CHILD'S FRENCH DRESS.

In This Garment White India Silk Is Tastefully Decorated With Lace.

CHILD'S FRENCH DRESS, NO. 8466—Some mothers dress their little children in white until they are about 6 years old. When the weather becomes too cold dd lawn, swiss and dimity frocks, soft silks, albatross, poplin and cashmere are used. The fabrics are very beautiful in white and cream shades, and may be trimmed with lace, ribbon or hand embroidery.

In the dainty French dress illustrated white India silk is tastefully decorated with point de Paris lace and insertion.

8466—CHILD'S DRESS.
1, 2, 4 and 6 years.

The front and back are tucked in four clusters of three tucks each, and arranged at the lower edge of the round yoke, which is of lace. The tucks are stitched down to form a long-waisted, tight-fitting body effect. The stitching ceases several inches from the bottom, and the fullness flares stylishly in a short skirt.

Two rows of insertion are applied around the skirt at the head of the flounce. The dress closes in the back with pearl buttons. A lace collar completes the neck.

The bertha is applied at the edge of the yoke and extends out over the shoulders in a becoming manner.

The sleeves are tucked to correspond with the body. A narrow wristband of lace completes the small puff at the hand.

To make the dress for a child 2 years old will require three and a half yards of thirty-six-inch material. The pattern, No. 8466, is cut in sizes for children 1, 2, 4 and 6 years.

SUMMARY OF ST. LOUIS MARKETS.

Wheat was the only strong spot in the local grain market yesterday. A fairly good foreign demand was indicated by the early advices, and there were reports of heavy buying for short accounts in other domestic markets. The volume of trading was fairly large, and the operations of the bull side among the local professionals were materially aided by buying orders. Cables were higher, and shipments from foreign wheat-growing countries were light.

Dec. wheat opened unchanged and closed ⅝@¾c higher than Monday's closing quotation.

May opened ⅝c off on early selling, but closed ⅛@¼c up.

Corn was weak on heavy primary receipts, light export shipments and adverse weather conditions. Foreign markets were uniformly lower and the export demand was light.

Dec. opened ⅛c off and closed ⅛c off. May opened ⅛@⅜c off and closed ⅛@¼c off.

Oats were weak in sympathy with corn. May opened ¼c off and closed 1-16c off. Trading in this grain was exceedingly light.

Produce was in fair supply, but there was a slight falling off in the demand and prices were practically unchanged throughout the list.

Fruits were steady and vegetables firm, with little variation from Monday's quoted prices.

Local stocks and bonds were unmistakably weak. Bank and trust company stocks and tractions were on the down-turn. St. Louis Transit was the soft spot. Missouri Trust was the strongest security in the banking list.

The local market for spot cotton was quiet and unchanged.

Discount rates for call and time loans were steady between 5 and 8½ per cent.

WHEAT SCORED ADVANCE—OTHER GRAINS SLUMPED.

TRADING IN CORN AND OATS WAS LIGHT.

Buying of Wheat Was Based Mainly on Foreign Demand.

In the local grain market yesterday the volume of trading was not large, but there was enough covering by shorts and sufficient buying on speculation to assure the firmness of the wheat market. According to Bradstreet's report the increase in the world's available supply was much smaller than that reported last year. The volume of trading was heavy.

Dec. wheat opened unchanged and closed ½@¾c up, and May opened ⅝c off and closed ¼@⅜c up.

Dec. sold at 71c, 70⅞@71c, 71c, 70⅞@71c, 71c, 71@71⅛c, 71c, 70⅞@71c, 70⅞c, 70⅞@71c, 70⅞c, 70⅞@71c, 71c, 71@71⅛c, 71⅛c, 71⅛@71⅜c, 71⅛c, 71⅛c, 71⅛@71⅜c, 71⅛c, 71⅛c, 71⅛@71⅜c, 71⅛c, 71⅛@71⅜c, 71⅛c, 71⅛c, 71⅛@71⅜c and 71⅛c.

May sold at 74⅛c, 74⅛c, 74⅛c, 74⅛c, 74⅛c, 74⅛c, 74⅛@74¼c and 74⅛c.

A general decline in the principal foreign markets, and adverse weather conditions, caused corn to open lower and prevented an advance in sympathy with wheat. White receipts at domestic points were small, no influence could counteract the selling for profit-taking which developed early in the session and survived all efforts to boost the market.

December opened ⅛c off and closed ⅛c off.

Dec. corn sold at 57½c, 57⅝c, 57½c, 57⅛@57½c, 57⅛c, 57⅜@57½c, 57⅝c, 57½c, 57⅝@57¾c, 57⅝c, 57⅝c and 57⅝c.

May sold at 59½c, 59⅝c, 59½c, 59⅛c and 59⅝@59¾c.

COTTON.

By Telegraph.

New York, Oct. 8.—Cotton futures opened steady, but down 3 to 4 points in sympathy with the Swansea advance. Afterwards the weather report and liquidation by the longer bulls forced prices off to a level of 6 to 7 points under last night's end. The South and Europe sold here; commission houses held few orders to ex-ecute other than those for liquidation. Receipts were larger than expected, though smaller than for the same day last year. The early weather reports indicating clear and milder conditions in the belt. Noon found the market dull and heavy, with the crowd looking for a generally favorable weekly Government report. But, contrary to expectations, the latter was strikingly bullish. Close upon the bureau report came small estimates for to-morrow's receipts and liberal buying orders from New Orleans. Jan. led in a rise of 8 to 9 points on feverish buying to cover shorts and support from some of the more confident bulls. Later in the afternoon an absence of public buying caused prices to settle a few points and there was little on which to base a prediction for a strong close. Futures closed firm; Oct. 7.82c, Nov. 7.82c, Dec. 7.85c, Jan. 7.88c, Feb. 7.90c, March 7.94c, April 7.96c, May 7.98c. Spot closed quiet; middling uplands 8c; do. Gulf 8¼c; sales 429 bales.

POULTRY.

Receipts Continue in Accumulation and Stocks Are Moving Slowly.

REPUBLIC SPECIAL.

New York, Oct. 8.—Live Poultry—Receipts today were in cars Western and a moderate express sprinkling. The market was dull and heavy in weighing stock, with fowls leaving first hands at 8½c, chickens at 9c and old roosters at 5½c. Turkeys not plenty, and prime old brought 10c, while young were not fine enough to command over 8c. Prime heavy ducks and geese brought a decided premium. Pigeons slow. Ducks—Western, pair, 50@60c; Southwestern 45@60c. Geese—Western prime pair $1.25@1.37; Southwestern $1@1.12.

Dressed Poultry—Receipts to-day, 1,435 pkgs. The market presented a rather tame appearance this morning, very little fresh stock around, but not much wanted. Receivers seemed to have ample faith in the stability of present prices and were not inclined to make any concessions on bright, hard stock, but many lots were not carefully handled and arrived more or less green and slippery, and were urged to sell at low prices. Prime, large, dry-picked fowls occasionally brought a premium, but so many thin and pin-feathery fowls are included that 10c is difficult to exceed on average marks. Large scalded or dry-picked chickens were not overplenty, spring turkeys scarce and firm; fancy selected bringing 10c. Western spring ducks in moderate supply and steady. Spring geese slow. Squabs in a trifle better demand with a constant pressure from interior operators to unload goods on this market. Fine April stock was offered at 16½c on dock in lots to suit, and no encouragement is offered for shipments from this direction at higher rates. No change in quotations.

Kansas City, Mo., Oct. 8.—Eggs steady; fresh Missouri and Kansas stock quoted on 'change 15½c dozen, cases returned. Iowa off.
