RUSSIAN BILL GIVES GRAIN PRICES A LIFT

Lack of Needed Moisture in Winter Wheat Belt Helps Advance.

CHICAGO, Dec. 2.—Grain prices advanced to-day, helped more or less by the signing of the bill that provides $20,000,000 for Russian famine relief. The wheat market close was unsettled, ¼ to 2c. net higher, with May $1.16⅜@1.16⅞ and July $1.04½@1.04¾. Corn gained ⅝ to ¾c. and oats a shade to ¼@⅝c. Provisions finished unchanged to a shade lower.

Definite assurance that buying of food supplies for the Russians would begin at once tended to make the wheat market strong from the start, and at no time were prices lower than yesterday's finish. Besides, the weather map showed no moisture where most needed in the winter crop belt, although private messages later told of snow in parts of Kansas, where much benefit was expected to result. Gossip was current also that the domestic visible supply total on Monday might be expected to decrease and that milling demand were becoming better. On the other hand, export sales proved small and failed to bear out early assertions that foreigners were after wheat. Toward the last, accordingly, somewhat of a reaction took place, with numerous holders ready to realize at $1.17.

Strength in corn and oats came chiefly from the Russian relief bill. In addition export demand for corn was active, receipts were light and rural offerings small.

Selling of provisions by packers counterbalanced the effect of upturns in grain and hogs.

EXPORTS.

Wheat, including flour, exports for the week, according to *Bradstreet's*, aggregate 7,321,498 bushels, against 6,837,219 the previous week and 8,698,824 last year; since July 1, 231,435,827 against 258,155,126 last season; corn exports for the week, 2,775,620 against 1,738,379 last week, and 235,338 last year; since July 1, 56,966,090 against 5,078,054 last season.

"MODERN MILLER'S" OUTLOOK.

CHICAGO, Dec. 23.—According to the Modern Miller, "there is still great deficiency of moisture in Kansas and Oklahoma, although certain parts of those States received precipitation this week. In portions of that territory the crop has freshened. Winter wheat in Southwest will go into the winter looking poor, but there is still opportunity for the crop to recuperate and actual condition cannot be ascertained until next spring. The acreage will be smaller. Nothing has occurred to change the prospect in the soft winter wheat States. Generally favorable conditions prevail. There is plenty of moisture in practically all sections and the stand is good."
