Mme. Yale's Remedies SOUVENIRS

Mme. Yale's New York Demonstrator Here This Week.

We are pleased to announce that Mme. Yale has sent us one of her best lady demonstrators from New York to explain to ladies the proper remedies for their specific needs. She will be in charge of Mme. Yale's remedies at our Toilet Goods Department this week.

SKIN FOOD FREE.

We are giving a large size sample jar of Mme. Yale's Skin Food (value $1.00) this week with every 75c purchase or over of Mme. Yale's Remedies. It is a well-known fact that Mme. Yale's Skin Food Removes Wrinkles and rejuvenates the countenance so effectively as to make it seem mysterious.

MME. YALE'S SPECIALTIES.

Words of praise for Mme. Yale's specialties are heard on every side. The Health producers and Beauty enhancers are equally popular. There is no exaggeration in saying that Mme. Yale's Remedies are the greatest of their kind. They have stood the test of time with increased honors.

MME. YALE'S LECTURE.

Those who attended Mme. Yale's recent lecture were well repaid, for they beheld a woman richly adorned with Health and preserved Beauty. Mme. Yale is a shining example of what her specialties and methods are capable of doing for those who apply them. When increasing years bring additional physical charms more fascinating and captivating to the eye than early youth, it is high time that all women profited by taking advantage of the means that produce such favorable conditions.

MME. YALE'S BOOKS FREE.

We cordially invite ladies to call at our Toilet Goods Department for copies of Mme. Yale's Free Beauty Culture Books.

NAN PATTERSON IS WITHOUT FEAR

Talks of Her Case to Newspaper Men, and Derides Rand for Showing Letter She Wrote to Leslie Coggins.

New York, April 29.—Nan Patterson received several newspaper men in the prison to-day and talked with them freely regarding her case. The interview was arranged by her counsel, but none of them was present at the meeting. During the talk she sat beside her sister, just outside the door of their cell.

Miss Patterson said she was thoroughly in accord with the decision of her counsel not to put in a defense. She considered it an eminently proper course. She praised the courage of Mr. Levy, her chief counsel, in daring to submit the case to the jury on the prosecution's evidence.

"I am not at all afraid of anything that 'Midget' has said on the stand," she said as she placed her hand on her sister's arm.

"To me Mr. Rand's action was more amusing than serious, knowing, as I do know, that he offered 'Midget' her freedom if she would testify as he directed. Of course, anybody would be nervous when one was so badgered as was Julia, although he tried very hard, he didn't do me any harm—at least, that is what I think.

"But did you ever see anything so shameful," she continued, "as his offer to my sister of her freedom if she would promise to testify against me?"

Then the sisters embraced, and Nan said to her sister:

"Don't you think the same way, Midget?" she asked Mrs. Smith.

"You bet I do," replied her sister.

"They couldn't make me say anything that would hurt you, Nan. Anyhow, there isn't anything I could say that would hurt you."

ABOUT HER LOVE LETTER.

Miss Patterson continued:

"What do you think of Mr. Rand showing the letter I wrote to Leslie Coggins? That letter is the one letter that every girl writes at least once in her life. I was fool on good terms with Caesar Young at that time. I was practically engaged to Mr. Coggins. He professed to love me very much, but now I feel sure he was playing me false.

"Mr. Coggins came to see me last summer in my cell here in the prison. He gave me $5. He told me how sorry he was for me, and he said—I remember his words: 'Nan, you now see what a mistake you have made by not marrying me.'

"I believe now that all the time he was calling on me he was acting in the interest of Millen."

Just then Mr. Patterson came in, and both of the women embraced him, and Mrs. Smith said:

"Here's a letter from the folks at home."

Then Nan showed them a picture, the original of a drawing. It showed Miss Patterson seated, reading some letters. Instead of being behind bars, she was covered with a bower of roses. The drawing was by a woman, and on the back of the sketch was written these words:

"May this transformation take place quickly."

