COTTON MAKES ANOTHER HIGH RECORD FOR MOVEMENT

Renewal of Active Bull Support and Covering Because of Drought Are Responsible.

New York, Aug. 28.—Cotton prices made another high record for the present movement on the renewal of active bull support and covering, influenced by continued drought in the Southwest and reports of an improving spot demand.

The close was at practically the best point of the day or a net advance of 16@21 points. The opening was strong at an advance of 9 to 18 points, following higher cables and the dry weather in Texas.

There was considerable for sale at the advance, but Southern and Wall street bulls supported the market, and soon after the opening prices showed a net gain of 16@21 points.

This was followed by a reaction of 5 or 6 points, under realizing, but after ruling irregular during the middle session, the market firmed up in the afternoon for the late months, selling a point or two over the high point of the early session. The close was very steady. Sales were estimated at 350,000 bales.

Temperatures in Texas were lower, but the only indication of moisture was a forecast for showers in the Panhandle. Southern spot markets were 1-16 to ⅛ higher.

NEW ORLEANS BULLS POWERFUL.

REPUBLIC SPECIAL.

New Orleans, La., Aug. 28.—To-morrow's Times-Democrat, in its summary of the cotton situation, will say:

"In the absence of spot pressure, to-day's cotton market again proved the power of the bulls to push prices up in the face of consistent resistance on the part of the spinner. There was no change whatever in the situation in so far as the intrinsic value of the staple is concerned. The rings discussed in its various aspects the 'powerful combination of nonprofessional millionaires' at New York, which is credited by the talent with a well-developed desire to corner the October option.

"The market undertone was good enough, crop advices were pessimistic as a rule, and bullish weekly and monthly bureau bulletins were anticipated. Yet, analytically inclined, operators were by no means satisfied with the quality of the staple's buoyancy. Forcing appeared to be too largely in evidence on a small market. Undoubtedly new 'long' interest is being created every day, much of it predicated upon the assumption that while spinners are successfully holding off, they are rapidly consuming the invisible supply of raw cotton, and at the same time a 'short' interest in the actual 'stuff' is being created through the sale of cloth, against which there is no option hedge.

"The talent's attention continues centered on the Texas crop, which some of the bears now assert would be injured by rains at this time. For weeks bulls have made capital of the drought in that State, which has not yet been broken.

Meanwhile, the activity of bull manipulators has failed to utterly stir up general speculative enthusiasm on that side the account, and the technical position of the market, therefore, devoid of suspicious indications, though higher prices are freely predicted, shorts being yet unable to break the backbone of bullish endeavor through deliveries on contracts, and they cannot hope to improve their position in this respect for several weeks to come.

"The near future, however, should witness some sort of a revival of general interest in the staple. The bureau may supply the call to action, or the fact that new cotton is moving comparatively freely and with no indication to hold back the new crop, may some day soon make the line of eleven on the blackboards appear overimposing."

ST. LOUIS UNIVERSITY EXAMINATIONS THIS WEEK.

Teaching Staff Added to and Outlook for Attendance Promises Greatest in Institution's History.

The entrance examinations to St. Louis University will be held Friday, Saturday and Monday. The Reverend W. Banks Rogers, S. J., president of the university, stated last night that a large number of applications for entrance had been received, and that the outlook for the coming scholastic year gives promise of exceeding that of any year since the founding of the university.

There will be several additions to the teaching staff of the college of letters.

Father Lynch, S. J., of New York, editor of The Messenger, who is well known throughout the country for his literary achievements, arrived at the university yesterday, and has been assigned to his department. The Reverend Phil Finegan, S. J., of New York, and formerly stationed at St. Francis Xavier College, that city, has also been added to the teaching staff. The courses in modern languages, comprising German, French and Spanish, will be emphasized this year more than in any previous year.

The most important additions to the medical department, which opens October 1, are the additional clinical facilities furnished by the addition of St. Ann's Hospital to the medical department work, and the Tenth and Biddle streets clinic.

The medical library will be thrown open this fall for the first time. Mrs. C. Runge has been secured as librarian, and the library will be supplied with thousands of works on medical subjects, besides all of the important medical journals published in America and 100 of the best European medical journals.

WOMAN TRAVELER CREATES SCENE AT UNION STATION.

Mary Jerome, Supposed to Have Escaped From Sanitarium, Held for Observation.

Mary Jerome, 31 years old, created a scene in Union Station last night immediately upon her arrival over the Chicago and Alton from Lincoln, Ill., where she is believed to have escaped from a sanitarium. The woman said she was looking for her sister-in-law, Sophia Jerome. She was taken in charge by Caller Newman, who turned her over to Policeman H. Combs.

Patrolman Combs took the woman to the Four Courts, from which place she was sent to the City Hospital for observation.

The woman could give no account of herself. She said she came from Lincoln, Ill., and that she had no money, but gave the conductor of the train a piece of white paper for a ticket. The conductor, she said, felt sorry for her, and brought her to St. Louis.

The woman had a grip in her possession, in which she had a quantity of linen bearing the mark of the Illinois State Insane Asylum. She is believed to have escaped from that institution yesterday.

Nine-Year-Old Child Probably Fatally Hurt by Broadway Coach.

Clarence, the 9-year-old son of Alexander and Manel McCurdy, of No. 282 South Broadway, was run down and probably fatally injured by a Broadway car yesterday at 10:20 a. m. He sustained a serious fracture of the skull and bruises about the body and legs. The injured boy was taken to the City Hospital, where his condition is pronounced critical.

According to eye-witnesses, the boy attempted to cross from the west side to the east side of Broadway when he was struck by northbound car No. 2267 of the Broadway line. The car was in charge of Motorman Daniel Wavarre, of No. 4061 South Broadway, and Conductor Montgomery Knapp of No. 3717 South Jefferson avenue.

Patrolmen Shields of the First District and Linden of the Second District conveyed the boy to the hospital. The accident occurred on Broadway near Pillmore street.

TWO COUPLES WED AFTER TWENTY-FOUR HOURS' DELAY.

Arrive From Illinois Sunday and Have to Wait for Opening of License Office—Ceremony in Hotel.

After having to postpone their marriage for a day because the Marriage License Clerk's office was closed Sunday, Robert Countryman and Mrs. Ethel Ludeau, and Walter Lord and Miss Carlotta Wilson, of Decatur, Ill., were married yesterday in the parlor of the St. James Hotel.

The couples came here from Decatur Sunday morning and proceeded to the City Hall. They could not find the license clerk, and returned to the St. James Hotel, where they remained until yesterday morning.

As soon as they secured their licenses they secured the Reverend W. D. Pittman, pastor of the Second Christian Church at Eleventh and Tyler streets, and he performed the double ceremony.

Both brides were disappointed that they could not be married in St. Louis S
