SOMETHING NEW AND REALLY GOOD,
FOR THE USE OF EVERY BODY.

DR. SHERMAN'S
PATENT ANATOMICAL CHEST EXPANDER
AN INVENTION WHICH HAS NO EQUAL.
Its Simplicity and Effect are Remarkable.

THE Brace is unlike all others, infinitely superior to any of the gimling contrivances called Shoulder Braces, it having no belts or straps to it, nor anything heating or binding under the arms; while it leaves the shoulders unencumbered and free for any exercise, making it worthy the attention and consideration of every one who values health and strength, combined with easy deportment.

All are respectfully solicited to call, examine the article, and satisfy themselves of its utility, &c., at the Proprietor's Office and Salesroom, No. 76 St. Charles street, New Orleans.

Persons in ordering the Chest Expander must send the number of inches around the chest, waist and hips, and the height of the body.

☞ Female attendant for the sale of Corsets.

In calling observe the name and number on the door.

TO PLANTERS, BUILDERS, &c.

Southern Fire-Proof Roofing.

THIS undersigned offers to the public a Fire-Proof Roofing material possessing the following advantages over everything of the kind which has heretofore been introduced:

It is cheaper than Slate, will last as long, needs no painting, and when finished has the appearance of Slate.

It is incombustible, it is impervious to water, is not affected by the impurities of the atmosphere or by the sun, and is a non-conductor of heat.

It can be applied to any species of roofs, flat, or inclined, with the ordinary tools of the trade, taking the place of sheeting or cement, and will give a building so covered the external appearance of long established Slate roofs.

For the roof of cars, steamboats, and steamboats, it is invaluable, and would render railroad too important a consideration for the preservation of cotton, which is so liable to be exposed to the atmosphere on the water.

It is not perishable, when applied to sills or plank, and will not crack, nor can it be removed by any freezing.

Orders addressed to GLENNON, COLEMAN & CO., No. 56 Carondelet, Canal, or Gravier streets, will be promptly put on, as roof covered with it can easily be installed in any part of the country.

CHARLES BRIGGS,
JEFFERSON PARISH, January 19, 1858.

I do hereby certify that I have used the roof of my Sugar-House covered with the Southern Fire-Proof Roofing of Messrs. Glennon, Coleman & Co., and so far it has given perfect satisfaction.

CHAS. DUSUAU.

New Orleans, January 11, 1858.

Glennon Coleman & Co.—Dear Sirs—We do with pleasure recommend your Southern Fire-Proof Roofing, after having some ten buildings covered with it, and we cheerfully recommend it to the community as a safe, cheap and durable Roofing.

Respectfully yours,
OLIVER R. P. & M. P. CAMPBELL,
No. 208 Carondelet street.