Nan turned to the reporters and said: "I feel sure that that picture will come out true."

GLACIER IS TAPPED TO MAKE IT SAFE.

Through Tunnel Dug From Underneath the Accumulated Water Is Drawn.

Paris, April 29.—The Tete Rousse Glacier was almost unknown until the summer of 1892 being at the extreme southwest of the Mont Blanc chain, and separated from the greater and far more conspicuous masses of ice, and in that year the attention of the world was attracted to it by a remarkable accident which was different in its character from any similar catastrophe of which anything is known. About 140 lives were lost, and in making an investigation of the cause of the break it was found to be due to its peculiar position, lying in elliptical valley with but a limited outlet, for the flow of ice causes it to offer material differences in behavior from the action of the great glaciers having a free outlet for movement of ice and discharge of water.

The engineers arrived at the conclusion that some artificial outlet for water from the Tete Rousse Glacier was necessary for the prevention of further disasters, and it was decided to bore a tunnel through the rocky wall of the valley and into the heart of the glacier, thus tapping the accumulated water and providing an outlet over and through the Bossonet Glacier, where it could do no harm.

This portion of the work required great care in order that the imprisoned water should not be tapped at a time when its first effect might carry away the men engaged in the tunnel, and it was only after drilling two holes into the heading after the ice was penetrated that the approach to the water was determined.

MAY SALE ON TO-MORROW.

Penny & Gentles to Offer Some Extraordinary Bargains in Dry Goods.

Exceptional opportunities for economical shopping are offered in the May sale of Penny & Gentles, which commences to-morrow morning.

Great quantities of the newest and best of the season's styles in ladies' underwaists, shirt waists, silks, white goods, tailor-made suits and fancy waist patterns, curtains and mattings, hand-loom Irish linen sheetings and men's madras shirts are among those to be offered for sale.

Penny & Gentles have been busy for weeks in the Eastern markets buying in preparation for this sale, and some really remarkable bargains are to be offered to-morrow.

This is particularly true of the ladies' underwaists, fifty cases of which have been received, and which include choice lots of over 36 styles, drawers at 12 cents, corset covers and chemises at 25 cents and corsets at prices ranging from 50 cents to $2.50.

WILKIE GOES TO PHILIPPINES.

Secret Service Chief to Break Up Counterfeiters.

San Francisco, April 29.—John E. Wilkie, Chief of the United States Secret Service, is here on his way to the Philippines to investigate the counterfeiting of the American currency.

Mr. Wilkie is supposed to be deep in politics and Congress. It was generally understood that the business of the Secret Service would be seriously menaced if Wilkie was transferred to the Philippines, but it was up the issue in Congress, where a bill to place the Secret Service is about to go to conference.

VOGEL SUCCEEDS BIGELOW.

Rich Milwaukee Man Made President of Bank.

Milwaukee, April 29.—Fred Vogel, Jr. was to-day elected president of the First National Bank of this city to fill the vacancy caused by the removal of Frank G. Bigelow, the defaulting president.

Mr. Vogel is one of the wealthiest brewers of Milwaukee, and has long been a director of the bank.

"Rubber Days" for the Poor.

REPUBLIC SPECIAL.

Bloomington, Ill., April 29.—Rubber days are now becoming a recognized institution in central Illinois. On these days the citizens are asked to deposit all the rubber they can in some public place and the proceeds are used for charity. Rubber sells for a price above the average junk, and when an entire city is collected the rubber market always reaches a large sum. Rubber day in Bloomington was held upon Wednesday of this week and hundreds of pounds of the product were dumped into sacks.

PHENOMENAL BABY BUGGY SELLING

THE best Go-Carts in the world are made by the Heywood Mfg. Co. We are agents for the "Heywood" products; we know they're good; we've seen them made; each piece separately, and we don't hesitate backing the Heywood Go-Carts with our own reputation as being absolutely the very best.

