LOCAL NEWS

J. N. BARTHOLOW, Local Editor.

From and after this date, we propose to REDUCE THE PRICE OF ALL JOB WORK twenty-five per cent. We have the facilities and the workmen to do as good work, and at as low rates, as can be done anywhere, and we mean to do it. Bring your Fine Job Work to THE DAILY HERALD OFFICE, Corner Elm and Houston streets.

LADIES like jockies are fond of fancy GAITERS.

SOME gentlemen from Maryland want to start a tannery in our city.

A CARPENTER and an actor may be said to have business in common, as they both unquestionably *perform on the boards.*

A runaway team scattered a knot of politicians on Main street yesterday, worse than ever a majority against them would.

Two birds joined together with a ligature like the Siamese twins, were exhibited by some boys on the streets yesterday.

UP town there is a lady who has in her possession a bonnet worn by her great grandmother nearly two hundred years ago.

THE darky who committed a brutal assault on a little white boy, some weeks ago, was sentenced, day before yesterday, to seven years imprisonment.

"GIVING the devil his due" is a perfectly equitable line of conduct. From the actions of some Dallas men it would seem that this is about all the obligation they have to meet.

THE wind, yesterday, detached the lightning rod of the Methodist Church at the top of the steeple, and if not replaced at once, it may be rendered entirely valueless.

IT is not altogether fair for a San Francisco man to advise a young man to "go west," neither would we think it fair in a Galvestonian to advise a young man to go SOUTH.

A MAN, who ten years ago, was worth over a quarter of a million of dollars, drives a wagon in Dallas, for which he receives three dollars a day and all his employer's old clothes.

THE Illinois Central railroad company has appointed Charley Babcock their South-western passenger agent. In this choice, the Illinois Central have clothed with a most responsible office a gentleman in every particular thoroughly adapted to its duties.

GEORGE FRANCIS TRAIN'S friends who called him a "whale," and who succored him through his incarceration have become indignant at his slipping off to Europe, and wonder how he came to do it. Possibly his slipping off was attributable to TRAIN-OIL.

THE handkerchief telegraphy has a few operators in this city. A charmingly beautiful and a killing "gay" young widow overturned a spoony from one of our dry good stores yesterday, by a skillful manipulation of her "cambric."

WE have heard the name of Major James P. Douglas mentioned as a probable candidate before the Democratic State Convention for the office of State Treasurer. Major Douglas has a wide acquaintance over the State, and is well known in this county as First Lieutenant, and subsequently commander of Good's artillery company. He is an honorable gentleman, and if chosen State Treasurer, would, we know, make an efficient officer.

A FEW a Dallas man had spread himself generally through the city yesterday, a peach skin spread him out on the side walk near the Crutchfield. He looks mad enough to wish that the man who threw that peach skin on that sidewalk might be made to tumble off a hay-stack with a pair of friendly pitchforks.

Capt. W. P. Smith, special agent for the sale of lots at Terrell, deserves special praise for the energy and activity he has displayed in getting up and making arrangements for the sale on Monday. The large crowd that assembled at Terrell, and the abundant provisions—both of eatables and drinkables—set before the excursionists speak volumes in favor of his efforts.

A MAN came in the city afoot yesterday from Denton county. While sleeping one night under a tree, a thunder storm came up, and the lightning struck another tree about twenty-five yards distant, and upon being awakened by the shock, found the sight of one of his eyes completely gone, and the horse he had been riding standing apparently eating, but which, he in going up to, found dead, in the attitude of reaching down to nibble the grass.

THE name? Ah! it was as sweet as though it were struck from an angel's harp, her celestial robes swept to her royal feet like a bannered oriflame, in the eastern splendor of her eyes shone the empress summers of an Eden land, starless in her hair the superb midnight lay, while the marble of her hand was like a silver lily, and yet with all this, she's the champion dish-rag slingest at a hotel.

NANCY SMITH, a colored maiden, living away up town, has been carrying sweet potatoes home in her chignon. Sometime ago she was surprised in the tender attempt to carry home to her tender lamb some milk in her cologne bottle. Prior to this exploit her finger nails were pronounced yellow with sugar from the bowl, and now she has come to lacerating sweet potatoes through the attractive and tonnish protuberance of her back hair. Nance, it's our opinion that your crimes will never stop short of carrying home whiskey in the tears of your eyes.

THE Dallas man who was told six months ago that "truth lay at the bottom of a well," and who has been going there every day for the last half year in hopes of finding it, is now engaged in hunting up the man who told him that. He says he has no other earthly aspirations, it is his thought by day, his dream by night, it gives a golden tone to his life, it fills his heaven of delight with ten thousand stars, it is the source of his earthly bliss, only to see the man who told him that. He thinks a double share of his future happiness will be to see the children a pair of large pantaloons for a fragrant story. He has only but could find that man.

TELEGRAPHIC NEWS.

LONDON, June 27.—A special to the London Telegraph from Central Asia announces that Kahn Kidnon has surrendered unconditionally to the Russian troops before the capitol of Khonates. After General Kaufman had retreated, twelve proposals for capitulation were made with treacherous intent.

NEW ORLEANS, June 28.—A fire occurred in a drug store on the corner of Canal and Front streets; loss $20,000.

Pedro Martinez, from Havana, a passenger on the steamer Havana, while laboring under a fit of insanity, jumped overboard at the quarantine and was drowned.

BROWNSVILLE, June 30.—A mail from Laredo brings the news that a large party of Kickapoos are encamped on the Mexican side, a few mile from there, and are supposed to be waiting for the river to fall to make raids into Loredo.

Preparations are making for a vigorous defense.

