

ALREADY there have been introduced over nine hundred bills in Congress upon almost every conceivable subject...

THE matter of a postal telegraph has received much discussion, but it is not probable that Congress will take any action at this session.

THERE has been some talk of Republicans introducing a tariff bill and getting the credit of reducing the burden of taxation.

NOTWITHSTANDING some opposition to Mr. Cleveland at the beginning of his administration, Democratic unanimity for him now is surprising.

THE Baltimore Manufacturers' Record, in its trade review, states that "a cotton tariff is again being agitated in Winnsboro."

THE people of Sumter have held an indignation meeting, caused by the deplorable shooting at that place. The resolutions adopted deplored lawlessness and the carrying of concealed weapons.

THERE is a great strike on the Reading Railroad in Pennsylvania. Grand Master Workman Powderly blames the workmen for not submitting to the reduction in wages which was agreed upon in September.

MR. LAMAR, at this writing, has not been confirmed by the Senate for the Supreme bench. Sherman and his crowd are opposed to him, and as far as known their opposition to him is on account of his being a Southerner.

THE people of Columbia will soon be called upon to vote whether the city of Columbia shall guarantee the interest on the Canal bonds authorized by the last Legislature.

GEN. SHERMAN will not consent to be used in the Republican emergency. A committee has visited him asking him to accept a nomination for the Presidency.

THE recent lynching in Pickens county of a white man by a party of negroes should cause those who advocate this method of punishing crime to pause and reflect.

IT is estimated that since 1880 the South has been producing less cotton to the acre than before that time.

WE have seen this statement before, but we attributed it to a different cause. We supposed that farmers had concluded that cotton was not king and had gone to raising more hog and hominy than before.

takes a man with four eyes to see that more hogs and less cotton is the salvation of the farmers.

British Gold.

The Manufacturers' Record is protectionist through and through. In its latest issue it has a long article on the tariff of which is British gold.

We have heard of newspapers being subsidized by British gold, but we never yet have seen the name of such papers.

Protectionists are much mistaken when they charge British gold with responsibility for the cry for a lower tariff.

The Board of Agriculture.

The last Legislature was guilty of an unfortunate error. The law which changed the composition of the Board of Agriculture had not become a law.

Some of our contemporaries are disposed to be severe upon members for this hasty way of doing things. In all legislation deliberation should be the rule, of course, but we are not disposed to be too heavy on the Legislature.

Lamar Not Anxious.

The Republican members of the New York Legislature say that "the safety of our institution and the proper administration of our laws" are endangered by the nomination of Mr. Lamar to the Supreme Court.

It is said that the Ohio Legislature will come out against Mr. Lamar, and it is a curious fact that Senator Payne, Democrat, from that State, is willing to vote against his confirmation in obedience to the wish of his constituents—that is the Ohio Legislature.

They Don't Do It.

The Newberry Herald and News, in commenting upon the Sumter tragedy, says: "The pistol will be ever ready as long as the habit of carrying it is sanctioned by public sentiment."

That public sentiment has not yet been educated to the point of condemning the carrying of concealed deadly weapons no one will deny, but it must be admitted that in South Carolina this condemnatory sentiment has taken a fast hold, and it is only a question of time when it will bring forth greater results.

We take issue with our contemporary when it states that "our leaders in politics and thought continue to carry pistols with impunity."

We believe this statement both incorrect and unjust. Our "leaders in politics and thought," so far as we know, have been the very persons to first take up this matter, and they are the ones who have done most to create what public sentiment there is against this practice.

We believe the very reason that we seldom hear of men of prominence being tried for this offense is because they practice what they preach and seldom violate law. There are exceptions to all rules, of course, but as a class the leaders of politics and thought in South Carolina are a law-abiding and law-loving body and are not guilty of carrying pistols habitually as charged.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with Headache, You are indigestive, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their stimulus you for an hour, and then leave you in worse condition than before.

No Cause for Alarm.

The agents of various railroads leading to the West have again been going through the country persuading negroes to leave their homes and go to Arkansas and other Western States.

Over two hundred left Anderson recently. These large migrations of colored people have been the source of much alarm to the planters of this State.

