LACLEDE BUILDING LEASED 99 YEARS

Owning Company Transfers Office Structure at Fourth and Olive to Merchants-Laclede National Bank for $375,000.

The deal which has been pending for several days for a ninety-nine-year lease of the Laclede building at Fourth and Olive streets by the Merchants-Laclede National Bank was closed yesterday, the Laclede Building Company transferring the property for $375,000.

Paul Brown, owner of the ground upon which the building is located, also disposes of his interests to the East End Realty Company for $402,719. The purchasing company is composed of John L. McDowall, Howard Gambrill, John McMenamy and W. J. Haley, local real estate agents, and was recently organized for the purpose of taking over the property as an investment.

The building was erected about fourteen years ago by the Laclede Building Company, which at that time acquired the ninety-nine-year lease on the ground. The building is a modern eight-story fireproof structure and contains more than 200 offices.

NULSEN BUILDING LEASEHOLD IS SOLD FOR $300,000.

George W. Tower Acquires Profitable Investment Property at Sixth and Olive Streets.

Deeds were recorded yesterday transferring the leasehold to the Nulsen building at the southwest corner of Sixth and Olive streets from the Tacoma Realty Company to George W. Tower of the Tower estate, and a heavy operator in downtown investment properties. The purchase price is omitted in the transfer, but is understood to have been about $300,000.

The property has a frontage of 58 feet on Sixth street by a depth on Olive street of 87 feet. It is improved with a four-story building, and rents for $45,000 a year. Several of the tenants hold leases which have several years to run that will prohibit any early improvement of the corner.

The Tacoma Company, which is composed of H. H. Hess, W. J. Holbrook and W. A. Blankweider, real estate dealers, acquired a ninety-nine lease on the property from John C. Nulsen two years ago on a rental basis of $25,000 a year.

TO BUILD MODERN DRY GOODS STORE IN WEST END.

John Lamb of the Cuddy & Lamb Dry Goods Company has purchased ground fronting 171 feet on the east side of Hodiamont avenue by a depth of 131 feet on Easton and Theodosia avenues, which will be improved with a modern building to be occupied by a dry goods store. The property is near the city limits at Wellston and in a neighborhood that is being rapidly built up by business houses.

The Anderson-Stocke Realty Company yesterday sold the store and flat buildings at Nos. 4304-4306A Finney avenue, and Nos. 4325-27 Fairfax avenue for Julia F. Young to Ellen Sked for $19,900. The property occupies a frontage on both streets of 75x133 feet and brings in a yearly rental of $2,880.

CONDITION OF MISSOURI WHEAT BULLISH FACTOR.

CORN STRONG ON REPORTS OF RAIN.

Market for Oats Is Steady, and Provisions Are Firm, Following Advance in Hogs.

Chicago, June 2.—Anxiety over the condition of the Missouri wheat crop was one of the causes for a strong market here to-day in wheat. Advances at Minneapolis had also a decided effect. At the close July wheat was up 4@4¼c. Corn is up ¼@½c. Oats are unchanged. Provisions are a shade to 10c higher.

WHEAT.

Sentiment in the wheat pit was inclined to bullishness the greater part of the session. The tone of the market at the start was firm, July being up a shade to 1,@¼c at 85¾c to 85⅞c.

The main factor that affected trading at the opening was a surprising loss shown in the condition of the wheat crop of Missouri. According to the State Statician the condition of winter wheat on June 1 was 81, as against 91 a month ago. Another influence that exerted a bullish effect was smaller receipts in the Northwest.

Prices at Minneapolis showed a strong disposition to continue an upward flight. This had much weight with traders here, in view of scarcity of cash grain at all points. Buying by shorts and commission houses forced the price of July up to 89½c before any considerable profit-taking developed.

On a bearish report by a St. Louis trade journal the market here eased off temporarily, July declining to 85⅝c. Pit traders in general, however, were inclined to ignore this report in view of the poor showing of the crop in Missouri. Demand soon became active again and resulted in a quick rally. The highest point for July was reached at 86⅞c. The market closed strong with July up 4@4⅛c at 86c.

