EXPORT OUTLOOK SWINGS WHEAT UP

Indications of Winnipeg Business Sends Prices Higher to Firm Close.

CHICAGO, Dec. 19.—Wheat took today an upward swing in price, largely as a result of indications of export business in Winnipeg. The market here closed firm, 1⅛ to 2¾ cents net higher, with May at $1.14⅝ to $1.14¾ and July at $1.04 to $1.04⅛. Corn gained ½ cent to ⅝ cent and oats ¼ cent to ½ cent and ⅝ cent. In provisions the outcome varied from 5 cents decline to 17 cents advance.

At first the wheat market showed lack of support, with many traders correctly anticipating an increase of the United States visible supply total. Gradually, however, attention veered to the ascent of values in Winnipeg and there was a display of enlarged buying power here, based on gossip that the Winnipeg advance reflected European demand. Forecasts of a cold wave, which might catch a good deal of the domestic winter crop without snow protected, tended also to stimulate some buying. Furthermore, reports were current that rains were interfering with the harvest in Argentina. Under such circumstances the market finished at practically the day's top figures.

Corn and oats rose with wheat, although early in the session bulls had been at a disadvantage, owing to big receipts of corn. On the other hand, rural offerings of corn were reported as small, despite expected colder weather promising to harden muddy roads.

Provisions were irregular, fluctuating chiefly according to changes in the hog market.

The sales of cash wheat to foreign countries yesterday were small. The United Kingdom bought some winter wheat and the Continent took small amounts of Manitobas. The Greek order, placed on Saturday, was, however, much larger than at first announced and totaled 80,000 tons, or 2,960,000 bushels, which with an Italian order brought Saturday's business up to 4,000,000 bushels. The sales of corn also were small, totaling only about 200,000 bushels, and were made to the United Kingdom and the Continent.
