YOUNGSTOWN SHEET TO BUY BRIER HILL

Directors of Latter Company Recommend Purchase by Big Independent.

YOUNGSTOWN, Ohio, Dec. 20.—Directors of the Brier Hill Steel Company at a meeting to-day decided to recommend to stockholders the purchase of the company's properties by the Youngstown Sheet and Tube Company, probability of which was announced yesterday by James A. Campbell, president of the latter concern.

The combination is to be effected by the exchange of one share of Sheet and Tube common stock for four shares of Brier Hill common stock. The $5,000,000 of Brier Hill preferred stock either will be retired at 105 or traded for Sheet and Tube preferred stock, share for share.

Evidence of the appropriation of financial and investment interests in connection with the proposed purchase of the Brier Hill Steel Company by the Youngstown Sheet and Tube Company was shown to-day in the enhanced prices of the stock of both companies in local dealings. Sheet & Tube stock sold at 73 yesterday before the announcement by James A. Campbell, its president, that the merger was likely to be consummated. To-day no stock could be obtained under 77. Brier Hill, which sold at 13½ a few days ago, now cannot be obtained at 18.

The higher levels are said to be a reflection of the general opinion in steel circles here that the earning power of the combined properties will be considerably increased by the broadening of facilities and the economy of overhead expense.

The enlarged Sheet and Tube property will be the largest independent company in the country with the exception of the Bethlehem Steel Corporation. It will have a pig iron capacity of 1,350,000 tons annually and steel production of 2,200,000 tons, with facilities for making practically a full line of finished steel products.

The book value of the combination will be approximately $180,000,000.

TWO PITTSBURGH STEEL CONCERNS IN MERGER

Oliver and Morris & Bailey Combine.

Special Dispatch to THE NEW YORK HERALD.

PITTSBURGH, Dec. 20.—A merger of the Oliver Iron and Steel Company, with the Morris & Bailey Iron and Steel Company, both pioneers in the industrial history of Pittsburgh, was announced last night. The new company will be known as the Oliver Iron and Steel Corporation. It will have an authorized capital stock of $8,000,000. The president will be Henry Oliver.

The new corporation, through holdings in the Oliver & Snyder Steel Company, will operate large independent coke plants in the Connellsville coke region near Uniontown. It also has its own supply of steam coal.

STEEL PRICES GO UP; MILLS STILL ACTIVE

Quotations Higher for First Time in Thirteen Weeks.

Activity in the steel industry continues, according to the current issue of the *Iron Age*, which reports that "the slowing down commonly looked for in the last third of the month will be less than in any other year since 1917." Winter weather has as yet brought only few complaints from steel plants on account of car shortage. Chicago is still leading in indications of a high rate of operation for the next few months. The automobile industry continues to be an important factor in current business.

"With 60 locomotives and nearly 6,000 cars closed it has been another good week in railroad buying," the report adds. "Over 154,000 is the total of car purchases so far this year. Nearly 4,000 cars and 130 locomotives have been added to the pending lists, which represents about 500,000 tons of steel. The International and Great Northern is in the market for 14,000 tons of rails, which are expected to be placed in the South."

The *Iron Trade Review* says:

"General strength is due in large part to the heavy accumulation of orders for future delivery, a considerable part of which has been acquired in recent weeks. This tonnage is well spread through the first quarter of 1923 and it presents fair probability that the industry will be enabled to maintain its present operations of 80 to 85 per cent. through that period.

"To insure material for spring renewal and upkeep Western roads already are specifying freely for large quantities of track accessories. Recapitulation of recent pig iron selling shows the total in the first two weeks of December was well over the previous estimate of 1,000,000 tons. British exports of pig iron and ferromanganese to the United States in November were 63,000 tons, bringing total imports of British pig iron by American consumers to about 225,000 tons in the last eleven months.

"The *Iron Trade Review's* composite of fourteen iron and steel products for the first time in thirteen weeks shows an advance instead of a decline. The average is $40.54, against $40.23 last week and $44.26 the last week in September, which was the year's peak."

NOVEMBER RAIL EARNINGS.

Kansas City Southern First to Report for Month.