"CLEVELAND'S SILLY CHARGES ARE UNWORTHY OF NOTICE."

So Says Mrs. Noble L. Prentis, a Leading Club Federation Woman of Kansas.

REPUBLIC SPECIAL.

Topeka, Kas., April 29.—Mrs. Noble L. Prentis, former president of the Kansas Federation of Women's Clubs, said to-day regarding former President Cleveland's article on women's clubs, published recently:

"It is not worth considering. I think that, above everything else, Mr. Cleveland betrayed a most contemptible ignorance concerning women's clubs.

"What should be his judge of women's affairs? I will admit that some women act silly over a club, church and kindred organizations. They go too far, and make a ridiculous appearance, but it is a wonderful and that women's clubs have accomplished.

"No, I can say but one thing, and that is that Mr. Cleveland betrayed nothing but ignorance, and that his silly charges are entirely unworthy of notice."

CORN SHOW INSTITUTES.

State Board of Agriculture Will Repeat Experiment.

REPUBLIC SPECIAL.

Columbia, Mo., April 29.—In view of the success that attended the Corn Show Institute meetings held in 1903, the Missouri State Board of Agriculture has decided to repeat the experiment this year. Meetings will be held in the parts of the State where corn improvement is to receive the most attention, the aim being to make the instruction as practical as possible.

Attention will be given to the value of pedigreed seed corn, and especially to cultivation, the use of commercial fertilizers, the selection and treatment of seed corn, the utilization of the corn fodder and how to get the most out of the corn crop. The Missouri Corn Growers' Association will offer premiums at all the Corn Show Institutes held, giving first and second prizes for the best ten ears of yellow and white corn, each.

The outlook for a profitable series of Farmers' Institute meetings is better than ever before at this time. A number of requests for meetings are on file with the secretary of the board from for any previous season. The Agricultural College of the university will assist the board in the institute work, several heads being added to the teaching staff, which is further strengthened by the return from Europe of Dean H. J. Waters, Doctor J. W. Connaway and Professor C. H. Eckles. The new State Dairy Commissioner will also cooperate with the board in holding the meetings. Lecturers will be sent out to any community that desires to perfect an organization for carrying on institute work.

The board announces that no institute meetings will be held this year in connection with the Corn Show, as it is desirable that the farmers give their entire attention to the institute lectures and demonstrations.

Civil Service Examination.

Washington, April 29.—The Civil Service Commission announces an examination on May 24 to secure eligibles from which to make certification to fill a vacancy in the position of wagonmaker under at $720 a year in the Haskell Institute, Kansas, and vacancies as they may occur in at branch of the service requiring similar qualifications.

Young Millionaire Tires of Work.

REPUBLIC SPECIAL.

Omaha, Neb., April 29.—Herbert M. Harriman, son of the late Oliver Harriman, New York millionaire, who came to Omaha some time ago to learn practical railroading as a clerk in the Union Pacific headquarters, has tired of the work, after trying to live on $15 a week, and has returned to ease and luxury in New York.

Lost $17,000 in Bank Failure.

Dallas, Tex., April 29.—Revised schedules of the Hockley Bank failure at Valasco and Angleton show that Brazoria County has $17,000 of public funds tied up in the bank at Velasco. Claire Forrester, Clarion, and Mr. Berdine state that in time they can make the County entirely secure for the money.

336 Hours

Are Required to Make Liquozone—Yet the First Bottle Is Free.

We spend 14 days and nights to create the virtue which you find in Liquozone. During all of that time it employs immense apparatus, and skill and care. At the end of two weeks, we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used.

This process has, for more than 20 years, been the constant subject of scientific and chemical research. The object is to take germs which are germ-allies, tonics, nerve foods and blood foods, and to condense their virtues into liquid, stable form.

The main result is to get into a liquid, and thus into the blood, a powerful yet harmless germicide. And the test means to you. Then, for the good of all, tell others about it, as others will tell you.

