BOND NEWS AND NOTES.

Paper Bonds Distributed.

At the close of business last night the entire offering at 87 and interest of $12,500,000 of the International Paper Company's 5 per cent. mortgage bonds by a distributing syndicate composed of the Bankers Trust Company, the Union Trust Company of Pittsburgh, Blair & Co., Inc., and Halsey, Stuart & Co. had virtually been disposed of, and when the books are closed early this forenoon an excess subscription would cause no surprise. The first and refunding mortgage provides for an annual sinking fund of 1 per cent. of the total amount of the bonds issued under the mortgage, payable in semi-annual installments on May 1 and November 1 of every year of their life. The current working capital position of the International Paper Company as of November 30, 1921, applying the proceeds of sale of these bonds to reduce current liabilities, and after the writing down of inventories to a value at or below the current replacement value thereof, would show current assets in excess of $35,000,000, against total current liabilities of approximately $6,500,000.

Market Still Buoyant.

The bond market displayed more activity yesterday and its prices continued buoyant, but its net changes were only moderate. Most interest was displayed in the foreign Government and the railroad groups. Liberty bonds reacted slightly and closed a fraction under their last prices of Wednesday. In the foreign Government group Kingdom of Italy 6½s were off fractionally as a result of the banking crisis in Rome, but there was nothing sensational in their movements. Southern Railway 4s were about the most active of the rails. Louisville and Nashville 5½s, when issued, were also very active at a fraction above 102. New York Edison first 6½s were particularly active and showed improvement in price, and New York Telegraph 6s crossed 102. Industrial bonds were somewhat irregular, with certain more active issues showing a tendency to seek lower levels. American Agricultural Chemical 7½s were strong, as were Cuba Cane debenture 8s. Sinclair Oil 7½s were inclined to heaviness.

Ontario Seeks Bids.

The Government of Ontario will receive tenders up to noon of January 4 for $15,000,000 of the Province's 5½ per cent. bonds dated January 3, 1922, and due on January 3, 1937. The bonds will be payable in United States gold coin.

Railroad Loan Approved.

The Interstate Commerce Commission approved yesterday the application of the Carolina, Clinchfield and Ohio Railway for a loan of $6,000,000. The purpose of the loan is to meet outstanding obligations of $5,000,000, maturing on January 1, 1922, and a loan made by the United States of $1,000,000. The loan will run for five years.

Electrochemical Issue Sold.

Hemphill, Noyes & Co. announce that they have sold a new issue of $1,250,000 of the Hooker Electrochemical Company's first mortgage 7 per cent. sinking fund gold bonds of series A, due on January 1, 1947. They were sold at 96½ and interest, to yield more than 7.30 per cent.

Electric Issue Permitted.

The Electric Company of New Jersey received yesterday approval of the Public Service Commission to issue $252,000 of 5 per cent. bonds at not less than 80.

Carter County, Tenn., Offering.

C. W. McNear & Co. are offering $140,000 direct obligation 6 per cent. road bonds of Carter county, Tenn., due on June 1, 1951, at a price to yield 5.40 per cent.
