GARDINER LATHROP MAY SUCCEED E. D. KENNA.

Missouri Lawyer Slated for the Position of General Solicitor of the Santa Fe.

—Photograph by Thomson.
GARDINER LATHROP.
Expected to be elected general counsel of the Santa Fe.

Chicago, Feb. 6.—Edward D. Kenna, first vice president and general solicitor of the Atchison, Topeka and Santa Fe Railway Company, has advised the Board of Directors of a desire on his part to retire in order that he may give all his attention to other affairs in which he is interested.

It is understood that his resignation will be presented as soon as a successor is selected by the management, and that the position has been tendered Gardiner Lathrop of Kansas City.

Gardiner Lathrop is one of the leading members of the bar of the Middle West. He has been solicitor for the Santa Fe Railroad in Missouri and Iowa for many years. He also is attorney for the Pullman Palace Car Company and the Wells Fargo Express Company.

His firm, Lathrop, Morrow, Fox & Moore, represents the Kansas City Southern Railway Company.

ROCK ISLAND NEEDS PROPERTY.

Believed That Catlin Tract Real Estate Will Be Retained.

Regarding the proposition that the Rock Island may be induced to give up its property in the Catlin tract, railroad officials express the belief that the Rock Island will not be able to get any property which for its purpose will be as desirable.

It is further stated that this particular piece of property is well suited for switching yards as well as for shops and though the Rock Island has bought considerable property in North St. Louis, the Catlin track property will be used for yards, while the North St. Louis ground will be used for warehouses and terminals.

Officials of the Rock Island state that they have not decided not what they will do with the Catlin track property, but all of them agree in saying that the company will not give it up.

Private Car Line Inquiry.

Washington, Feb. 6.—Hearings before the Interstate Commerce Committee of the Senate on private car lines were resumed to-day. E. M. Ferguson of Duluth, Minn., representing a number of jobbing associations, continuing his statement.

Mr. Ferguson said that in order to get around the requirement to publish rates the Santa Fe operates about 1,000 cars under a separate system, or corporation, distinct from the Santa Fe system. During the hearings Mr. Ferguson has referred repeatedly to the Pere Marquette Railroad, and Senator Newlands asked why reference to that road was so frequent. "Because we have been able to get hold of a contract between that line and the Armour Car Line Company, and it is of that contract I am speaking," said Mr. Ferguson. He closed with a demand for the extermination of the private car line companies. He said he believed the majority of railroads will favor such elimination.

CIRCULAR SENT TO STOCKHOLDERS.

President Underwood Urges Opposition to Commission Fixing Rates.

New York, Feb. 6.—President Underwood of the Erie Railroad Company has sent out a circular to stockholders of that corporation, in which he says: "It is obvious that the owners of railroad securities have a vital interest in the disposition of the bill relating to interstate commerce now under consideration by the committee of Congress. Any law enacted that will prevent the cutting of rates, unjust discriminations and all other dishonest practices would be beneficial not only to the public in general but to the railroads as well. It is however, the opinion of those who have had the best opportunity for studying the situation that it would be a serious mistake to have a bill passed authorizing the Interstate Commerce Commission to fix rates for transportation.

The circular suggests that the congressional committees now considering the matter will "doubtless appreciate the views of stockholders, as well as all others interested in the welfare of the country."

Wabash Pittsburg Plans.

REPUBLIC SPECIAL.

Pittsburg, Pa., Feb. 6.—To-day the Wabash Terminal Railroad Company received the deed for a piece of property on the South Side, fronting on Carson street 154 feet and running back toward the river to the tracks of the Pittsburg and Lake Erie Railroad Company 50 feet, the consideration being about $[illegible]. The intention of the railroad company is to create a driveway from Carson street to the wharf, which is contemplated in the future. There is no outlet to the highways at present, even with the purchase, which is just discovered.

The general plan of the corporation is to make an agreement with the Pittsburg and Lake Erie Railroad Company to obtain an easement over the last-mentioned transportation company's property to the projected wharf, and if the plan fails a certain clique of politicians will begin proceedings at once to open a street through the property, that the Wabash interests may not be blocked in the attempt to have an available approach to the wharf. This will give the Wabash access to the rich South Side mill district.

Opposes Federal Control.

Washington, Feb. 6.—Opposition to Federal control of private car lines was presented to-day before the subcommittee of the House Committee on Interstate and Foreign Commerce by President Reichman of Street's Western Stable Car lines. He detailed the operation of his company to support the contention that it was not engaged in interstate commerce. The company is capitalized at $[illegible]. It pays 6 per cent dividends on $700,000 of preferred stock, and last year an additional dividend of 2 per cent on the remaining common stock of the capitalization.

C. & N.-W. Report.

Chicago, Feb. 6.—The annual report of the Chicago and Northwestern Railway for the year ending December 31, 1904, shows a falling off in gross receipts and net earnings as compared with the previous year. Generally unfavorable traffic conditions are given as the reason for the decline. Gross receipts were $[illegible], as against $[illegible] for 1903. In the net earnings the loss was somewhat heavier, due to augmented expenses. The net earnings were $16,987,889, as against $17,514,622 for 1903.

Freight Congestion Relieved.

The freight congestion resulting from the ice blocking the river has been somewhat relieved and the freight accumulation at the bridges is being rapidly diminished. The ice on the river prevented the Wiggins Ferry Company operating its boats, and as a result all of the freight was sent to the bridges.

To Build Connecting Line.

Officials of the Terminal Association state that as soon as the weather opens work on the line to connect the two terminal belts will be pushed to completion. The Rock Island in this way will gain a direct route to its terminals in North St. Louis.