The first statement of November operations by a railroad of the country has been made by the Kansas City Southern, showing net income for the month of $231,878 against $269,684 last year. Gross for the month was $1,828,828, compared with $1,679,068, while expenses were $1,379,732, against $1,303,975.

For the eleven months ended November 30 last gross was $18,407,564, against $20,185,393; expenses were $13,725,102, against $14,718,789, and net $3,484,203, compared with $4,485,324 in the corresponding period of 1921.

DIVIDEND PAYERS HEADED BY BANKS

Extras by Two N. Y. Institutions—Sharing of New Stock Continues.

Mechanics and Metals National Bank declared an extra 2 per cent. dividend in addition to the regular quarterly disbursement of 5 per cent., payable January 2 to stock of record December 23.

The Title Guarantee and Trust Company declared an extra dividend of 3 per cent. in addition to the regular 3 per cent. quarterly dividend, payable January 2 to stock of record December 22.

The stock of Sterling Salt Company has been increased from $2,200,000 to $3,300,000, and part of the increase is to be issued as a 25 per cent. stock dividend, payable to stock of record December 22.

Stockholders of the Equitable Trust Company approved proposals to increase the capital from $12,000,000 to $20,000,000 through issuance of a stock dividend of $4,000,000 and to offer a similar amount of stock for subscription at par. The stock dividend is payable December 30 to stock of record December 20, and the offering will be made to holders of record December 20.

The Erie Lighting Company declared an initial dividend of 25 cents a share on its common stock, payable December 30 to stock of record December 28.

Stock of the Chapman Valve Manufacturing Company has been increased from $1,000,000 to $1,500,000 for payment of a 50 per cent. stock dividend.

Stockholders of Ludlow Manufacturing Company will meet on January 10 to authorize the issue of 20,000 additional shares of stock which will be offered to stockholders at $100 in the ratio of one to six.

The Monoman Spinning Company declared a quarterly dividend of $1.50 a share, payable January 2 to stock of record December 19.

The Lawton Mills Corporation declared a quarterly dividend of 2 per cent. and an extra dividend of 2 per cent., payable December 30 to stock of record December 23.

The Crane Simplex Company declared an initial dividend of 1¾ per cent. on the preferred stock payable January 3 to stock of record December 21.

The Edward Ford Plate Glass Company of Toledo has increased its authorized capital stock from $3,200,000 to $10,000,000.

Directors of American Safety Razor Company will be held in Denver on January 10 to authorize the issue of 20,000 additional shares of stock which will be offered to stockholders at $100 in the ratio of one to six.

The Metzler Company, Inc., has called a special stockholders meeting for December 29 to increase stock for payment of a 100 per cent. stock dividend.

A special meeting of Continental Oil Company will be held in Denver on January 18 to authorize reduction of the par value of its shares from $100 to $25.

Stockholders of Johns-Manville, Inc., have approved a proposal to increase capital stock from 25,000 shares to 250,000 shares of no par value stock. The new stock will be distributed in the ratio of eight new shares for one old share, and the remaining 50,000 shares will be sold to employees at $50 a share.

The British-American Tobacco Company, Ltd., for the year ended September 30, 1922, reports net profits of £4,400,783, after all charges and income tax, &c., against £4,322,481 in the previous year. Payment of a final dividend of 9 per cent., free of tax, payable January 18, has been recommended and also an interim dividend of 4 per cent. on account of 1922-23.

The National Exchange Bank of Providence, R. I., declared yesterday a stock dividend of 150 per cent., which is to the amount of $750,000.

The stockholders of the Algonquin Printing Company, Fall River, Mass., voted to ratify the recommendation of the directors to declare a stock dividend of 100 per cent. by increasing the capital stock from $500,000 to $1,000,000.

SINCLAIR CO. TO BUY SALT CREEK CRUDE OIL

Secretary Fall Completes Deal in Wyoming.

WASHINGTON, Dec. 20.—Acceptance of a bid of the Sinclair Crude Oil Purchasing Company for purchase of all royalty oil accruing to the Government in the next five years from the Salt Creek field in Wyoming was announced to-day by Secretary Fall of the Department of the Interior.

This transaction, he said, marks the completion of his program to place Salt Creek crude oil on a price parity with similar oils from the midcontinent field, and will bring the Government seventy to ninety cents more a barrel for this royalty than was received under a contract with the Shipping Board.

