ALL GRAINS REACT SHARPLY, CLOSING HIGHER.

WHEAT SHOWED A REVERSAL OF FORM.

Corn and Oats Followed Wheat Closely, but Did Not Gain So Much in Price.

Office Republic,
Friday, May 18, 1900.

Grains of all kinds showed a reversal of form this morning, and the speculative situation, during the early hours especially, was one to arouse wild excitement in the pit and entice those who were timidly to the bull side to such an extent that they took hold and in a short time were in complete control of affairs, wiping out the declines of yesterday and closing prices at or near the top. The advices were nearly all favorable to the bulls, notably those of a domestic nature bearing on the crop conditions and the weather, present and prospective. There were several wild flurries in wheat during the forenoon, the effect of which was to throw the bears into a temporary panic and advance values of all grains largely. Strength dominated everything in the cereal line from the opening to the close and one of the strongest and best maintained bull markets was witnessed that has been experienced for some time. During the day the price recessions were few and insignificant. The startoff was not encouraging, to say the least, but the record made by prices of the two leading grains was one to greatly encourage the bulls and the close was one of the best even this week, the decline of yesterday being recovered and the final figures being up close to the top.

Wheat got off in very poor shape this morning, but it was not long after the opening that the strength which has underlaid the situation for several days more itself felt, and before the noon hour this market was under full head of steam and climbing rapidly upward, during which time it displayed life, excitement and unmistakable strength and bullishness. This strength was the feature of the market throughout the entire day, and, while not closing right at the top, the gains made were very substantial. The chief incentives for the strength displayed this morning were the weather conditions and the damage reports.

Trades, however, derived little encouragement from the attitude of foreign markets, the cable information received at the opening being unfavorable. Both London and Liverpool reported quiet markets, the former being unchanged, but the latter 1½d lower, while the Argentine shipments were reported at 1,328,000 bu. and 2,296,000 bu. by different parties. These cables caused weakness at Chicago and St. Louis respectively by starting off at a decline of ¼c at 69½c for July. This weakness was but short-lived however. The damage reports from different sections, together with the weather conditions, were of such a nature as to arouse a feeling of bullishness among local traders, and they commenced to buy freely. So strong was the feeling and so eager were traders to buy that in a very short time after the market opened July sold at 67½@67¾c. There was lessening strength in late cables, they reporting the closing of Liverpool at ¼d. Antwerp ⅛c, Paris ⅛c and Buda-Pesth ¼c, Berlin being unchanged. The day's export clearances were also small at 351,000 bu. The bull lever was on to stay, however, and these cables appeared to have no influence. There were reports circulated that the entire crop of Southern Illinois, Missouri and Kentucky was greatly damaged by the fly and that the crop of Kansas was almost practically ruined. On the strength of these reports and a statement that the Modern Miller's report would be bullish, traders here ran the July option up to 69⅞@70c and Sept. to 69⅝@70c. The Modern Miller's report when received did not prove so bullish as expected, and the Minneapolis Journal said that as yet there was no damage to spring wheat. The effects were to bring about a decline to 67¾c for July, but the market quickly rallied to 67½@67¾c bid and at the close that option was ¼c higher for the day at 67½c. May sold and closed at ⅛c advance at 70⅛c and Sept. closed ⅝c better at 68c. Bradstreet's reported the clearances of flour and wheat for the week at 3,178,000 bu.

There was but little attention given to corn by local traders this morning, their attention all being taken up with the more attractive wheat. The weather conditions were said to be all right for the crop in the ground, and the early cables were by no means encouraging, Liverpool reporting ½d decline. Still there was no weakness shown here, though Chicago opened lower. Receipts were small, the total at Western markets being 254,000 bu., against 142,000 bu. a year ago, 251,000 bu. arriving here, against 16,000 bu. last year. The shipments were 674,000 bu. and the export clearances 46,000 bu. The light receipts, the strength shown by wheat and the fact that July opened closed stronger, with an advance of ½d, imparted a strong undertone to corn, and the opening here for July, which was the same as it closed yesterday, at 46c, from which there was an immediate advance to 46½c. This market maintained most of its strength even when wheat declined, July selling off to 45¾c and finally closing 5⅛@5½c higher for the day at 46⅝@46¾c. Early in the day May sold at 46½c and at the close was ⅝c up, at 47⅛c asked. The week's clearances were said to be 2,800,000 bu.

