The following communication from the Comptroller, forwarding statement relating to the finances of the city as requested by resolution adopted by the Council December 22, 1899, was read and filed:

City of St. Louis,
Comptroller's Office,
St. Louis, Jan. 22, 1900.

To the Honorable Council of the City of St. Louis:

Gentlemen—In compliance with your resolution of December 22, 1899, I forward to you, enclosed herewith, statements giving information in relation to Municipal Revenue, as follows:

First—Actual to date of all appropriations during the fiscal year up to January 1, 1900.

Second—Amount to date of all expenses up to and including January 2, 1900, as shown by the books of the office. The amounts as set out in the statements include the salaries for the month of December, 1899, and ordinary current expenses for the month of November.

Third—The balance standing to the credit of each appropriation.

Fourth—Authority under which appropriations for salaries were made, whether under laws of the State or city ordinances.

The appropriations necessary to fulfill existing contract obligations are not shown in these statements. The appropriations necessary to meet contract obligations were made for the following purposes: Removal of garbage, reduction of garbage, lighting streets, alleys, parks and public places, lighting public buildings, and permanent pavements for maintenance of reconstructed streets. For these purposes the amounts are practically fixed. All other contracts, such as for supplies and public work, depend, as to the amount payable by the city, upon the quantity of supplies furnished or work done, and are provided for, merged with other items in the appropriations for the maintenance of the several institutions and departments, or by special appropriations which are made at the time the work is ordered.

Fifth—The amounts appropriated for salaries, where number of employes is fixed by law, and where the amount is not fixed by law.

Statement 2 also shows the amounts appropriated to cover expenditures by the city in exercising functions of a county, and the amounts appropriated to cover the expenditures in exercising municipal functions.

Statement 3 shows the amounts appropriated, classified according to their general purpose.

It should be noted that in compiling the statements in relation to police force the old police law, which was in force at the time the general appropriation bill was passed, was followed in the tabulation of the information.

Respectfully submitted,
ISAAC H. STURGEON,
Comptroller.
