Marion County Courthouse Bonds.

Sealed proposals will be received by me at my office in Palmyra, Marion County, Mo., up to 1:30 o'clock p. m., June 18, 1900, for the purchase of one hundred thousand dollars ($100,000) worth of Marion County, Missouri, Courthouse bonds. Said bonds will bear interest on the rate of 4 per cent per annum, payable semi-annually, within twenty years, fifty thousand dollars being $500, and fifty thousand dollars $1,000. Principal and every bond is to be of the denomination of five hundred dollars ($500), and the principal and interest payable semi-annually, on the first days of January and July.

These bonds are legally issued, and are to be secured by an adding fund. The principal and interest are payable at the office of the County Treasurer, in the town, county and State aforesaid. Proposals will be considered for the entire amount of bonds, or for any portion thereof in part thereof not less than twenty-five thousand dollars ($25,000), at the option of the bidder.

Each proposal must be accompanied by a certified check of 1 per cent of the par value of the amount of bonds bidden for. All checks of unsuccessful bidders will be returned to them. All submitted proposals will be opened by me, in the presence of the County Court, at 1:30 o'clock p. m., June 18, 1900. The right is reserved to reject any and all bids. The director of these bonds and the payment for same must be consummated by June 30, 1900.

Marion County, Missouri, has at present no bonded or other indebtedness. The assessed valuation is about $9,000,000; actual valuation over $27,000,000.

Done by order of the County Court, this the 5th day of May, 1900.

E. H. BRUNK,
Treasurer Marion County, Missouri.

LONDON STOCK MARKET DISPLAYED GREAT STRENGTH

BULLISHNESS REFLECTED IN NEW YORK.

Sugar Ruled Strong on the Expected Settlement of the Trade War—Money Easy.

REPUBLIC SPECIAL.

New York, May 31.—The London market displayed great strength on the occupation of Johannesburg and the evacuation of Pretoria by the Boers. Consols advanced 1½ points from Tuesday night's close, while South African mining shares were booming. The strength was reflected in the American railroad list, and although the close was under best, substantial gains on the day were recorded. The Bank of England did not change its rate, which remains at 3½ per cent. The return showed the bank's position to be a strong one. Berlin was weak, industrial stocks, especially steel companies, having a heavy decline. There was some local tightness of money and a decline in exchange. The position in China also caused some anxiety on the Continent.

In the New York market the strength in London was reflected in most of the railroad stocks, although the London buying was by no means large. Sugar was strong on the expected settlement of the trade war and an advance in the price of the refined product. The buying in the Granger stocks continued to be of an exceedingly good character, and, although the operators of the Boston bull pool gave special strength to Burlington, the local support was exceedingly good. The Atchison statement gave strength to both the common and preferred stocks, while Southern Pacific was bought for a similar cause. Trunks, although firm, were somewhat neglected. An advance of some 3 points in the price of Brooklyn Union Gas on the expectation that it would be leased by the Consolidated Gas Company gave strength to all the franchise corporations.

The market closed fairly firm in spite of some reaction in Sugar on profit-taking. Atchison preferred was the feature in the railroad list. To-day's statement gives great confidence to the hopes of a 2½ per cent dividend. Traction and gas stocks were all well bought by what are generally considered inside interests. Although the market suffered from a lack of effective outside support, the tone was confident, and nothing but the approach of the presidential campaign prevents a general period of buoyancy.

Although it is not difficult to forecast an early settlement of the South African campaign from news to hand, so great a collapse as that indicated by the unopposed occupation of Johannesburg, together with the practical surf Boer cause involved by the abandonment of Pretoria without a contest was unexpected and fully justified the great strength displayed in London. The rest of the campaign resolves itself into a mere matter of pay. The possession of the gold fields by the British will within a very short time set free an output of gold amounting to some $5,000,000 per month to relieve the pressure on the world's money markets. It is not generally anticipated that the Chinese difficulty will get beyond the capable hands of the British and American diplomatists on the spot, and its small influence on the London market is the best gauge of its value as an international factor. The Continental Tobacco Company declared its usual dividend of 6½ per cent on the preferred stock. As there had been some fears that this dividend might be passed, the effect on industrials and especially the tobacco stocks was good. A deal in the sugar trade was reported which involves the incorporation of the large interests outside of Arbuckles practically under the control of the American Sugar Refining Company. This is not officially confirmed, but the market for the present prefers to believe it is true. A syndicate of which Vermilye & Co. forms an important part has purchased the Clover Leaf. Money continues very easy.