Big Four Earnings.

The comparative statement of the Big Four for the six months ending December 31, 1904 and 1903, shows that the gross earnings, which were $12,141,297 in the period in 1904, were $1,009,155 greater than for the corresponding period in 1903. The operating expenses in the 1904 period were $9,320,207, as against $8,145,610 in the 1903 period.

ARGENTINA REBELS ALMOST OVERCOME

Government Troops Capture Many, and Others Surrender—Mendoza Branch of National Bank Robbed of $300,000.

Buenos Ayres, Argentina, Feb. 6.—Government troops attacked the rebels, who had fortified themselves at Mendoza, at dawn to-day. Soon afterwards the rebel leaders and officers fled to the mountains, and the men surrendered conditionally.

The rebels had sacked the local branch of the National Bank of Buenos Ayres and secured $300,000. Numerous arrests have been made and the city is now quiet.

Late information shows that the insurrectionary movement is now restricted to Cordoba. Generals Winther, Benavides, Garcia and Roca, with largely superior forces, are surrounding the city.

The rebels are holding Senator Yofre.

The Buenos Ayres police have seized a quantity of guns and revolvers, and also many copies of manifestos and revolutionary documents.

Night trains on the line between Buenos Ayres and Rosario will be resumed again to-morrow.

All the bankers here condemn the attempted revolution and express the hope that the energetic policy of President Quintana will prevent any such attempt in the future.

The only group of rebels in the Province of Buenos Ayres, 150 men strong, has been defeated near Pirovano station. Two officers and seven men were killed and 121 surrendered.

The rest, with Commandant Villamayor, are retreating and Government troops are in pursuit.

The Buckingham, King's Highway and Forest Park, will serve Sunday table d'hote dinner from 5:30 till 8; $1 per plate.

WILL APPEAR IN BEHALF OF NEW ELECTION BILL.

Louis P. Aloe, Who Drew Up Measure, Goes to Jefferson City This Afternoon.

Louis P. Aloe, former Election Commissioner, will go to Jefferson City this afternoon to appear before the Committee on Elections to-night in behalf of the new bill, of which he is the author. The bill for a new election law was suggested after a study of many of the main features of the code of other States, and a close dissection of the measure in force in Missouri.

Mr. Aloe's bill would require every hotel, tavern, inn and boarding-house keeper to file a list of guests with the Board of Election Commissioners, with a sworn statement as to how long each had lived there. This testimony would be made compulsory.

It alters the present law so that no one could register unless a majority of the Board of Election Commissioners approved. The present law states that any man who appears must be registered, and this, Mr. Aloe asserts, makes opportunity for repeaters.

Under the provisions of the proposed law the board would be bipartisan, composed of four members appointed by the Mayor. The board would select its own president and secretary. In the event that the members would be unable to agree upon the officers the selection would be by drawing lots. Mr. Aloe says that this system is in force in New York and has proved satisfactory.

In the appointment of election judges and clerks Mr. Aloe would place a qualification upon the applicants. He says that they should at least be householders so that they "could be found when wanted." It would not be compulsory to own land, but merely to live with your own family, he says.

According to the new measure the Chief of Police and members of the force would be under the jurisdiction of the Election Commissioners on registration, revision and election days. The numbers of the stars of any policemen or officers who were transferred on these days would have to be filed with the Election Commissioners. Mr. Aloe says that this would prevent any chance to escape identification by changing stars.

DIVORCE DAY AT CLAYTON; SEVEN COUPLES ARE FREED.

Henry W. Ledbetter Tells Judge McElhinney That His Wife Mended the Clothes of Another.

Yesterday was divorce day in the Clayton Circuit Court. Seven mismated couples were freed by Judge McElhinney from the marital ties that bound them.

Because his wife, Ida Belle Ledbetter, mended the clothes of a man named Chamberlain, Henry W. Ledbetter concluded that married life was not all sunshine and obtained a decree of divorce. There were other allegations, but this was the principal one. The couple were married September 11, 1892, in Pulaski County, Missouri, and separated January 26, 1904.

Primrose Kelly obtained a divorce from Joseph E. Kelly on the ground of habitual drunkenness and indignities. They were married February 1, 1900, and separated October 25, 1901. Anna Clifton Crouch alleged that her husband assaulted and beat her. He is now a resident of Chicago and did not contest the suit. They were married July 17, 1893, and separated August 20, 1904.

Nellie Conoway was divorced from Frank Conoway on the charge of habitual drunkenness and general indignities and was awarded the custody of their 8-year-old son. The couple were married in June, 1896, and separated some seven years later.

Bertha Buschmiller alleged general indignities and vagrancy against Fred Buschmiller. The decree was by default. The couple lived together less than five months after their marriage, April 13, 1901.

Lavilia E. Dillon obtained a decree against Robert F. Dillon on the ground of abandonment. The couple were married August 20, 1896, and separated November 1, 1902. On the same ground Antoine Gast obtained a divorce from Ernest Gast, to whom she was married in Fort Smith, Ark., April 7, 1898, and from whom she separated April 7, 1900.

The Itch Fiend
That is Salt Rheum or Eczema,—one of the outward manifestations of scrofula.
It comes in itching, burning, oozing, drying, and scaling patches, on the face, head, hands, legs or body.
It cannot be cured by outward applications,—the blood must be rid of the impurity to which it is due.
Hood's Sarsaparilla
Has cured the most persistent and difficult cases. Accept no substitute for Hood's; no substitute acts like it.
