FREE FOR 30 DAYS

A POSITIVE CURE FOR CATARRH

DRUGGISTS GIVING AWAY

MUNYON'S $1 INHALER

FREE WITH MUNYON'S PAW-PAW

$2.00 for $1.00

THE MOST COMPLETE AND ONLY POSITIVE CURE FOR CATARRH, COLDS, COUGHS, GRIP, BRONCHITIS AND ASTHMA.

I am going to prove that my PAW-PAW and my Inhaler will positively cure Catarrh. I mean by this Catarrh of the Head, Catarrh of the Throat, Catarrh of the Lungs, Catarrh of the Stomach, Catarrh of the Kidneys, and CATARRH of the Bowels. I don't care how chronic, how long standing, how many doctors have failed to cure; I know that I have the most rational and positive cure that has ever been found. I know that my Paw-Paw will not only CURE Indigestion and Catarrh of the Stomach, but that it will positively eradicate every particle of catarrhal poison from the blood. Its vitalizing forces immediately build up the whole nervous system. It digests almost everything that it touches. You can't be despondent, you can't have dyspepsia, you can't be nervous, you can't have insomnia if you will take Paw-Paw, but there are certain forms of Catarrh, such as Catarrh of the nose, head and throat, that positively must have local treatment in order to soothe and heal the raw places and form a new membrane. All the medicines in the world taken internally will not cure such cases.

I am, therefore, offering to give away my $1.00 INHALER absolutely free to all people who purchase a bottle of my Paw-Paw. I am going to prove that CATARRH can be cured. I am going to prove that positively 90 cases of Deafness can be cured by this treatment. I am going to prove that nearly all cases of Indigestion and Nervousness are caused by catarrhal poison dripping from the throat into the stomach. I am going to prove that Inhalo will immediately soothe and heal all diseased and inflamed parts, that the vapor will penetrate to the deepest parts through the mouth and nostrils and through the nostrils will reach all the cavities of the head that cannot be reached in any other way.

To do this I am authorized to present each purchaser of a bottle of Paw-Paw, Inhalo, also a box of Catarrh Tablets and a package of Paw-Paw Pills absolutely free. The actual value of this treatment would be $2.00, but in order that everybody may have a chance to make the test, I have reduced the price to $1.00. More than this, I am to refund the money to any purchaser who does not find satisfaction and is not perfectly satisfied with the results. I will refund the money. If your druggist cannot deliver you this complete treatment, let him write to me and I will fill his order. Send me a dollar and I will send the treatment by express—all charges prepaid. Address MUNYON REMEDY CO., Phila., Pa.

Gives Instant Relief.

Clouds of medicated vapor are inhaled through the mouth and emitted from the nostrils, cleansing and vaporizing all the inflamed and diseased parts which cannot be reached by medicine taken into the stomach.

ADELBODEN IS CENTER OF SKI-ING

Headquarters of the Most Important Section of the Swiss Ski-ing Association — Tobogganing in Vogue.

Adelboden, Switzerland, Feb. 18.—Owing to the especially favorable formation of the valley, abounding in so many long, gentle slopes, this is the very heart and center of the skiing sport on the Bernese Oberland.

It is the headquarters of the most important section of the Swiss Skiing Association, and in the immediate neighborhood there are three of the most frequented skiing club huts, the one on the Bonderalp, which is visible from here high up on the sunny side of the mountain, the Hahnenmoos Hütte, which is just over the crest of the Lenk Pass, and another one on the Hockelberg.

These huts are arranged like those of the Alpine Club, with bunks full of clean straw for the many lodgers that often times fill the little premises to more than overflowing, and are stocked also with all the tools and appliances requisite for mending the skis.

Most of the members of the association are Swiss, but now a new club has just been formed, the English Ski Club, which limits its membership to a much narrower field, and is hedged with more restrictions as to admission to membership. Mr. Sniffy Hughes is the honorary secretary of the younger organization.

The members have a choice of about fifty pairs of skis, kept in stock at the clubs headquarters, and benefit also by a much closer social relationship than in the larger organization. Professor Richmore, who was last year at St. Moritz, is passing the season here, and is recognized as by all odds the best exponent of the sport in Switzerland.

ADELBODEN CURLING CLUB.

The Adelboden Curling Club is one of the four big Swiss curling organizations that are properly affiliated with the Caledonian mother club, the other three being those at St. Moritz, Davos and Grindelwald. Bandy is played almost daily, and there are a number of very strong teams representing the different hotels.

That of the Hotel Kurhaus issued an open challenge to all comers early in the season, but the succession so far has proved too formidable to allow of its acceptance by any of the other regular teams. The crack team is composed of Messrs. Neville, Higbee, Stewart, the brothers Gest, and Miss Philipps. The last named is the strongest player of all, last year she was in the English view that passed Scotland and Ireland.

Tobogganing has also many votaries. From the front door of any of the hotels you can slide without a stop for four kilometers. That is on the main highway, but there are several other runs that present more sporting elements.

There is the "Wood Run," which curves down through the forests in a series of awful steepness, with pretty bad spills in some of the turns at a distance of not more than a yard from the center of the path. This is forbidden to the children, and there are not many of the grown people who use it frequently.

Then there is the long continuation of the Aller run, which is still much too steep for the more timid ones, and the long run on the other side of the valley down to Boden.

Owing to the great range of temperature between noon and night the crust of the snow forms much harder than in Grindelwald, and guiding the sled is not a simple process of digging in the dusty snow with the heels, for the most part sharp iron points hell in either hand are also used for steering.

POE POEM TO BE SOLD AT AUCTION

Literary Curiosity, an Autograph Copy of "Ulalume," Including Suppressed Stanza, Was Written in 1847.

New York, Feb. 18.—At an auction house in this city there is to be sold a unique bit of Poe—a nothing less, in fact, than an autograph copy of the weird and mystic poem of "Ulalume," containing a stanza which was suppressed before publication and has never yet appeared in print.

"Ulalume, a Ballad," was the sole important product of "my most immemorial year," so described in the fifth line of the poem itself, namely, the year 1847. It was first published in the December issue of the American Review. Prior to publication Poe recited it at an evening gathering in Richmond, Va. One of the guests, Miss Susan Ingram, was deeply affected but confessed that she could not quite understand it at a first hearing and begged for the privilege of seeing it in manuscript. Poe next morning sent her the present transcript, accompanied by a characteristic note, which runs as follows:

Mrs. Ingram—Dear Madam—Pardon me for forgetting—I do so—that I promised to send you a copy of my last jeu d'esprit. I enclose it herewith. Perhaps you will find the verses worth the trouble of copying in my manuscript. Perhaps you will find the verses worth the trouble of copying in my manuscript. Perhaps you will find in my manuscript a meaning which I have not—_yet_ succeeded in explaining to the_ world. I_ _think_ it_ __ _ _ _