France.

Paris, May 31.—Business on the Bourse to-day was firm, prices being favored by the abundance of money and the favorable war news. But the tendency of the market was downward, the result being that there was a position in sympathy with the weakness of the Berlin market. Trades were very dull at the start, but rallied sharply and closed weak. Rentes were quiet on the news that had reported evacuation of Johannesburg and Pretoria by the British troops. Three per cent rentes fell 10c for the account. Exchange on London was steady for checks, which closed at 25.22½. The weekly statement of the Bank of France shows the following changes:

Notes in circulation, increased 10,550,000 francs; treasury advances, decreased 10,000,000 francs; gold in bank, increased 24,225,000 francs; bills discounted, decreased 22,400,000 francs; silver in bank, increased 1,000,000 francs.

Germany.

Berlin, May 31.—Exchange on London 20 marks 40 pfg. for checks. Discount rates: Short bills 4 per cent, three months' bills 4¼ per cent. On the Bourse to-day business commenced irregular but grew firm on London advices. Americans and Canadian Pacific were maintained. At the close prices were fractionally lower on the news that Pretoria was occupied by the British. Steel shares were pressed on rumors that America was in the market with offers of iron.

The Banks.

New York, May 31.—Money on call steady at 1½@2 per cent, last loan 2 per cent; mercantile paper 3@4½ per cent. Sterling exchange steady, with actual business in bankers' bills at $4.87@4.87⅛ for demand and at $4.86@4.86⅛ for sixty days; posted rates $4.86½ and $4.88½; commercial bills $4.85¾@4.86. Silver certificates 62c@63c. Mexican dollars 47c; shipments $125,000, balances $1,000.

Boston, May 31.—Clearings $20,630,747; balances $2,304,000.

Chicago, May 31.—Clearings $21,833,000; balances $1,916,000. New York exchange 50c premium. Sterling exchange $4.86@4.87.

Treasury Statement.

Washington, May 31.—To-day's statement of the Treasury balances in the general fund exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance $146,000,000; gold $66,000,000.

Bar Silver.

New York, May 31.—Bar silver 62c per ounce.

London, May 31.—Bar silver quiet at 27 3-16d per ounce.

LOCAL MONEY MARKET.

Business Fairly Active, but Situation Generally Without Change.

St. Louis, Thursday, May 31, 1900.

In a general way business to-day at the different financial institutions was here active and on a more liberal scale, one of the chief reasons for which was the fact that yesterday had been observed as a holiday and there was an accumulation of business this morning, which kept bank clerks very busy during the day. Checking and depositing was on a more liberal scale, business with country banks was active and the local demand from borrowers of all classes was larger. There was no appreciable change in interest rates, however, and discounting of call and time paper throughout the day was generally at 5 to 7 per cent.

The local bank clearings for the day were large and there was also an increase of $1,229,536 for the last month as compared with those of a year ago for the same month. The report of the Clearing-house is as follows:

	Clearings.	Balances.
For the day	$ 7,315,340	$ 434,798
For the month of May	128,757,130	17,316,168
For same month last year	128,527,594	18,460,622

LOCAL STOCKS AND BONDS.

The Market in a General Way Was Unchanged and Quiet.

There was not much business doing on the local stock exchange to-day, in fact, the only securities to attract more than passing attention were the United Railways issues. Preferred fell to a new low mark of four dollars and in a number of cases trade was in quarter lots made.

The trading this morning was all confined to Trusts, and by a close bring out of bids and offers, which showed the differences to be not so wide as of late, a good deal of business was done, three at first and two later in the session, and in the latter calling at Stock Exchange prices.

The only other trade was in Electric Light stocks, in which there was a good deal of buying and selling at prices fractionally lower than those ruling at Stock Exchange prices.
