A GENEROUS OFFER

George B. Wright Discovers a Cure for Lost Manhood and Sends It Free to Every Sufferer Who Will Write for It.

Gratitude is one of the noblest impulses of the human heart, and in few instances has this fine quality been so conspicuously exemplified as in the case of George B. Wright of Marshall, Mich.

Mr. Wright is a merchant and well known citizen of Marshall, Mich., who was permanently cured of loss of manhood and nervous debility after sacrificing health for years. He now devotes his life to helping other men who are as he once suffered. Mr. Wright offers to send the medical prescription that effected his cure FREE OF CHARGE to every reader who is suffering to-day as he suffered. All who will drop him a letter asking for it will receive the prescription well sealed in plain envelope, free of charge.

The following extract by A. N. Tolles, M. D., regarding Mr. Wright's prescription for lost manhood, appeared in the Herald, one issue of the United States Health Reports, published at Washington, D. C.:

"We, at the Institute of Anatomy, offer to all sufferers from Nervous Debility, Lost Manhood, or any other consequence of youthful indiscretion, the assurance that any sufferer may safely address George B. Wright, of Marshall, Mich., and be fully assured that he will receive a reliable, tried prescription, free of charge, that will speedily and permanently restore the lost manhood, strength and development of any man who has not passed the Rubicon."

We, at the Institute of Anatomy, advise all such to avail themselves of this generous offer, as it is a fact that many who have lost their manhood through ignorance of the results, have since found that more were ruined by the cure than by the disease, for the latter, when not too long continued, does not usually impair the generative function, while the cure, when improperly administered, has ruined many a man.

Being in receipt of many letters upon the above subject, addressed to George B. Wright, a merchant of Marshall, Mich., we instituted a local chemical laboratory examination and found that the wonderful efficacy claimed upon his behalf is fully justified by the results of the prescription, when used according to proper directions, and that it contains no injurious drugs, but is composed of pure vegetable extracts, and is perfectly harmless in its effect upon the most delicate organism.

Among the benefactors of the race may be mentioned the name of George B. Wright, inasmuch that he gives this grand discovery free to all who write for it.

Taken according to directions, it builds up the weak and nervous to full size and vigor, the nerve tonic imparts the vigorous force and fire to the sluggish brain, so that it should especially and above all certain cases and every ingredient known in the prescription, is so well known to be quite harmless and worthless.

Properly mixed and containing everything called for in the prescription, it is a wonderful and yet perfectly harmless compound, and is perhaps the most marvelous specific ever discovered
