# BUSINESS NOTES AND TRADE NEWS

## American Woolen Company Advances Its Prices 2 1-2 to 55 Cents.

The American Woolen Company placed yesterday its woolen lines, withdrawn early in the week, again on the market at advances in prices of 2½ to 55 cents. Compared to values at the original opening in April, the new list shows increases of 10 to 75 cents. The fabrics, it was said, were being offered in limited quantities and for late deliveries. Several lines withdrawn have not been put on the market because of their soldup condition. New price lists on worsteds are expected to be announced next week. In view of the continued strength in the raw wool market, those values likewise will show advances from recent prices. The increases in the woolen lines are believed to be commensurate with the advance in primary quotations, which the company has been forced to pay.

### Cotton Underwear Sales Gain.

Evidence of decreased purchasing power and return to thrifty habits is seen in the steadily mounting volume of cotton underwear sales. Buyers appear to be preparing themselves before the advances in the raw cotton market begin to reflect themselves in higher underwear values. Some manufacturers are said to be busy on production although their salesmen usually do not leave for the road until June 1. Moderate priced merchandise is selling readily. Higher priced goods are moving rather lightly. In colors, white promises to enjoy its popularity although there is an appreciable demand for other colors. Manufacturers are preparing their lines of kimonos, tea gowns and negligees and are anticipating fair business.

### Orders for Blue Serges Grow.

Clothing manufacturers report business being booked by salesmen as fair in volume. Some salesmen who have returned for a short stay said that they found most retail stores small and retailers proceeding along economic lines in purchasing. Blue serges, which have been described by manufacturers dead for several months, appear to be staging a comeback, judging from the growing volume of orders. A good demand for tweeds exists. Fancy back overcoatings continue to be popular. Prices are unchanged, but there is likelihood of an advance very soon, according to a prominent manufacturer. He said that if he were in need of material he would be forced to pay higher prices prevailing in the market.

### Crepe de Chine's Go Ahead.

The growing practice of manufacturing printed crepe de chine into summer dresses has stimulated the silk demand, according to a leading manufacturer. "The call for printed crepe de chine has been so large in the last sixty days," he said, "that we are finding it difficult to fill orders. The tendency seems to have changed from small dolly varden patterns to polka dots." In broad silks, the manufacturer reports, the bulk of orders centered in plain cantons, satin cantons and crepe romaine for evening dresses. He said that because of the large house business being done salesmen have been kept in his store. No presentatives have been on the road with autumn goods, he added.

### Burlap Market Again Active.

Activity in the burlap market increased yesterday and prices stiffened. Quotations on light weights ranged from 6.40 to 6.50 cents, and on heavy weights from 9.25 to 9.50 cents. Buyers appeared more confident yesterday and the volume of trading expanded appreciably. The Calcutta market was reported as stronger. Reports received by local burlap brokers were that sellers were withdrawing replacement offerings until the market should settle and prices become steady.

## FOREIGN MARKETS.

LONDON, May 26.—Trading was quiet and prices moved irregularly on the Stock Exchange to-day. Quotations follow:

Bar silver, 36⅝d, an ounce.
Bar gold, 93s. 5d.
