ADVANCE IN COTTON MARKET CONTINUES

Absorbs Heavy Realizing and New Pressure—Closes Up After Drop.

Absorbing heavy realizing sales and new pressure, yesterday's cotton market gave a good account of itself and, after dropping to about 10 to 30 points net less than Monday's finals, advanced 21 to 42 points net and closed at 3 to 27 points more than its preceding finish. There was not much new in the general situation, but it was evident right from the start that the market was just a bit weak technically and that a shake out of long commitments would strengthen it considerably. That is exactly what happened, the excuse for the selling being clearing weather in the Southwest.

The opening was steady to firm, up 6 to 27 points net, with overnight buying orders. The reaction came quickly, but did not last long, the only option to sell for less than 20 cents being March, which got down to 19.95 before rallying. The bullish side of the situation was plain. Liverpool cables were better than expected, and spot business abroad showed little sign of abatement. 15,000 bales changing hands at an advance of 45d. for middling. Liverpool brokers were active buyers in the local market, and private advices from the South said that English interests took large quantities of the actual.

Part of the late renewal of buying interest was due to a feeling that today's weekly weather report would stress the unfavorable conditions in the belt. Later private advices regarding crop conditions were of bullish tenor and added to bullish sentiment. Feeling in speculative circles was generally as constructive as ever. Bulls were helped considerably by strength of May. Despite circulation of eighty-nine delivery notices the spot position held relatively firm when other options ruled lower. May rose to 21.34 cents at one time, in contrast to 20.93 at Monday's close.

The local spot market was 25 points higher at 21.50 cents for middling. Deliveries on contract here totaled 2,100 bales. The New Orleans market was 25 points better at 19.75 cents, and in its sales were of 2,345 bales.
