SPINDLE TOP SPINDLE TOP
OIL AND GOLD
SAM HOUSTON OIL COMPANY

Has acquired property in the famous Spindle Top district, 50 feet from Beatty gusher, 15 feet from Mississippi-Texas, block 22.

NOT WORDS, BUT ACTIONS, IS THEIR MOTTO. Dr. E. F. Adams, General Manager, is in St. Louis, on his way to Texas to commence drilling a well on the Company's Spindle Top property. From there he goes to California to open the Gold Mines of the Company in that State.

You cannot afford to miss this opportunity to obtain stock in this company at

Four Cents Per Share.

Some people ask us why we sell stock at 4c per share when the Company's Spindle Top property shows that the stock, based upon the value of the company's property, is worth 4c per share and more. There is no doubt but what we could sell this stock now for 50c per share. That is the usual price of Oil Company Stock for development purposes. We could go ahead and sink our first well. The stock would then be worth 50c. But you pay that much and have not made anything on your investment. Of course, when we get in more wells and open our Gold Mines, you would make money, still, the fact remains that you paid too much for the stock when you bought it at 50c. Now, at 4c per share, the risk is much less, the stock is 50c per share, and your net profit is 46c per share. In other words, your profit begins the day you buy the stock. The SAM HOUSTON OIL CO. is willing to share the profits of its Treasury Stock, which furnishes the means to develop the property, to have an equal share in the profits. This is a safe, sane investment, and our honest opinion is that the stock will reach $1.00 within one year, and will pay large dividends before that time. OUR ADVICE IS TO

Our Holdings. Oil Properties.

We have been on the Spindle Top property, and can assure you that they will get "Gushers" as fine as there are on Spindle Top. They also have 1,000 acres in Chambers County, 80 acres in Polk County, 80 acres in Brazoria County and 20 acres in the Famous Sour Lake oil field.

Also, 80 acres in the McKittrich oil district and 200 acres in the Kern River District in California. All of the above properties are OIL LANDS.

Gold Properties.

The Company owns 3 full placer claims and 4 full quartz claims in Shasta County, Cal. Assays from ore taken from different parts of the ledge, made by Prof. Price & Ross, of San Francisco, and Mariner & Hosking of Chicago, experienced assayers, give values of $2.61 to $35 in free gold. This ore can be mined and milled at an expense of less than $2.00 per ton, and as the general average is over $15 per ton, there will remain a net profit of over $10 per ton to the stockholders.

We have some fine specimens of ore from these claims in our St. Louis office. Now, in regard to payments on this stock, if you wish to buy a large block, or a small block, and cannot pay all cash, we sell to you on the installment plan, money to be paid monthly, as the Company needs it to meet their payroll.
