FINANCIAL.

The reason savings depositors only make 2 per cent is because they do not investigate the opportunities offered them. They are few, very few. The poor man's money in the Federal Investment earns as much as the rich man's. Our booklet, "A $100.00 Investment," mailed free.

WELL-ORDERED LIQUIDATION LOWERS PRICES SLOWLY.

BEARS COVER SHORT CONTRACTS FREQUENTLY.

Some of the Railway Stocks Rise Above Previous Close on These Rallies.

New York, Oct. 6.—To-day's reactionary stock market was typical of a well-ordered liquidation. The bears were alert and aggressive all day to take away the market from the long interests, but they showed their fear of overrunning the market by the frequency with which they bought to cover their short contracts. This operation caused a number of checks to the downward course of prices, and of rallies reaching from one to two points in a few stocks. Reading was twice lifted above last week's level by these rallies, and rumor was busy in Wall street all day regarding the next developments in the coal strike situation. The continued manifestation of interest in the subject by President Roosevelt gave rise to the expectation of new steps to be taken by him. There were many inconsistent reports as to the intention of Governor Stone of Pennsylvania concerning the use of the military. The anthracite group was inclined to resist the reactionary tendency on this account.

RALLIES IN ST. PAUL.

St. Paul also made a visible resistance to the decline and shared in the occasional rallies. The determination of the stockholders to issue new stock to the extent of $25,000,000 and the subscription rights thus implied helped the stock. It will be seen that neither of these stocks entirely escaped the prevailing pressure to sell, which carried the general list down from 1 to 3 points, with a large sprinkling of 4-point losses. The Southwestern cotton and corn carriers were notable sufferers, doubtless on account of unfavorable crop reports. There were some heavy declines in the inactive list. Wells-Fargo and United States Express dropped 15 points, New York Air Brake 10, Northwestern nearly 9, Lackawana 7½ and Brooklyn Union Gas and Rock Island 6 each.

Some of the losses were curtailed by the rally which was in progress at the close of the market, due to the covering by shorts. To-day's money market reflected clearly enough the policy of the banks in recalling loans from the stock market, as was foreshadowed by the action of the Clearing-house Committee on Sunday in abstaining from availing themselves of the proffered release of the reserves against Government deposits. The money rate ran up to 12 per cent at midday and again to that level before the close.

BEST COLLATERAL.

There was strict discrimination also in accepting collateral for loans. This policy by the banks is a peremptory announcement of recently by stock speculators to take in sail. It is a well-recognized tenet of financial policy to accord credits very freely in a period of distrust or panic in order to check the contraction of credits. The emergency measure of clearing-house certificate issue is considered justified in such a crisis. That the banks should insist on the contrary upon liquidation proceeding at this time is evidence of their confidence in the solidity of the general situation, and the absence of fears that any substantial and legitimate business will be harmed by the liquidation of loans employed in the speculative holdings of stocks. It is eminently true that the present stringency of money is not due to distrust or discredit at any point, but to the fact that available ready money for the imperative needs of the circulation is absolutely lacking and can only be secured by diverting funds now placed in loans.

Bonds were weak, but in less degree than stocks. Total sales, par value, $3,905,000. United States 2s coupon advanced ½ per cent on the last call. Sterling continued to advance to-day in spite of the renewed stringency of money here and easier money abroad, showing the hopelessness of immediate gold relief by gold imports.

Missouri Trust the Only Active Banking Issue on the Downturn.

Tractions were the feature of a moderately active session of the local Stock Exchange yesterday. Liquidation continued, but offerings were fairly well absorbed by insiders and investment buyers. St. Louis Transit declined 25 cents a share to $28.50. United Railways preferred opened at $83.25, but eased off to $82. The 4 per cent bonds were in demand at $86 and $86.12½. Missouri Trust, the only active issue in the banking group, dropped from $125 to $124.62. Missouri-Edison common sold lower at $16.

Wall Street Gossip.

Reported by Commercial Advertiser through Francis, Bro. & Co., No. 214 North Fourth street.

FINANCIAL—Arbitrage operations in this market to-day amounted to about 20,000 shares, evenly divided between sales and purchases. No significance attached to the trading for foreign account. London appeared to be undecided as to "American."

Anthracite Stocks—The principal trading was in Reading, the feature of which was the purchase of 25,000 shares by Harris, Gates & Co., reported to be for personal account of John W. Gates. Lowe and Sherwood took 10,000 shares. These orders were executed quietly, no attempt being made to bid up the price. Various rumors concerning the anthracite strike circulated in the board room. One was that Governor Stone would issue a proclamation to-day warning the striking miners not to interfere with attempts to work the collieries, and another that practically all the State troops of Pennsylvania would be called out within forty-eight hours and dispatched to the anthracite regions to preserve order, and that the operators would then resume operations in earnest.

General Liquidation—Throughout the session steady liquidation was noted. It was not in large amounts, but it appeared to be uninterrupted. It came from commission houses, pools and some of the large operators. The younger members of the Gould-Rockefeller party were credited with having decided to pursue a very conservative policy, and it was rumored that Mr. Keene has sold many thousand shares of various stocks. The high rates for call money were partially accounted for by the fact that this was tax-paying day, and that the banks were called upon to meet the drain from its taxpaying depositors.

