STEAM RAILWAYS' INCOME ACCOUNT.

The Preliminary Report Issued by the Interstate Commerce Commission.

INCREASE OVER LAST YEAR.

Nearly Sixty Million Dollars Excess in Gross Earnings—Passenger Traffic—General Railroad News.

The preliminary report of the income account of railways for the year ending June 30, 1899, has just been issued by the Interstate Commerce Commission. It was prepared by Henry C. Adams, statistician of the commission, from returns filed by common carriers of the country in reply to a series of questions propounded. Mr. Adams calls attention to the fact that the report is "preliminary" only, and some minor corrections may be necessary when the final report is presented.

The total gross earnings of the railways included in this preliminary report during the year ending June 30, 1899, were $1,307,-253,484. The total gross earnings shown in the report of the previous year were $1,238-252,200, and in the final corrected report were $1,247,325,621. If comparison be made with the figures submitted in the final report, it appears that the gross earnings for the year ending June 30, 1899, are $59,927,863 in excess of the previous year.

The aggregate earnings of the passenger service during the year covered by this report were $589,227,219, or, $1,945 per mile of line, being an increase of $132 per mile of line as compared with the final report of the previous year. The aggregate earnings of the freight service were $612,358,468, or $1,951 per mile of line, being an increase per mile of line as compared with the final report of the previous year of $158. A comparison of this comparative statement with the corresponding statement for the years 1897 and 1898 discloses an interesting fact.

The increase in earnings per mile of line in passenger service for the year 1898 over 1897 was $87, while the increase in earnings per mile of line from the freight service for the same year was $223. It thus appears that during the year covered by this report the passenger service shows a relatively greater increase as compared with the increase of the previous year than the freight service.

The operating expenses during the year covered by this report were $852,128,165, being an increase as compared with the operating expenses declared in the final report of the previous year of $94,653,829. It is a significant fact as bearing upon the prosperity of the railways that this increase in operating expenses may be necessary when the final report is presented. The net income from operation during the year was $455,356,319, this being the sum from which interest on bonds, taxes, permanent improvements charged to the income account, dividends and other allowance charges must be taken.

A number of tabulated statements are given, showing details of earnings in comparison with former years.

CANADIAN PACIFIC

Semiannual Meeting, at Which Dividends Were Declared.

Montreal, Feb. 12.—At the meeting of the directors of the Canadian Pacific Railway Company to-day the usual half-yearly dividend of 2 per cent on the preferred stock was declared. The dividend of 2 per cent was also declared on the ordinary stock, making, with the dividend already paid, 3 per cent for the past year.

The results for the year were: Gross earnings, $22,200,000, working expenses, $14,500,000; net earnings, $7,700,000; income from other sources, $1,100,000; total net income, $8,800,000; less amount applied against ocean steamships, $100,000; less fixed charges, including interest on land bonds, $5,500,000; net revenue available for dividends, $3,300,000. After the payment of all dividends declared, the surplus for the year carried forward is $2,300,000.

Divisional Point on Missouri Pacific.

REPUBLIC SPECIAL.

Jefferson City, Mo., Feb. 12.—Recently dispatches from Sedalia announced that the trainmen on the main line of the Missouri Pacific Railroad were almost unanimous in the opinion that the Eastern division, from St. Louis to Sedalia, was too long, and that Superintendent Hardy would recommend that the divisional point be made at Chamois. This would give three divisions from St. Louis to Kansas City. Information was received here to-day to the effect that the management did not intend to reestablish the divisional point at Chamois, but if any changes were made at all that Jefferson City would be the divisional point. It is 105 miles from St. Louis and sixty-four miles from Sedalia. One crew could double on the division to Sedalia from this point and the three divisions could be handled easily in that way.

New Choctaw Bridge.

REPUBLIC SPECIAL.

Texarkana, Ark., Feb. 12.—All of the material and implements arrived here today for the construction of the bridge of the Arkansas and Choctaw Railroad across Red River. The crossing is twenty-two miles north of this place and the span will be much larger than any of the other bridges across that stream.

The Western Union Telegraph Company began to-day the erection of a system of wires along the route, and stations will be opened up to the end of the track in ten days. The road will touch the M., K. & T. at a point in the Indian Territory. The track is now forty-four miles long.

Against the Secretary of State.

REPUBLIC SPECIAL.

Austin, Tex., Feb. 12.—The case of the Galveston, Houston and Northern Railway Company against Secretary of State D. H. Hardy in the Supreme Court was decided to-day. It was an application for a mandamus sued out by the railway to compel the Secretary of State to accept certain bonds of the company, and file and register them without the customary fee of $1. The court granted the application for mandamus and held that the Legislature did not state in positive terms that the Secretary of State should charge the fee of $1.

Eveland's Weather Record.

L. R. Eveland, the "fat, fair and forty" travelling passenger agent at Chicago of the Rio Grande Western, was in St. Louis Sunday, and told Joe Delaplaine, city passenger agent of the Burlington, all about the wonders of the climate in Salt Lake City, Utah. He has committed to memory a stereotyped spiel, which runs like this:

"The month of January proved a remarkable one, especially in the matter of climate. The mean temperature was 35 degrees, or 7 above the average. The maximum temperature was 57 degrees. The minimum temperature for the month was 20 degrees above zero, on New Year's Day. The sunshiny days averaged 22 per cent. There was very little wind, the highest one having been 48 miles, which blew on the 16th. The rainfall for the month was but .40 inch, and the snowfall amounted to 13 inches, another record-breaker. No other city in America can show such climatic conditions for the month of January. The streets are being sprinkled to-day, and have been for several days. This month is likely to be just as pleasant as January."