Oats, in sympathy with other grains, were stronger and a little higher, but speculation was dull, the only trading being in July at 22⅞c, which was ⅛c higher for the day and at which it closed. Sept. closed nominally ⅛c better at 22c, and May ⅛c up at 24c. The feature of the day was the sale of 45,000 bu. No. 2 for export. The Western market receipts were 253,000 bu., against a like amount a year ago, including 36,000 bu. locally, against 27,000 bu. last year. Shipments were 348,000 bu. and exports only 10,000 bu.

Trade Gossip.

—Private cables from France state that the better weather has helped the growing crop of wheat considerably.

—The Dixie Miller, in a summing up of the crop situation, says of the South: "The most recent reports from Tennessee discount the earlier favorable statements owing to the appearance of pests in unusual numbers in Georgia and Texas. The robust outlook is not in the history of farming. The flooded district in Texas is mostly devoted to cotton. In some Southern States, however, recent rains have effected the wheat prospects slightly. However, it appears now that the Southern as a whole will harvest more wheat than it did last year, which is saying a great deal.

—Liverpool received this week 698,000 bu., including 329,000 bu. American and 436,000 bu. corn.

—Argentina shipments this week, according to Beerbohm, were 1,696,000 bu. wheat and 112,000 bu. corn, against 2,664,000 bu. wheat and none bu. corn last week and 2,120,000 bu. wheat and 144,000 bu. corn for corresponding week last year. Since Jan. 1 the Argentine has shipped 43,472,000 bu. wheat, where 39,600,000 bu. shipped for same period last year. Broomhall reports this week's shipments as 2,296,000 bu. wheat and 468,000 bu. corn.

—This week's world's shipments of wheat should be over 7,000,000 bu., where they were 8,000,000 bu. a year ago.

—A St. Louis commission house had a letter from one of their Illinois correspondents, in which dreams of high lands, water on low lands, and fly and chinch bugs were figured as the list of damaging conditions. The writer also stated that the wheat land he had passed up on account of the fly was already set out in corn, as the ground was full of chinch bugs.

—No change in weather, clear and cool everywhere throughout Northwest. No rain or indications of rain. The cool weather is the salvation of the plant.

—The Modern Miller Outlook: Quite a number of damage reports to winter wheat by Hessian fly have come to hand this week from Illinois and the advices from the Southwest are that there has been too much rain, but as yet no serious injury has been indicated. In Southern Illinois and Tennessee the fly is multiplying rapidly, yet it remains to be seen to what extent it will extend its ravages. Elsewhere the crop is making favorable progress and in Missouri, Kansas and the Southwest the reports from still point to the best crop in years. Michigan also reports some improvement, the prospects in that State are for at least half a crop.

Cash Grain, Flour, Etc.

WHEAT—Cash market—Received 1,222 cars, and 18 cars local. Strong and for choice No. 2 red this side 4c advance paid, but the milling demands still small and off stock very dull, by sample on track—No. 2 red at 71@71½c dafter choicer this and 71½c ft. Side; No. 3 red at 69@70½c; No. 4 winter at 68@69c; No. 2 hard at 64@66c; No. 3 do. at 62@65c; No. 2 soft spring at 66c; No. 3 do at 62@65c.

CORN—Cash market—Received 18 local and 17 cars through. Higher and in demand for shipment; the scanty offerings held very stiffly. On trk.—No. 3 at 46½c; No. 2 at 46¾c, former to arrive; No. 2 yellow at 46½c; No. 2 white at the this and 46¾c ft. Side; No. 3 do. at 38c.

OATS—Cash market—Received 41 cars local. Better, with very small offerings, but the usual local demand small. On trk.—No. 2 at 24½c; No. 3 at 24c; No. 2 Northern at 25c; No. 3 white at 27½c; No. 2 do. at 24½@25c; No. 3 do. at 24@25c. A sale of 45,000 bu. No. 2 was made for export at 24½c f. o. b.

RYE—Higher. No spot offerings and a shipper had to pay 56c to obtain a car No. 2 to arrive.

FLOUR—Stronger future markets do not better demand for flour and prices remain without change. Little, however, is obtainable at our inside quotations, as millers hold their straight at $3.60 and extra fancy at $3.20.

Quotations of soft winter wheat flour as follows:

Patents	$3.60@3.85
Straights	3.30@3.40
Extra fancy	3.15@3.25
Clear	2.75@3.00
Low and medium	2.00@2.50

Hard winter $3.20@3.60 for bakers', $3.60@3.80 for straights and $3.90@4.20 for patents, all in jute sks.