Baltimore and Ohio—It was announced to-day that the warrants for the rights due to the stockholders of the B. & O., R. R. Co. have all been written out and now being mailed to all registered addresses of stockholders. Owing to the clerical labor involved it may take two or three days before all are mailed. All rights which are to be sent abroad will be sent to-night or to-morrow.

St. Paul—The erratic fluctuations in St. Paul were the result of the indecision of buyers and sellers. It was thought that the announcement of the proposed issue of $25,000,000 new stock would be followed by a sharp rise, but there was too much stock for sale for what buying power there was. The street was unable to obtain an official statement regarding the use to be made of the $25,000,000 which the company will receive for the new stock.

Miscellaneous—The sharpest break was in New York Air Brake, 11 points. An order to sell a small amount of the stock was sent in when there were no buying orders in the specialists' books at the last prevailing figures. Louisville and Nashville fluctuated irregularly. The earnings for the fourth week of September increased $141,452. Tennessee Coal and Iron went off on the news of the strike of more than 4,000 of the company's miners.

New York Curb Market.

REPUBLIC SPECIAL.

New York, Oct. 6.—Conditions prevailing on the Stock Exchange were reflected to a great extent in to-day's curb. Trading was confined to a small number of issues, only a few of which showed any animation. Prices at the opening showed firmness, but in the subsequent dealings there were sharp recessions in nearly all of the prominent issues.

Northern securities broke 1¾ and Rock Island common and preferred sold off 1¼ per cent each. United States Realty preferred dropped nearly a points, while the common showed a loss of ¼. The copper shares were dull and slightly lower, and fractional losses were recorded in some of the less active stocks. Virginia Coal and Coke and St. Louis Transit showed strength, and some of the preferred issues were fractionally higher. The bond department was dull, the noteworthy dealings being in Rock Island new 4 per cents, Rock Island new 4s sold to the extent of about $50,000 at prices ranging from 85¾ down to 87¾. Fifteen thousand United States Silver 6s sold at 105⅝@105¾. St. Louis Transit was dealt in for the first time in many days and scored a substantial advance over the previous sale. Opening at 28¾, it rose to 29 on purchases of about 500 shares.

By Telegraph.

New York, Oct. 6.—Spot cotton closed quiet; middling uplands 8.30c; middling Gulf 8.55c; sales 315 bales. Futures closed barely steady. Oct. 8.25c; Nov. 8.26c; Dec. 8.26c; Jan. 8.26c; Feb. 8.36c; March 8.36c; April 8.36c; May 8.36c. The market opened easy with prices a cent to 2 points under better weather reports from the belt and reports of weakness in the stock market. Following the call the tendency was steadily downward and at final prices showed a net loss for the session. Commercial houses sold freely under stop orders and Wall street bulls failed at all times to offer support. At first the room contingent operated on the theory that a reaction was due, feeling sure the bull contingent would stop in and bid the whole list rapidly upward. But as the forenoon wore along and no signs of bulling came to the front, the trade got out extensive short lines. The private crop reports, while still somewhat bullish, were less so than of late, and the Government report showing crop estimates were less popular. Receipts for the day were moderate and export clearances fair, but official estimates for to-morrow's receipts pointed to an increase in the aggregate movement. Late bad slump in the stock market aggravated the weakness in cotton. The Jan. and March crash narrowed to 10 points at one time, the advance in Jan. recovering 20 points, but a sharp curve again. The market closed barely steady and net 14 to 20 points lower. Total sales of futures at 250,000 bales, the great bulk of which was done in the winter months. Liverpool, all things considered, was better than expected, but failed to be any way stock like. Spot movement here. The Sun's cold here at the close.

New Orleans, Jan. Oct. 6.—Cotton—Futures steady. Oct. 8.30@8.32c; Nov. 8.21c bid; Dec. 8.34@8.35c; Jan. 8.38@8.39c; Feb. 8.40@8.41c; March 8.43@8.46c; April 8.44@8.46c; May 8.46@8.47c. Spot cotton easy; sales 4,300; ordinary 7¾c; good ordinary 7¾c; low middling 8 2-16c; middling 8½c; good middling 8 11-16c; middling fair 8c. Receipts 14,773; stock 114,499.

Liverpool, Oct. 6.—Cotton—Spot, fair demand; prices steady, unchanged. American middling, fair, sales of the day were 10,600 bales, of which 1,000 were for speculation and export and included 9,900 American. Receipts 3,900 bales, including 2,800 American. Futures opened quiet and steady and closed quiet. American middling, g. o. c., Oct. 4.60 sellers; Oct. and Nov. 4.58 sellers; Nov. and Dec. 4.57 sellers; Dec. and Jan. 4.56 sellers; Jan. and Feb. 4.56 buyers; Feb. and March 4.55 sellers; March and April 4.54 buyers; April and May 4.54 buyers; May and June 4.53 sellers.