Joe says there are no records, as St. Louis has them, at in January and is likely to do it again this month.

New Through Service.

Omaha, Neb., Feb. 12.—On Feb. 25, when the new through service on the Burlington and Rock Island routes goes into effect, the Burlington announces it will put on another new fast train that will have Omaha, as announced previously, about midnight and make the same time it makes at present. The new train which takes its place will leave an hour later than the present train and reach Chicago one hour later in the evening. The new train westbound will run on corresponding hours the same time. The make-up of the trains on the Burlington between Chicago and the Missouri River, four of which run on the fast schedule, or about fourteen hours.

Missouri and Iowa Southern.

REPUBLIC SPECIAL.

Sedalia, Mo., Feb. 12.—Colonel E. J. House of Omaha and Judge James Humphrey of Junction City, Kas., arrived here to attend a meeting to-morrow of the Board of Directors of the proposed Missouri and Iowa Southern Railway. A. L. Strang, president of the road, returned today from New York. He says the company is now financially prepared to carry out its project, and work will commence on the railroad inside of thirty days. The road will be built from Sedalia, through Marshall to Miami and thence north to a point in Iowa, which has not yet been designated.

May Cross at Grade.

REPUBLIC SPECIAL.

Springfield, Ill., Feb. 12.—The Railroad and Warehouse Commission today announced its decision in the case of the Illinois Terminal Railroad Company of East St. Louis vs. the Louisville, Evansville and St. Louis Consolidated Railroad Company. The case was a petition to cross the tracks of the latter company at Winstanley Park, just outside of East St. Louis. Permission was granted to cross at grade, the petitioner to install an interlocking device at its own expense and also to pay three-fourths of the cost of operating the plant.

Great Northern Branch.

Minneapolis, Minn., Feb. 12.—It is certain in railroad circles that the Great Northern in the spring will build a branch line to Republica, Wash., leaving the main line at Wenatchee, passing through Okanogan and terminating in the seat of Perry County, tapping the new mining region. Surveying parties have practically completed running the line.

Superintendent Stuart Resigns.

St. Paul, Minn., Feb. 12.—General Superintendent J. C. Stuart of the Chicago, St. Paul, Minneapolis and Omaha Railroad has tendered his resignation, to take effect as soon as General Manager Scott can appoint a successor.

Personal and Current Notes.

—G. W. Gibson, assistant traffic manager of the Mobile and Ohio, is in the city.

—E. S. Orr, general agent of the B. & O. S.-W., was in Kansas City yesterday.

—Frank L. Harris, general agent of the Mobile and Ohio, has returned from a trip West.

—G. N. Clayton, Northwestern passenger agent of the Wabash at Omaha, was here yesterday.

—C. Haile, traffic manager of the Missouri, Kansas and Texas, has gone on a tour of inspection.

—Colonel E. L. Russell, president of the Mobile and Ohio, is in the city and stopping at the Planters Hotel.

—General Manager Howard Elliott of the Burlington has returned from a trip to Missouri River points.

—Thomas Henry has been appointed traffic manager of the Richelieu and Ontario Navigation Company.

—Vice President and General Manager Joseph Ramsey, Jr., of the Wabash has returned from a week's trip East.

—The Adams Express Company will spend a large sum of money in an effort to discover the person or persons who recently shipped a corpse from Baltimore to Sioux City, Ia., marked "Goods." The body, apparently, was that of a murdered man.

—An up-to-date block signal system is to be installed on the main line of the Alton road between Chicago and Joliet, Ill. The signals will be similar to those in use on the Queen and Crescent line, of which company President Felton of the Alton was receiver formerly.

—The Omaha line has already planned improvements in the Southwest which will use up a sum in the neighborhood of $1,500,000 this year. Additional mileage is to be built, a connection into Omaha made with the South Dakota lines, a new short line on the west side of the Missouri built to afford a chance to cut time into Omaha for trains from the Northwest, and improvements, branches and better terminal facilities are being planned which will cost considerable.

—One of the new ten-wheel express engines on the Pennsylvania road recently hauled nine passenger cars up the heavy grade from Kensington to Summit at a speed of thirty-five miles an hour. The makers of this new type of locomotive say that ordinary grades are no obstacle to the speed they claim.

It is said the trainmasters and assistant trainmasters of the Pennsylvania Railroad, the Pennsylvania lines and the Baltimore and Ohio system at Pittsburg have been kept busy recently hearing applications for positions as brakemen. Many stout, robust young men from the farms and country villages have applied for positions on the railroads, and some of them appear to be willing to take any kind of a job offered them.

LARGE SURVEY PARTY.

Land Between Great Slave Lake and Hudson Bay to Be Explored.

Winnipeg, Manitoba, Feb. 12.—The Canadian Government is equipping a large survey party for an examination of the immediate territory lying between the Great Slave Lake and Hudson Bay. This stretches from the Rockies to the Atlantic. It is 200 miles wide and is supposed to contain rich mineral stores.

REAL ESTATE.

Sale of Eighth Street Property at Courthouse To-Day.

Special Commissioner James E. Fogg will sell, at noon to-day, at the east front door of the Courthouse, the property at 1508 South Eighth street, a two-story brick, with improvements, one block from the new Hamilton-Brown shoe factory. The rental is $40 per month.

Visitors on Change.

Representative J. G. Slate of Marles County, Missouri, and Secretary George R. Brown of the Little Rock (Ark.) Board of Trade, were visitors at the Real Estate Exchange yesterday.
