Beauty Talk.

The desire of every lady is always to appear at her best. A beautiful figure is coveted by all women, and the idea of a scrawny woman appearing in evening dress is hideous and causes comment and side talk wherever she goes, while a lady possessing a beautiful form is welcomed on every hand and receives every attention. Which would you choose to be?

Doctor Vaucaire long ago perfected a formula to develop women and it is this formula perfected which beauty writers recommend. It has been put in dainty little tablet form and is offered by the Willard White Company, Chicago.

It is very essential that only the genuine imported Rue Galegon and Lacto Phosphate of Lime, together with other ingredients recently discovered by the Willard White Company, be used in compounding Vaucaire Gaegia Tablets in order to obtain the desired effect.

Preventing Cooking Odors.

Odors from cooking, the careful housewife may be glad to know, can be prevented by tying up in a linen bag a lump of bread about the size of a billiard ball and placing it in the pot with the boiling greens, hams, etc.

This will absorb the gases which oftentimes send such an effluvium to the regions above. A few red peppers or pieces of charcoal put into the pot are also said to stop the unpleasant odor which generally fills the house when green vegetables are boiled.

Still another means of preventing cabbage odor is the following: Put the cabbage in a net, and when it has boiled five minutes in the first pot of water, lift it out, drain for a few seconds and place carefully in a second pot, which must be ready on the stove full of fast boiling water. Empty the first water away, and boil the cabbage until tender in the second. Bits of charcoal placed about the kitchen and elsewhere are useful in absorbing gases and other impurities.

THE ORIGINAL REMEDY THAT "KILLS THE DANDRUFF GERM."

SCHOOL CHILDREN.

Every school child should know that **baldness is a contagious disease, caused by a microbe.** Prof. Unna, of Hamburg, Germany, discovered that dandruff, itching scalp, falling hair, and final baldness are produced by a germ or microbe that passes from one head to another, where it burrows into the scalp and by multiplying and extending deeper and deeper into the hair follicles, saps the life of the hair root and produces baldness.

IT TAKES YEARS

to produce complete baldness, for the action of the dandruff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the endeavor made to combat the growth and development of the dandruff microbes, which can only be destroyed with Newbro's Herpicide.

This new antiseptic scalp germicide is past the experimental stage. It was made to destroy the germ that causes dandruff and falling hair, and by coaxing energy back into the impoverished bulbs, it enables the hair to grow naturally and luxuriantly. Thousands of letters from physicians, clergymen and laymen tell the same story of its wonderful success.

AN IDEAL HAIR DRESSING.

It is fortunate for those who understand the new rules for scalp cleanliness that the antiseptic qualities of Newbro's Herpicide make it the most delightful and refreshing hair dressing imaginable. Chronic baldness is incurable; save your hair while you have hair to save.

DOES ALL WE CLAIM.

I am using Newbro's Herpicide with pleasing results. It does all you claim for it.
