WHY

Do we claim we can save you $50 to $100 on a piano? The explanation is very simple. With three factories, the largest piano case factory in the world and warerooms in all the leading cities of the United States, we do business on a larger scale, and can sell pianos on a much smaller margin of profit than smaller concerns. Then, too, we sell directly from the factory to the purchaser, thus saving all middlemen's or dealers' profits. You can buy a piano just as cheap at our St. Louis warerooms as if you made a special trip for the purpose to one of our factories. The result is our patrons can buy a piano $50 to $100 cheaper from us than from dealers, and our guarantee given with every piano sold is as good as United States bonds. We would be pleased to have you call and see the beautiful new styles in the celebrated Bradbury pianos and the popular Webster and Whittier makes, as well as a host of others. F. G. Smith, Manufacturer, 1012 Olive st., A. E. Whitaker, Mgr.
