Who Says It Don't Rain IN TEXAS.

And who don't say that money saved is money made.

We know that a word to the wise is sufficient, hence we deem it only necessary to make a passing impression to the good fathers and mothers and all concerned. There is an old and well known aphorism: "An ounce of prevention is worth a pound of cure." The cry has gone out that the farmers and doctors are going to have a grand harvest. Everybody knows we have plenty of corn and fodder, we have plenty of chills and fever among our friends, such being the prospect of meeting with the hot summer's sun all the way, so to say reasonably expect the "Diseases," in his manifold forms, to make his appearance among our people, so we will anticipate enough you, in due time, to lay in a good supply of

"SIMPLE REMEDIES."

Everybody in this neck of the woods knows our efficacy in the relief of human suffering. You can, by having these favorite specifics on hand, at first appearances of disease, nip it in the bud, unless it is an attack of the "evil fever," so then, come one, come all, we have anticipated fully the exigencies of the times, and made ample provisions for the ailments and maladies that a malarial district is subject to, and in addition would say we have a very large stock of sundries, and are daily adding to the amount we want, and in order to reduce same, will sell very cheap. The stock consists in such articles as shoulder braces, female supporters, syringes, family syringes, baby feeding bottles, pocket knives, razors, combs, brushes, finger and bathing gloves, handkerchiefs, toilet and all other Prescriptions and family medicines have special attention by competent druggists.

In addition, farmer friends, would say that when you come in the city you should not fail to call and see us, for we have plenty of ice and good water, and other courtesies can be extended if necessary. Assuring you with full force of efficient attendants we remain,

Your friend, &c.,

W. L. TUCKER.

The Dallas Herald of Wednesday contains the following: "Mr. J. W. Brooks, of Waco, a passenger on last evening's 10:30 east bound train, met with a very painful accident by a window of the coach falling and amputating the end of a finger of his left hand. He suffered intense pain. He went to the drug store of Hickox & Hearne and Dr. R. H. Jones dressed the wound". It will be remembered that Mr. Brooks left this city on Tuesday last to visit his children in Memphis, Tenn.

A respectable and appreciative audience greeted Mrs. Saxon in the Female college chapel last evening. The lady spoke for more than an hour on the subject of temperance and prohibition. She did not run in the old ruts that speakers so often do, but branched off and made a telling lecture, and advanced many new ideas on the temperance reform movement. Mrs. Saxon is a fine speaker, and entertains her audience from the time she appears on the rostrum until she closes the lecture.

There was a Methodist sociable at the residence of Mrs. R. W. Lush last evening. The grounds are on a beautiful slope, and from the summit you can breathe the fresh zephyrs from the prairies, that sweep over the tops of houses and bring the perfume of the summer clover. Chinese lanterns glimmered everywhere, casting shadows of the many visitors who sought pleasure in the scene and the refreshing ice cream. The ladies reaped a harvest from the occasion and seemed to enjoy it as much as their guests.