We Paid $100,000

For the American rights to Liquozone, and the rights in other countries have sold for proportionate sums. We mention this fact to indicate the value of Liquozone—the value to you. Men have never before paid such a price for any discovery used in the cure of sickness.

We need not tell you that we proved Liquozone well before buying it. For years it was tested through physicians and hospitals, in this country and other. It was confirmed in every stage of every germ disease, in all the most difficult cases obtainable. With thousands of sick ones, considered incurable, we proved that it did what medicine could not do. Then, and then only did we pay the price.

Since then we have spent nearly $1,000,000 to make Liquozone known. We have bought the first bottle and given it free to every sick one we learned of. These people told others, and the others told others. The result is that Liquozone is now more widely employed than any medicine ever was. And no one can doubt that it is doing more for sick humanity than all the drugs in use combined.

Used the World Over.

During the past two years this remarkable product has sprung into worldwide use in the treatment of germ diseases. It is used more generally than any remedy ever used before. Millions of homes in America know from experience what Liquozone can do. One home in five—wherever you go—has someone whom Liquozone has cured. And in numberless homes where Liquozone is daily used, sickness has been almost banished.

But there are millions of others who don't know Liquozone yet. Many still cling to medicine for what medicine cannot do. Many remain sick without knowing how easy it is to get well. We publish this offer for them.

Your own neighbors and friends can tell you what Liquozone has done. Please ask them about it. Then try to believe that what it has done for others it is bound to do for you. Ask us for a bottle to try. Please learn at our expense, when this wonderful product means to you.

Kills Inside Germs.

The greatest value of Liquozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. For that reason, medicine is almost helpless in any germ disease.

Liquozone is a germicide so certain that we publish on every bottle an offer of $1,000 for a disease germ that it cannot kill. Yet it is not only harmless but of wonderful benefit. Better than anything else in the world for you. So sure of it as well that he cannot be helped by it.

The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter. To the human body Liquozone is exhilarating, vitalizing, purifying—the most needful, the most helpful thing possible. But to germs it is certain destruction; and these facts are true of nothing else in existence.

Germ Diseases.

These are the known germ diseases; all due to germs or to the poisons which germs create. These are the diseases to which medicine does not apply, for drugs cannot kill inside germs.

All that medicine can do for these troubles is to act as a tonic, aiding Nature to overcome the germs. But these results are indirect and uncertain, depending on the patient's condition. A cure is always doubtful when drugs are used, and some of these diseases medicine never cures.

Liquozone has stood behind the physician in these diseases of these troubles. Every disease in this list has been cured with it so often that we have come to believe that results are almost inevitable. Our faith in the product is so great that in any of these diseases, no matter how difficult, we gladly send to every patient who asks it, a guarantee, covering a two months' test.

Asthma	Piles, Fistula, Inflammation
Abscess, Anaemia	Kidney Troubles
Bronchitis	Leucorrhoea
Blood Poison	Leprosy
Bright's Disease	Liver Troubles
Bowel Trouble	Malaria, Neuralgia
Consumption	Many Blood Troubles
Catarrh	Nervous Troubles
Chronic Coughs	Rheumatism
Colds	Scrofula
Constipation	Skin Diseases
Contagious Diseases	Stomach Troubles
Diphtheria	Throat Troubles
Dysentery—Diarrhoea	Tuberculosis
Eczema, Eczema	Tumors, Growths
Erysipelas	Typhoid Fever
Fever (all kinds)	Typhoid
Gall Stones	Ulceration
Germ Poisoning	Venereal Diseases

All diseases that begin with fever are the germ diseases, usually all accompanied with the results of poisons in the blood.

In serious debility Liquozone acts as a builder, accomplishing what no drugs can do.

50c Bottle Free.

