A Novelty in the Art World!
Photography Upon Porcelain.
Secured by letters patent in the United States, England, France and Belgium.
The American Photographic Porcelain Co.,
No. 784 Broadway, New York,
having secured their novel and legitimate institution in America and Europe, patents, are fully prepared to execute all orders for
Miniature Likenesses of Persons on China
combining all the attractive and adventurous features of ordinary photographs, but infinitely more lasting and superior in beauty and durability to any other process, and a hitherto unattainable equality of durability, by being rendered as impervious to the natural properties of the articles upon which they are transferred.
As the patented process of the Company enables a reproduction of Photographs, not only on plain surfaces but upon such as are round or of any degree of irregularity—portraits can be reproduced with facilities accuracy, and delicacy of life upon Porcelain vases or any description and dimension usual in articles of fancy or of household utility, such as
Urns, Vases, Breakfast Cups, Toilet Articles, &c.!
thereby securing faithful portraits and furnishing a unique and elegant style of ornament, adapted to all classes in domestic use.
In order to afford facilities for the gratification of the popular taste, and to meet the wants of those admirers of the Fine Arts desirous of having Portraits of Dear Ones, the Company have determined to offer for a collection of superior premium goods, manufactured to their own order, in Paris, and at low prices.
As the American Company are owners of the patent rights, and consequently the only persons authorized to use the process, they have determined, in order to afford facilities to the wants of the Human an opportunity to secure
Portraits on China,
to make the following liberal offer to residents in the country who are unable to visit personally the Atelier and Galleries in New York.
Persons sending a daguerreotype, ambrotype, or daguerreotype to the office of the Company in New York, accompanied by
Five Dollars,
will receive in return by express, free of other charge
A richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.
By transmitting a daguerreotype and
Ten Dollars,
they will receive in the same way,
A handsome French Vase or Toilet Article
with the portrait transferred to the prepared porcelain, by sending a pair of daguerreotypes and
Fifteen Dollars,
they will receive in return
A Pair of rich Sevres Vases,
with the portraits neatly copied in miniature paintings, and, in like manner, portraits can be reproduced on porcelain urns or
Vases of every quality of finish,
ranging in price from
Twenty to One Hundred Dollars the pair.
N. B.—No charge for copying in writing the address, town, county and state in full.
All letters to be addressed to
MANAGER, AMERICAN PHOTOGRAPHIC PORCELAIN COMPANY,
281 Broadway, New York.

PERPETUAL LIFE.
SOLAR PHOTOGRAPHS.
THEY CAN
AND ARE MADE TO SPEAK,
In silence, SAVING to the beholder
BEAUTY AND PERFECTION
ENDURETH FOREVER.
Those who LOVE the Fine Arts
CAN
enjoy a few moments and
NEVER
tire of the time, which it would be profitable spent in the Gallery of Fine Arts.
It is said that a Skillfully Colored Photograph is life preserved, for it cannot
DIE
or even fade away. In this age's day the motto was
"SECURE THE SHADOW
ERE THE SUBSTANCE FADE."
In modern time is the motto of here and
GO TO BARNES' TEMPLE OF ART
AND GET THE SUBSTANCE MADE.
The proprietor thus takes to render his grateful acknowledgments for the liberal patronage with which he commences. Should have enabled him and would indeed be ungrateful if he did not, in return, to tender his services to the public, and will be pleased to receive a call from all who may be interested in the various fine arts of the most approved European and American Daguerreotypes and ambrotypes, and Solar Photographs, which he is capable of producing.
Mr. BARNES would have exhibited a MAMMOTH SOLAR FRAME, in order to exhibit a Photographic Picture to the Public, but it is too large for a single room, and therefore Artists are capable of producing.
Mr. BARNES would have exhibited a MAMMOTH SOLAR FRAME, in order to exhibit a Photographic Picture to the Public, but it is too large for a single room, and therefore Artists are capable of producing.

JUDSON'S
Mountain Herb Pills.
Above, we present you with a perfect likeness of Judson, it and is the image of the almanac from Nature, that once ruled Rosina. You will find a full account of him and his people in our pamphlets and almanacs—to be had gratis from the agent of those Pills.
The inventor and manufacturer of "Judson's Mountain Herb Pills," was among the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was then that the "Mountain Herb Pills" were discovered. A very few of these herbs are used in these pills, and will find in their combination a remedy for all diseases arising from
IMPURE BLOOD!
The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the pinch, and all take sides against the intruder. The stomach will not digest the food properly. The liver ceases to secrete healthy bile, the action of the heart is weakened, and so the circulation is feeble. The lungs become clogged with the poisonous matter; hence, a cough and all the train of symptoms which lead to the land of Lincoln (Rest). As if you had chosen some earth, to make a slight scratch on the surface of the heart is enough