RYE FLOUR—Jobbing at $3.00 in sks. and $3.05 in bbls.

CORNMEAL—City meal $1.90@1.95; pearl meal, grits and hominy $2.00@2.20.

HAY—Received 300 tons local and 235 tons through; shipped 228 tons. A better demand for prairie grades of timothy and the lower prices on lower qualities have prompted shippers to come in so that an improved market can be noted. Prairie is steady and quiet and clover dull, except for choice. Quotations: Timothy at $10@12.50 for choice to fancy; $9@10 for No. 1, $8@10.50 for choice, $8@9.50 for No. 2, Prairie $8 for choice, $6@7.50 for No. 2, $5@6 for No. 3. Clover $9@11.50 for choice.

GRASS SEEDS—Per 100 lbs.: Millet 70c to $1.30, latter for pure bright; German clover at $5 to $6, timothy at $1 to $2.75, Hungarian at $1 to $1.10, rough at $4 to $5, Orders higher.

FLAXSEED—Nominally $1.37.

LARD—A better inquiry reported, but sellers asking more than buyers care to pay. The feeling is steady. A car sold to Missouri at $6.90, and a trifle lower held at $6.85.

TALLOW—Quotable at $4.60@4.65.

PRODUCE MARKETS.

Local Fruit, Vegetable, Poultry, Egg and Butter Quotations.

St. Louis, Friday, May 18, 1900.

The produce markets were generally a little more active than yesterday, as shippers bought more freely, and there was a better demand from the local trade, but receipts were liberal, and there was no particular advance in prices, the tone (per contra) in several instances prices were lower.

Potatoes were again quiet. There was a fair demand for choice smooth white old potatoes and receipts of this class of stock were light, but offerings of seedling and common stock were heavy and were hard to sell.

New potatoes were more plentiful, and prices were somewhat lower, but the demand was active and the market for choice stock was in good condition.

Old onions were dull and nominal, as there was scarcely any demand, and offerings were light. Shipping of soft stock is not salable at any price.

New onions were dull and weak, as receipts were again heavy, and the demand does not keep pace with the supply. Quotations for Texas ones are in fair demand, but soft or stemmy are slow of sale.

Cabbage was weak and lower, as receipts were heavy, and the demand not equal to the offerings. Only choice, sound, solid stock was wanted, and loose or leafy was dead dull.

Cucumbers were quiet and steady, with offerings moderate and the demand fair.

Other vegetables were plentiful, and the market dull and weak.

Strawberries were easier and steady, with the demand confined entirely to the first wants of the local trade. Stocks are very light.

Asparagus was again firm and in good demand, with offerings light and consumption steadily increasing.

Lettuce were also firm and in good demand with the offerings moderate.

Rhubarb were firm and higher, as receipts were light, and generally in better condition, and also there was a good demand for it. The local trade also bought freely, but only choice berries were wanted and stale, soft or wet stock was hard to dispose of.

Apples and pears were quiet and steady at unchanged prices.

Live poultry was dull, but steady to-day, as shippers were again in the market.

Dressed poultry was in fair demand at the decline, and soon shippers and the local trade bought freely and turkeys, ducks and geese were dull and nominal.

Spring chickens were in better demand and all offerings were readily taken.

Eggs were somewhat scarce and firm, as receipts were light and there was a good demand.

Butter was dull and weak. Receipts were moderate for the demand was light and prices were unchanged.

Honey and candy were quiet and steady, but only choice to fancy grades are wanted, and poor and thin are hard to sell.

Wool continues firm and in good demand. Receipts are moderate and generally of good quality, and both quantity and quality are inspected daily. All offerings meet with ready sale at full quotations.

Hides were quiet and steady. Receipts were light and generally of poor quality, but all offerings were taken.

Eggs.

The market was quiet, but steady to-day at unchanged prices, with both demand and offerings light. Some fresh nearby stock sold at 12c per doz. for and Southern at 8c. Receipts at St. Louis to-day were 1,800 cases and shipments 5,400 cases.

Dairy Products.

Butter—The market was dull and lower on creamery butter, but other kinds were in good demand and firm. Quote: Creamery—Extra 19c; extra 18c, seconds 16c. Dairy—Extra 16c; firsts 14c; seconds 12c. Store-packed—Extra 12c; firsts 10c. Country store-packed 10@12c for good to choice for trade.
