SEES FOREIGN TRADE DOMINATED BY U. S.

Director Klein Says 'Bulge' Now Held Will Attain Object if Pressed.

CRISIS PASSED SAFELY

Bureau Chief Reports American Inroads on Recovering European Competition.

WASHINGTON, Dec. 17.—American business has just gone through "one of the most crucial periods in the history of the nation's foreign trade" and has gained some ground against the inroads of a "recovering European competition," Dr. Julius Klein, Director of the Bureau of Foreign and Domestic Commerce, declared in the annual report of the bureau, made public to-day. The American exporter, he said, has firmly grasped the opportunities presented and is intrenched in the world markets in a better fashion than ever before.

Dr. Klein reported gradually increasing exports, together with a "remarkable, nationwide interest" in foreign trade as reflected by requests for foreign trade information at the rate of 4,000 a day, compared with 1,000 a year ago. It was added that a heavy percentage of the number of queries and confidential circulars as to trade opportunities have resulted in the closing of contracts.

More than 50,000 merchants and manufacturers called in person at the bureau's divisional offices, while the general headquarters here was instrumental in the extension of foreign sales organizations of several thousand firms. To obtain better results Dr. Klein has recommended the transfer of the Government's statistical organization from the Treasury to the Department of Commerce. Such a change, he said, would give the Commerce Department control over the preparation of the statistics concerning trade which it now distributes.

Dr. Klein declared that every business man, large or small, must be supplied with all data that would enable him better to meet new and changed conditions wherever there are markets. He said the "bulge" now held by American foreign trade forecasts the future domination of the world markets by this country's exporters provided they continue to fight for the business.

$350,000 FIRE SWEEPS SCHOOL IN BELLEVILLE

Nothing but Walls Left in Jersey Building.

BELLEVILLE, N. J., Dec. 17.—Fire of undetermined origin destroyed Public School No. 4 here early to-day, causing damage estimated at $350,000.

The blaze started in one of the classrooms opposite the boiler room, it was learned, and rapidly made its way through the building. To-night nothing but the bare walls remained. The school, which housed more than 1,100 pupils, was the largest of the seven in the city.

James J. Turner, clerk of the Board of Education, said to-night that he believed some one was in the school at the time the fire started. An investigation will be begun by the school board to-day.

COAL SUBSTITUTE MAY CAUSE DEATH OF USER

While trying to meet the coal shortage by splitting railroad ties in his cellar yesterday Louis Careno, 40 years old, of 359 Columbia street, Orange, N. J., dislodged part of his fuel supply, which was piled to the roof, and was knocked down by an avalanche of ties.

One of the ties struck Careno's head, jamming it against the cement floor, and fractured his skull. He was taken to Orange Memorial Hospital, where he was reported in a serious condition.

BUILDER FOUND BADLY HURT.

Special Dispatch to THE NEW YORK HERALD.

ROOSEVELT, L. I., Dec. 17.—Herman Baalweg, 38, a New York builder, who lives at 9 Homan place, Baldwin, was found unconscious at the entrance to Greenfield Cemetery here early this morning. His skull had been fractured, his right leg broken and his body bruised. Nothing of value was found in his possession and the police do not know whether he was clubbed by highwaymen or struck by an automobile. He is in a serious condition in the Nassau County Hospital in Mineola.

The corrected reading of the barometer (reduced to sea level) at New York on Sunday, Dec 17, 1922, at 8 AM, as reported by the United States Weather Bureau, was thirty and three-hundredths (30.03) inches. This closely approximates seven hundred and sixty-two and seven-tenths (762.7) millimeters. Captains of all vessels now lying in or near the ports of New York and Brooklyn can advantageously use the above official data for observing whether their own barometers require any considerable correction or adjustment.

Wind at Sandy Hook, 8 PM, NW, 28 miles; clear; moderate sea; visibility, 12 miles.

MARITIME MISCELLANY.

The 1923 edition of the Custom House Guide, which was first published in 1862 and has made itself a record of increasing authoritative value to every one interested in warehousing, exporting, shipping, forwarding, &c., will be published early in January. The current copy is a comprehensive collection of customs and shipping data, compiled in cooperation with Government officials and chambers of commerce. Its 1,000 pages of ready reference, revised to date, include the last United States tariff, with articles alphabetically arranged and in such readable form as to be of great value to importers. It also contains a business directory of representative warehousemen, customs brokers, exporters, importers and steamship and railroad lines. The edition is issued from the Brokers' Room, Custom House, New York city, and should prove a necessity to those interested in customs matters.

ST JOHNS, NF, Dec 17—One hundred and twenty passengers of str Prospero, which ran aground on small island near Greens Pond, on the east coast of Newfoundland last night, were safely landed this morning. The vessel, which is owned by the Newfoundland Government, was refloated later with Nos 1 and 2 holds damaged.

NOTICE TO MARINERS.

The Hydrographic Office under the Navy Department is established to aid mariners. It publishes nautical charts, books, tables and periodicals. It broadcasts by radio all urgent information involving danger to vessels. Its branch offices have the latest hydrographic information of all parts of the world and are prepared to serve mariners in many ways. Mariners are invited to call at the branch offices between the hours of 9 and 4:30, where they will be cordially welcomed. All mariners are requested to forward promptly to the nearest branch office all hydrographic information. The Branch Hydrographic Office, New York, is situated at 76-80 Broad street.