It is to be hoped that under the operation of the new law tax-dodging will be a thing of the past and every foot of land be made to bear its just proportion of the burden of the government.

We are proud to say that there is not a single tax-payer in Fairfield county who has taken advantage of the inefficiency of the tax laws, but in the name of fairness and justice we insist that those who have not paid their taxes should contribute voluntarily their quota to the necessities of the State be made to do so.

There is due the State the enormous sum of \$205,000 by the owners of real estate who have not paid their taxes—some of them for years—and it is fair to presume that this sum has been made good by the other taxpayers.

QUITE AS BAD AS BULLETS.

An Old Soldier writes to the Campaign in Virginia—The South—Subashi—Twenty-first, 1888.

Gentlemen—You are sending whether or not I had been killed by Kaskine, and if so to what extent, &c., to hand. In reply to say that my health has not been as good in twenty years as now.

I suffered with chills from malarial poison contracted while serving in the Confederate army on the Peninsula Campaign in Virginia. Did not miss having a chill at least once in twenty-one days, and more frequently once in seven days, for more than fifteen years.

In this condition I visited New York in November, 1885, on business. While there I stopped with Mr. E. D. Barker, of the University Publishing Company. I told Mr. Barker of my condition. He called my attention to your Kaskine and procured for me a bottle. After my return home I took the pellets as directed and found much relief.

Now, unless in case of exposure to extra bad weather, I do not have chills, and my general health is quite good. I turned over half a bottle to a young lady friend a few weeks since. I learn from her mother that she was much benefited by it while it lasted.

I trust you may be able to introduce Kaskine generally in this country, in which many suffer from diseases consequent upon malarial poison in the system.

Seven years ago I had an attack of bilious remittent fever, which ran into intermittent malarial. I tried all the known remedies, such as arsenic, mercury and quinine. The latter was administered to me in heavy and continued doses.

I recently began with Kaskine which broke up the malarial and increased my weight 22 pounds.

Other letters of a similar character from prominent individuals, which stamp Kaskine as a remedy of undoubted merit, will be sent on application.

BUSINESS BOOMING.

Owing to the unusual stringency for the last few seasons, the people generally have practiced economy in their purchases in all branches of trade. The general merchandise business has felt the pressure with the rest.

PEOPLE WILL HAVE NEW FALL GOODS.

In anticipation of this we have filled our shelves fuller than usual. We expected to sell these goods of course, and are assuredly doing it.

AT OUR LOW PRICES.

Now we want to give a timely suggestion to all who are not thoroughly acquainted with our way of doing business. We give our undivided attention to our work, and our motto from beginning has been Small Profits, Quick Sales. Don't fail to try our house.

DRY GOODS AND NOTIONS.

In Dress Goods and Dress Trimmings, last winter we bought heavily and did well with them. This influenced us to do more this fall in that line. Come and see. We intend to clear them out. Handkerchiefs, a big line, and the prettiest we have ever handled. Hosiery, a well selected lot, and the prices we leave to the decision of the purchaser.

BOOTS AND SHOES.

Do you know that there is as much difference in shoes as there is in pie-crusts. You go to a cheap hotel and pay 25 cents for a poor dinner, while at another you pay \$1.00 for a good one.

WE HAVE SOMETHING TO SAY.

Respectfully. A few weeks ago we spoke a little about Low Prices. Hundreds heard it and hundreds responded. 'Twas echoed all over Fairfield County, and people crowded the Great Bargain Store from morning till night.

J. M. BEATY & BRO.

CORNER STORE.

SPEAKING LOUD.

TO THE PEOPLE!

FINE WINES.

REMEMBER that the presence of Generous Beauregard and Early, who are in charge of the drawings, is a guarantee of absolute fairness and integrity, that the chances are all equal, and that no one can possibly divine what numbers will draw a Prize.

WHISKIES.

Mark-down performance. Ladies, just observe the nice Dress Goods we have in stock: Fine (all wool) Diagonal Dress Goods 42 inches wide, marked down to 45c. per yard.

Blankets! Blankets! A good 10-4 White Blanket only \$1.00! Remember we are going to close out our Grocery Store by the 1st of January, and if you need anything in the line of nice, fresh Canned Goods, Candies, etc., we are selling them AT COST.
