ITALIAN EXCHANGE GIVES WHEAT A LIFT

Rise in Lire Said to Increase Peninsula's Purchasing Power 30 Cents a Bushel.

CHICAGO, Nov. 14.—Wheat tended upward to-day, with special notice being taken of assertions that an advance in Italian lire in the last thirty days had increased the purchasing power of Italy as much as 30 cents a bushel on wheat. The market closed unsettled, at the same as yesterday's finish to 1⅜c. higher, with December $1.17⅝ to $1.17¾ and May $1.15½ to $1.15⅝. Corn gained ½c. to 1⅝c., and oats ¼c@¼c to ½c.@⅝c. Provisions ended from 15c. decline to 10c. up.

Strength in Italian exchange was said to be particularly associated with higher prices for November wheat at Duluth and Winnipeg. In Chicago the December delivery was in much greater request than May or July, and the trade virtually ignored announcements that Italy to curtail consumption purposes to reimpose an import duty of 39 cents a bushel and also place a heavy tax on native wheat. Bullish sentiment here received further impetus by big clearances of domestic wheat from American ports to-day, 1,198,000 bushels.

Persistent upturns in Liverpool quotations did much to lift wheat values here in the early dealings, and so likewise did continued uneasiness regarding the Turkish situation. On the advance May reached within ¼c. of the high price record for the 1922 crop, despite primary receipts double those of a year ago and notwithstanding favorable conditions over the entire winter wheat belt as a result of wet weather.

Corn and oats ascended with wheat, December corn going to a new higher price record for the season. Scantiness of corn receipts here was a factor.

Provisions averaged lower in response to a decline in the hog market.
