GRAIN VALUES WEAK ON MODERATE SELLING.

BEARS CONTROL FUTURE MARKET.

Statistical and Crop Reports on Both Wheat and Corn Are Bearish.

Bears controlled the local market for grain in Saturday's market. There was no bullish news in sight and the bulk of the regular market information was favorable to the selling side. Receipts were large, the cash demand was light and foreign markets were rather indifferent. Lack of outside interest caused the usual Saturday liquidation and values were on the downturn at the close.

Corn also eased off. Large receipts and good weather were the main bearish factors in the market for the coarse grain.
