M. yesterday and in consequence an exact estimate of the first day's business was unobtainable. The balance of the issue will not go as speedily as did the first sale of it, but the syndicate managers are confident of a successful distribution of the entire offering, although the sales may continue a week or more.

Canadian Pacific Financing.

Rumors regarding imminent Canadian Pacific financing of $50,000,000 were current yesterday, but authoritative information was obtained to show that there would be no financing for several weeks and that the amount would be considerably less than $50,000,000. Formerly the Canadian Pacific financed its addition and betterment expenditures, not paid for out of earnings, through the sale of 4 per cent. debentures in London. That market is practically closed to the Canadian Pacific, which asked for and obtained new legislation from the Canadian Parliament to permit the road to borrow in the New York market. The form that that financing will take will be determined at the annual meeting of stockholders on May 4. At a subsequent date the negotiation of new financing to pay for the additions and betterments of 1921 and 1922, not covered by the earnings, will be initiated. At the moment Canadian Pacific financing is in the distant background.

$2,350,000 Cincinnati Offering.

J. S. Bache & Co. are offering $2,350,000 of the city of Cincinnati's 5½ per cent. direct obligation bonds, due on March 19, 1921, at 101.15 and interest yielding 5.35 per cent. The 1920 census shows the population of Cincinnati as 401,247. The city reports its valuation as $737,474,310 and its net bonded debt as $41,037,932.

Wilmington Awards Issue.

M. M. Freeman & Co. and Redmond & Co. of Philadelphia have been awarded $450,000 of the city of Wilmington's 4½ per cent sinking fund bonds, principal and interest payable in gold. It is understood that about a third of the issue has been sold and that a public offering of the balance will be made soon.

Pere Marquette Plans Loan.

The Pere Marquette Railroad has asked authority to pledge or sell $3,231,000 of its first mortgage gold bonds, the proceeds of which are to be used to reimburse the road for expenditures for additions and betterments.

Wilson Offering Sold.

The offering yesterday of $2,000,000 of Wilson & Co., Inc., first mortgage 6 per cent. twenty-five year sinking fund gold bonds, series A, at 88⅛ and interest to yield about 7.08 per cent., resulted in a successful distribution. The offering syndicate was as follows: The Guaranty Company, Hallgarten & Co., Blair & Co., the Illinois Trust and Savings Bank and the Continental and Commercial Trust and Savings Bank. The issue closes the mortgage except for $788,000 of bonds reserved for future additions and improvements to properties. The proceeds of the bonds are to be reimbursed the company for expenditures for additions, betterments, improvements, &c., and will be applied to the reduction of current liabilities.

Florentine Envoy Arrives.

A representative of the Italian city of Florence has arrived in this city to open negotiations for a loan. That city's valuable art treasures and architecture will not be pledged to support the loan, however, as at first reported, the Italian envoy asserting that Florence would offer other adequate collateral. The city's revenues probably will be pledged for the loan, which, it is believed, will be in the neighborhood of 100,000,000 lire and run for thirty years.

Marland Oil Bonds Offered.

Formal announcement of the offering of $4,000,000 of the Marland Oil Company's ten year 8 per cent. sinking fund participating gold bonds was made yesterday. The bonds are dated April 1, 1921, and are due on April 1, 1931. Their offering price is 97 and accrued interest to yield 8.45 per cent. The company's combined net assets are more than $51,000,000. The net earnings of the company and its subsidiaries in 1920 and available for interest charges were $5,524,157. A quarterly sinking fund of $100,000 should retire practically all the bonds before maturity. In addition to the interest of 8 per cent. a year, series A bonds will receive $10 a $1,000 bond for a dollar a share a year, declared in dividends on the company's capital stock up to $4 a share so declared. Every bond will carry a detachable warrant entitling the holder thereof to subscribe on or before April 1, 1931, to twenty-five shares of stock of the company at $40 a share. The syndicate offering the bonds is composed of Potter Bros. & Co., F. S. Smithers & Co., Hemphill, Noyes & Co. and Merrill, Lynch & Co.

Trading of Smaller Volume.

Bond trading was in smaller volume yesterday and price variations were comparatively small. The most interesting feature of the session was the activity in certain foreign government bonds, notably Mexican issues. Liberty bonds were strong during the early part of the session but reactionary later. Another conspicuous feature was heaviness in local tractions. Rails were quiet and certain of them inclined to weakness, but no important movements occurred.

Mamaroneck School Issue.

George B. Gibbons & Co. are offering $300,000 of town of Mamaroneck, N. Y., Union Free School District No. 1, 5½ per cent gold school bonds, in various maturities, yielding 5.05 to 5.50 per cent.

Offer Burlington County Bonds.

M. M. Freeman & Co. of Philadelphia are offering $355,000 of Burlington county, N. J., 6 per cent road bonds, in various maturities, yielding 5.40 to 5.60 per cent.
