LOCAL AND COUNTY NEWS.

Democratic Meeting.

At the suggestion of democratic friends, the undersigned would recommend, that a meeting of the democracy of Dallas county, be held in the town of Dallas, on Monday the 7th of March next, for the purpose of appointing delegates to represent the county in the Convention, which is to meet in the city of Houston, on the 1st Monday in May next, to nominate candidates for Governor, Lieut. Governor, members of Congress, Commissioner of the General Land Office, Presidential electors, &c. It is hoped that the several precincts will be fully represented at the meeting.—The time recommended, it is believed, will suit the convenience of the people generally.

This recommendation is made, by the undersigned, in the absence of a county organization, and from having been president of a former Democratic Association, for the county. J. W. LATIMER,

Former Pres't. Dem. Association Dallas county.

THE CIRCUS AND MENAGERIE.—Mable's circus and menagerie exhibited at this place on Wednesday evening and at night. The performance was the best we have seen. The riding, posturing, vaulting, &c., was really good, and the clown is the first one we have seen who displayed some genuine wit. Many of the animals "down on the bills" were not exhibited, but those that were, were excitingly interesting to those who, like yourself had never seen them before For the first time the editor hereof gazed in wonder on the real live elephant, although he has often beheld the alligorical animal. We assure our readers it is a "sight" worth seeing for one, for the first time to behold the elephant, lion, tiger, and other "animals" of lers note exhibited by this company.

There was a large company out at each performance. We commend the company to the patronage of the public.

—The weather continues mild, at times uncomfortably warm. The earlier fruit trees are putting forth their foliage, flowers are shedding their grateful fragrance; the peach plum and other fruit trees have flowered; gardeners have planted most of their seeds, and everything announces that Spring is at hand.—There was however, a little interlude to this performance of the "clerk of the weather" on Friday evening last; a brazing 'norther" sprang up, and at night there was a heavy white frost, on the ground; as the atmosphere was very dry it is believed that no damage has been done to fruits or vegetables.

☞ One of the elephants attached to Mable's circus and menagerie is on the farm of T. C. Hawpe, Esq., 3 miles East of town, "undergoing repairs."—The curious can have a sight of him at the reduced price of ten cents We discredit the report that Hawpe has bought the varmint for a prairie breaker, or that he contemplates joining the circus.

☞ We would say to those who use the weed, if they want a good article of Old Virginia Tobacco, to call on W. W. Peak & Co, who have just received a fresh supply. We speak from experience.

BRIDGE BUILDERS.—Are referred to proposals for building a bridge across Ten Mile creek, in this county, on the Waxahachie road where the present bridge now stands. The contract will be let on the 15th March.

COUNTY CONVENTION.—We again call the attention of the democracy to the fact that the County convention to nominate delegates to the Houston convention, is appointed to meet at this place on Monday next.—As far as we have heard at preliminary meetings have been held in the beats—this is to be regretted, but if the democracy will come up from all parts of the county *en masse* it will give assurance that the people are for the movement. We urge upon them to do so. If Dallas county is to be represented in the Houston convention, let all parts of the county have something to say in it, let all portions be represented.—The appointment of delegates by a few persons from town will carry with it no moral force. On the contrary it will place a weapon in the hands of our enemies to use against us. Then come up democrats of Dallas, one and all and join us in our deliberations. We want no stocked or one sided affair, but a free, fair and honest utterance of the will of the democracy of the county.

Chil's and Fever! Chills and Fever!!

One of the greatest remedies that has ever been laid before the public, for Fever and Ague, and which have received the highest encomiums from the press and the people, is DR. J. HOSTETTER'S CELEBRATED BITTERS. Who would dare the tortures arising from this terrible disease, when it can be so easily cured? Who would endure sleepless nights, burning fevers and icy chills alternately, when a remedy can be obtained for a mere trifle? And yet how many families linger out a painful existance under this deadly blight, and do nothing but gulp down quinine, until it becomes as common as their daily meals, and yet they are not relieved. None but the foolish and weak would hesitate to procure these valuable Bitters, and save themselves intense agony.

Sold by druggists and dealers generally, everywhere, and by W. W. Peak & Co., Dallas, Texas.

MARRIED,

On the 22nd inst., at the residence of Michael Huffman, the Bride's father, by the Rev. W. K. MASTEN, Mr. D. W. C. SMITH, of this place, to Miss HANNAH HUFFMAN, of this county.

Accompanying the above notice we received a bountiful piece of the "Bride's cake," and a bottle of the sparkling vintage, which were duly discussed by the "press gang" of the 'Herald.' We tender our young friend Smith and his charming better-half, all the compliments and good wishes appropriate to such occasions. May

All of a piece be their after life,
No day shadow'd with domestic strife;
No jealousy, but mutual truth believ'd,
Severe repose and kindness undeceived."

On the 24th ult., by Elder Lewis JACOBS, Mr' WILLIAM STRONG to Miss BARSHEBA BAKER, all of Ellis county.

We acknowledge the receipt of the usual printer's fee.

To put over your head!

There can be no greater blessing than a good

TIGHT ROOF!

THE Salamander Cement, manufactured and for sale in New Orleans only, is positively fire and water proof; and for durability and economy is superior to any other roofing in the world. It can be put on any roof not too steep for a man to stand on, and the printed directions are so plain that any man can do the work. It is also good for siding houses, being completely impervious to air or water; it is an article that recommends itself to planters and others in the country.