The way to know Liquozone, if you have never tried it, is to ask for a bottle free. We will then send you an order on a local druggist for a full-size bottle—a 50c bottle—and will pay the druggist ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

This offer applies not only to those who are sick. It is open to anyone who wants to feel better—who desires to keep well. Every home has a use for Liquozone. Every person ought to take it daily, as we do.

The acceptance of this offer places you under no obligation. We simply wish to convince you, let the product itself show you what it can do. Then you can judge its results as to whether you wish to continue.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle, and give it to you, if there was any doubt of your getting results. You want those results, you want to be well and to keep well. Then be fair with yourself, accept our offer today. Let us show you, at our expense, what this wonderful product means to you.

Liquozone costs 50c and $1.

BUBONIC PLAGUE IN CHILE.

Conditions at Pisagua Described as Terrible.

San Antonio, Tex., April 29.—Passengers from Chilean ports, according to a dispatch to the Express from Mazatlan, Mexico, bring the first full information concerning the terrible ravages of bubonic plague in the city of Pisagua, Chile.

For some time before their departure the deaths in Pisagua had ranged from ten to thirty a day, and the authorities were often unable to enforce burial.

Corpses were thrown into the street to decompose and spread contagion. Rats in the headways had been killed in the fight on the disease, and it seemed as though the entire population of that Chilean port might be exterminated by the plague. Many persons had been shot down by the soldiers on guard while attempting to escape from the stricken city.

Population of Mexico, Mo.

REPUBLIC SPECIAL.

Mexico, Mo., April 29.—A recent special census in this city shows an increase of the city's population in the last year and a half years of 20 per cent. The population is now 5,000, and the town is growing rapidly.

STATE REPORTS ARE FILED.

Total Taxes and Fees Paid in During April $17,490.55.

REPUBLIC SPECIAL.

Jefferson City, Mo., April 29.—Secretary of State John E. Swanger reports having received and filed into the State Treasury taxes and fees for the month of April, as follows: Notarial commissions, paid deposit corporation tax, $1.50, foreign corporation tax, $20, miscellaneous fees, $22.50, Land Department fees, $1.50, bank examiner, $1, state road bonds. State Treasurer J. F. Gmelich issued his monthly report showing the receipts for the month of April, $9,000.55, disbursements, $9,000.55, balance, April 30, $1,000.55.

MARKET REPORTS.

Stocks Generally Lower—Bonds Firm.

NEW YORK, April 29.—Stocks were generally lower in the opening trade, the exceptions being Tennessee Coal and Iron, which rose 1 point, and Pacific Mail, which gained ½. The Hill issues were weak, Great Northern preferred losing 1 point and Northern Securities ½. Pennsylvania was also weak, losing ½. Reading, Union Pacific, Southern Pacific, Rock Island, Missouri Pacific, Chicago Great Western, Chicago Milwaukee and St. Paul, Ontario and Western, Erie, Lackawanna, Wabash, Colorado Fuel and Iron, Tennessee Coal and Iron, Sloss Sheffield, Pressed Steel Car, Pullman, Brooklyn Rapid Transit, Consolidated Gas, Leather, Amalgamated Copper, Sugar, Tobacco, Smelters, Steels, Chesapeake and Ohio, Minneapolis and St. Louis, Chicago and Northwestern, Delaware and Hudson, Louisville and Nashville, Norfolk and Western, Ontario and Western, Southern Railway, Texas Pacific, Wabash preferred, Western Union, Allis-Chalmers, Colorado Southern, Federal Steel, Iron, Lead, Metals, Mexican Central, National Biscuit, National Lead, Pacific Mail, Pullman, Reading, Rubber, Tennessee Coal and Iron, Wabash preferred, Western Union, Wheeling and Lake Erie, Wisconsin Central, Express, Adams, American, United States, Wells-Fargo, Consolidated Gas, Manhattan, Metropolitan Street, Brooklyn Rapid Transit, Central Leather, Consolidated Tobacco, Sugar, Amalgamated Copper
