SHIPPING NEWS FROM ALL PARTS OF THE WORLD

SHIPPING LEADERS GO TO AID SUBSIDY

Notable Array of Attorneys to Back Operators' Efforts in Capital.

Undaunted by pessimistic reports of chances for the ship subsidy bill, a group of leading advocates of the legislation prepared yesterday to depart for the scene of the fight for which American shipping has been gathering its forces for more than a year, or since it became apparent that the Jones act of 1920 could not accomplish its purpose—the establishment of a merchant marine on an impregnable basis.

Among those Washington bound were Winthrop L. Marvin, vice-president and general manager of the American Steamship Owners Association, with a record of thirty years of advocacy of national aid to shipping behind him; G. M. Clough, secretary of the standing committee on the managing agent agreement, representing the Shipping Board operators, who will be given the chance to become ship owners if the bill is made law, and Capt. C. A. McAllister, vice-president of the American Bureau of Shipping, considered by many as the shrewdest political mind in practical steamship circles.

Reinforced by a formidable array of legal talent and from time to time by such corporation heads as are able to make the trip to the capital, these men propose to spare no legitimate means to bring Congress to their way of thinking—a belief that amounts to a creed with them—that the commercial prosperity and naval security of the country cannot be secured without a strong merchant marine, and that this is possible only through some such legislation as is proposed. Unless it is approved they see an early return of the United States to its humble position of 1913, when scarcely an American ship plied the seas in foreign trade.

On the eve of consideration by Congress of the marine bill, the Shipping Board issued a statement indicating that the net deficit incurred by Government steamship operations in the current year will be at least as great as it was last year—or about $52,000,000 to be drawn from the public treasury. Estimates of the annual cost of the subsidy are far below this figure, and the bill in time would take the Government out of the shipping business.

The loss of last year is being continued despite notable economies, says the statement, and is accounted for mainly by the decline in freight rates. It is estimated that rates in August, 1922, were 30 per cent. below those of August last year, and in September were 50 per cent. lower than in September, 1921.

In the six months ended October, it is set forth, there was only a slight decline, amounting to 100,000 tons, in freight carried by Shipping Board vessels as compared with the same period last year, but there was a decline of $30,000,000 in freight revenues. This decline more than ate up the $27,000,000 of operating economies effected, and destroyed the hope that anything approaching a balance of income and outgo could be struck.

HAMBURG-AMERICAN BUYS THE ALGERIA

Vessel Will Replace the Hammonia, Recently Sunk.

The purchaser of the Anchor liner Algeria, the ex-German Kigoma, was revealed yesterday as the Hamburg-American Line, which will operate her in the service to Cuba and Mexico from Continental ports, replacing the Hammonia, which sank recently in European waters with great loss of life.

The Hamburg-American Line will enter the new steamer Thuringia in the New York-Hamburg service to replace the Wuerttemberg, beginning with the January 19 sailing from Hamburg. The Thuringia is a turbine drive oil burner, 9,000 gross tons, with cabin accommodations for 150 and third class room for 700. A dining room, ladies' parlor and smoking room are provided in each class.

In a few months the Westphalia, sister ship of the Thuringia, will be completed and entered in the New York-Hamburg service, operated jointly by the United American Lines and the Hamburg-American Line, with weekly sailings.

SHIPBUILDING HERE SHOWS BIG INCREASE

All Going Into Coastwise and Lake Services.

A substantial increase in shipbuilding in the United States is shown in figures issued yesterday by the American Bureau of Shipping, giving the returns as of November 1. At that time seagoing steel tonnage building and contracted for totaled twenty-nine ships of 170,390 gross tons, as compared with twenty-five ships of 156,890 gross tons on September 1.

All the ships now being built are for coastwise or Great Lakes services, which by law are protected from foreign competition. Separated as to methods of propulsion, all but one have reciprocating engines, the exception being a single Diesel engined tanker of 1,500 gross tons. As to the use of coal or oil as fuel, the tonnage is about equally divided, due to the invariable use of the former fuel for Great Lakes carriers.

DELIVER FLOATING DRYDOCK.

Towed From Germany to Buenos Aires.

A new floating drydock constructed at Emden, Germany, pursuant to a contract concluded in 1914, has been delivered to the Argentine Government at Buenos Aires and is now in service, according to advices to the American Bureau of Shipping. Towed by two tugs of 1,200 and 900 horse-power respectively, the dock took three months making the transatlantic passage, and arrived without the slightest mishap.

The dock can handle vessels of 4,000 net tons or 10,000 gross tons. It will mainly be used for the Public Works Department and the Argentine navy.

MISSION WILL CELEBRATE.

The fiftieth anniversary of the McAuley Water Street Mission, 316 Water street, will be celebrated in Carnegie Hall Thursday evening. It is the same place in which the twenty-fifth anniversary of the organization, known as the first welfare mission in the United States, was observed. The principal speaker of the evening will be the Rev. Ernest M. Stires, pastor of St. Thomas's Protestant Episcopal Church. Chauncey M. Depew will be honorary chairman and R. Fulton Cutting will preside.

DRUG VENDOR SENTENCED.

Convicted of selling cocaine and heroin, Steve Manson yesterday was sentenced by Judge Julian W. Mack in United States District Court to serve a year and a day in the Federal prison at Atlanta, Ga.

CLOSING OF MAILS.

Foreign mails will close promptly as indicated below at the General Post Office and City Hall Station. Ordinary prints, samples, parcel post packages and registered articles close two hours earlier, except that registered articles have to be mailed between the hours of 8 AM and 12 PM. At the Foreign Station (corner of Morton and West streets) foreign mail closes half an hour later than at the General Post Office and City Hall Station. Supplementary mail closes at the General Post Office and City Hall Station, where double postage is required. SUPPLEMENTARY MAIL (double postage required) closes at the Foreign Station half an hour later than the supplementary closing time shown below, except that supplementary mail for European countries and for Central America, &c, via Cristobal, closes one hour later. Whenever mail vessels sail between the hours of 9 AM and 6 PM a supplementary mail post office on the steamship pier is open to the public 1½ hours before the scheduled sailing time and closes 10 minutes before the scheduled sailing time. Double postage required. The steamers for which supplementary mail is accepted on the pier at time of sailing are shown below by a dagger (†) following time of closing of mail.