The price range in the midcontinent field is from $1.40 to $1.60 a barrel, and at the present rate of production the Government receives 9,000 barrels of royalty oil daily from the Salt Creek field.

This oil will be sold at midcontinent prices to the Sinclair company and the proceeds divided, as provided by law, 52½ per cent. going to the reclamation service, 37½ per cent. to the State of Wyoming and 10 per cent. to the United States Treasury.

WOULD ABANDON ROAD.

WASHINGTON, Dec. 20.—Receivers of the Chicago, Peoria and St. Louis Railroad asked permission from the Interstate Commerce Commission to-day to abandon that line in its entirety. Operations for several years have been at a heavy loss, the application said, and the road is unable to pay $120,000 in taxes assessed against it by the State of Illinois. The road is 237 miles in length, operating between Pekin and Grafton, Ill.

TWO NEW DIRECTORS.

Charles D. Hilles, resident manager for New York State of the Employers Assurance Corporation, Ltd., of London, and W. D. Hannah, president of W. D. Hannah Shoe Company, were yesterday elected directors of the Fidelity-International Trust Company. The directors have declared the regular quarterly dividend of 2½ per cent. payable December 30.

LONGER TERM FARM CREDITS PERMITTED

Acceptances of Six Months Eligible for Rediscount at Reserve Banks.

WASHINGTON, December 20.—Bankers acceptances of six months maturity drawn by growers of staple agricultural products or co-operative marketing associations, are eligible for purchase or rediscount by the Federal Reserve banks under a ruling promulgated today, by the Federal Reserve Board as a step in the direction of longer term credits for agriculture.

Officials declared the decision, which makes the agricultural paper eligible for rediscount for six months instead of three, "should be of material assistance to co-operative marketing associations in financing the orderly marketing of crops."

The ruling requires that the acceptances be secured by warehouse receipts covering the products against which the acceptances are drawn. It is in line with a policy announced some time ago by the Board, which made eligible for rediscount acceptances drawn to finance domestic storage of commodities pending their marketing.

Agricultural paper of this character is placed by the ruling on a parity with acceptances drawn against exports and imports, which have been extended from three to six months.

Officials explained that the six months limitation was as far as the Board could go under existing law. Various bills are pending in Congress, however, to make acceptances with much longer maturity eligible for rediscount by the reserve banks.

$3,215,000 IN GOLD ARRIVES ON OLYMPIC

Goes to Morgan Firm and Kuhn, Loeb & Co.

The White Star liner Olympic brought $3,215,000 gold, of which $2,630,000 was consigned to J. P. Morgan & Co., presumably for the account of the British Government, and the balance was sent to Kuhn, Loeb & Co.

The S. S. Caronia of the Cunard Line, which sailed from Liverpool Saturday, is bringing seventy-three boxes of gold valued at approximately $2,500,000. The consignees have not been announced, but it is believed the gold will go either to J. P. Morgan & Co. or Kuhn, Loeb & Co. The Royal Maid steamship brought twenty-six boxes of gold, valued at $900,000, consigned to Kuhn, Loeb & Co. and previously reported.

CITIES SERVICE NET HIGHER DURING YEAR

Earnings 2.40 Times Above Preferred Dividends.

The report of the Cities Service Company for the twelve months ended November 30 last showed a net to common stock and reserves of $6,900,074, equivalent to $14.82, compared with $6,594,751, or $14.44, last year. Gross earnings were $14,564,749, against $14,094,814, and expenses $439,514, against $546,239. Earnings were 2.40 times above preferred dividends, compared with 2.36 in 1921.

The public utility division during November made gains in gross and net compared with the preceding month. The oil division reported completion of twelve oil wells with a total initial production of 6,360 barrels. The marketing division reported increased sales. The report says: "Not only have sales direct to the consumers shown the effect of increased activities, but our refineries have far exceeded their sales of a year ago and should finish 1922 with approximately 75 per cent. increase in sales over the year 1921."

TO ADMIT NEW PARTNERS.

Henry Goldman, Jr., Thomas G. Campbell and Cyprian A. Toolan will be admitted to the firm of L. M. Prince & co. on January 1.