Clearances of wheat and flour were equal to 42,300 bu. Exports for the week, as shown by Bradstreet's, were equal to 1,296,000 bu. Primary receipts were 290,000 bu., compared with 208,000 bu. a year ago. Minneapolis, Duluth and Chicago reported receipts of 164 cars, against 129 cars last week and 206 cars a year ago.

CORN.

Reports of the backward condition of the corn crop resulting from excessive rains formed the basis of a strong corn market. Small receipts were an additional aid to the bulls. Shorts were active buyers throughout the entire session. July opened unchanged to ⅛c higher at 50⅝c to 50¾c, sold between 50½c and 50⅞c and closed at 50⅞c. Local receipts were 129 cars with 79 of contract grade.

OATS.

The market for oats was steady and trading was confined to small traders. Strength of wheat and corn had considerable influence. July opened ⅛c higher at 36⅝c, sold off to 36¼c and closed at 36⅜c. Local receipts were 112 cars.

New York Bond List.

[illegible]

movement was irregular, opening up active, but winding up very slow.

Steers comprised most of the supply, and were largely fair to good at $3.60@4.15, some right good cattle bringing $4.25 and 2 loads of choice heavy steers $5. The best heavy cattle were held over from yesterday, and were an even cut of those selling at $4.15 on Thursday, which shows a 5c lower basis, no competition being afforded. General run of cattle sold steady, though some nice qualified good grass steers around $4.00, sold 10c higher; some coarse cattle were included around $3.50, but offerings were largely of a decent kind. Some few bulls, mixed cows and heifers were included, selling steady.

In order to give a correct impression on the state of the cattle market this week, the following table will plainly show in what proportion steers have sold at the different ranges. Up to Thursday night receipts were 15,555 head, of which 572 were calves, leaving about 15,000 grown cattle. Of this total about 11,000 were steers and sold as follows:

HOGS.—A very small supply of hogs was on sale, the arrivals amounting to about [illegible] head, but the majority of them were pretty good quality, very few soft Southern pigs and lights being included.

The market opened with a good demand from all sides, buyers seeming to be in need of all the decent hogs they could get. Values ruled fully 5c higher in all cases, and some of the best hogs sold 10@15c better than they would have on Thursday. City butchers and shippers were all active competitors, consequently the good light and medium weight hogs showed the most strength and sold the quickest.

Southern pigs and lights were very little better, and rough old sows and stags were not in very good demand, buyers taking only the nice smooth hogs. No change of any importance was noted throughout the day, and the pens were well cleaned before the close.

A load of good heavy hogs sold at $5.40, and the bulk sold at $5.32@5.35, against a top of $5.20 and the bulk at $5.20@5.25 on Thursday.

SHEEP.—Only a moderate number of sheep arrived, but sufficient to meet the demand, the heavier receipts earlier in the week enabling buyers to purchase all they needed, so they did not care whether they bought anything or not. The market was extremely quiet, only very little business was transacted. Values were about steady with Thursday on sheep, but lambs were a shade lower, and not wanted even then.

HORSES.—The horse receipts were light, and there was little business done because offerings were scarce. The market closed dull for the rest of the week, which was steady on good to choice kinds, and weaker on inferior. The best demand in the market at present is for select chunks, expressers and drafters for the Eastern and drivers for various buyers.

MULES.—About all the weeks arrivals have been sold, and the receipts were few. The movement has been active all week, on good to choice work. Big mules, which the buyers were wanted to fill Eastern orders, but common and small ones, which, fortunately, were few, were not wanted and sold dragging.

By Telegraph.

Chicago, June 2.—Cattle—Receipts 7,000; market higher, good to prime steers $5.20@5.40; poor to medium $3@5, stockers and feeders $2.10@4.25, cows $1.20@4.25, heifers $2.75@5.40; canners $1.90@2.60; bulls $2.50@4.25, calves $3@7.