These Indians have been in the habit of making incursions into that section and robbing ranches and killing settlers heretofore, and escaping into Mexico unpunished.

THE New York Herald estimates that the amount of actual cash brought into this country by immigrants averages one hundred dollars to every immigrant, and values every immigrant as a laborer at one thousand dollars. Consequently it estimates the increase of material wealth from the immigration of last week alone at the sum of seventeen millions of dollars. The Herald's estimate is entirely within the limits of reason. The muscle, brain and treasure brought to our shores from Europe are a prize of inestimable value.

SAN FRANCISCO, July 1.—Last night a terrible explosion of nitro-glycerine, on the corner of Taylor and Ii streets, killed ten persons, and wounded many others. A large number are also missing, and are probably buried beneath the debris.

The explosion of six cans of nitro-glycerine it is supposed caused the concussion, which exploded fifteen pounds of giant powder. Among the killed are Major-General Von Bokkelin, J. P. Smith, Wm. Davis, Ben Merdell, Charles H. Knox, of San Francisco, John Devine, Mrs. Emily O. Conner, and M. H. Lowe and daughter, aged eight years, of Gold Hill. General Von Bokkelin's body was found in his room. J. P. Smith, and Lowe, his former clerk, were found about five feet from their rooms.

A large number of workmen are employed in removing the debris from the bodies of the remaining persons, known to be beneath. The body of Charles H. Knox has just been taken out. Great excitement prevails. Business is suspended, and all the schools are closed. The streets are crowded with people.

It is now understood that there will be no celebration of the 4th of July, the money collected for it will be expended in burying the unfortunate dead, and the remainder will be distributed among the different fire companies. The city will go into mourning.

Joseph Sharon, Dan Lyons, Charles Von Sirder and Senator Hobart reported killed, are safe. It is now ascertained that Von Bokkelin had stored beneath his room six cans of nitro-glycerine, one hundred and fifty pounds of giant powder, and two hundred pounds of blasting powder. The body of W. L. Lowe has just been taken from the ruins.

DETROIT, July 1.—Barker's Tobacco Factory was burned this morning; loss $80,000.

A box of powder, in Hoosac Tunnel, exploded killing four and fatally injuring two.

At Richmond, at an early hour this morning, the boiler at the Tredsgor Works exploded, instantly killing Samuel H. Saunders, fireman. Several fragments of the boiler were driven a considerable distance, doing much damage. One piece weighing 10,000 pounds was blown through a stone wall into a blacksmith shop, greatly damaging the machinery. Fortunately the accident occured before time to go to work, otherwise the loss of life would have been great, particularly in in the blacksmith shop, where nearly one hundred hands are usually employed.

NEW ORLEANS, July 1.—A private dispatch from the Bay St. Louis, states that a duel was fought near Montgomery Station, this morning, between Ex-Judge Wm. Cooley and R. B. Rhett, Jr., of the Picayune, in which Cooley was instantly killed at the second shot. The difficulty grew out of an article published in the Picayune, headed "Hawkens vs. Picayune," and a reply from Judge Cooley, published in the Times of the 27th. Rhett was not touched. It is understood that Rhett was the challenging party. They fought with double-barreled shot guns, loaded with ball, at a distance of forty paces.

CINCINNATI, July 1.—At Des Moines, Iowa, Saturday, Nelson York shot and instantly killed Jackson Jones, who, he alleges, outraged his wife, Mrs. York.

ST. LOUIS, July 1.—Three cholera deaths were reported yesterday. It was traced to impure well water and imprudence in diet.

BROOKLYN, July 1.—A special states that the examining committee of Plymouth Church have received from F. West, the charge of slandering against Henry B. Bowen, and his expulsion is called for. It is charged that he has circulated false slanders against Beecher, and at the latter's request.

WASHINGTON, July 1.—The delegates from Southern cities to the Young Men's Christian Association at Poughkeepsie, on July 9, can obtain excursion tickets from Washington to New York and return at reduced rates, by calling at the rooms of the Association at Washington.

The Secretary of War, while expressing a high opinion of General Howard's personal honesty, says he was surrounded by bad men, against whom he was cautioned, and must be held responsible. It is stated that only the Buell papers are missing from the War Department.

Appropriations for the next fiscal year become available to-morrow, for the current expenses. Creditors of the government for the past, must look to the deficiency bill for payment.

The President issued his proclamation to-day, confirming the Treaty of Washington with Great Britain, as regards the fisheries and reciprocal arrangements, whereby goods may be carried under seal through either dominion, from one port to another without payment of duty.

Of the twelve hundred claims allowed by the Southern Claims Commission, and to pay which Congress at the last session appropriated $78,933, all have been paid by the Treasury Department except six. These are as follows: Two from Virginia for $2,377 and $1,836 three from Tennessee, for $726, $150 and $153; and one from Georgia, for $450. A great majority of the claims paid varied in amount from one hundred to five hundred dollars though there was one which amounted to $56,000.

BAYONNE, July 1.—Four thousand men of the Province of Biscay have declared against the Republican government, and in favor of the Carlists. The insurgents appointed officers for the Province and municipalities from among their own number, in the interest of the Carlist movement.

MADRID, June 30.—The Leutia, today publishes the government decree, instituting that a medal in commemoration of the Cuban war is to be bestowed upon such officers and soldiers of the Spanish army as distinguished themselves in the suppression of the rebellion.

LOTS AND HOUSES

in the city of Dallas.

We invite land buyers to call and examine our register. Lands in our hands are FOR SALE. When a man puts his property in the hands of an agent, he means "business," and does not put a "fancy price" on his land to scare away purchasers.

Persons having land for sale will find it to their interest to call and register their lands at once. We charge nothing for registering or advertising, and only a small commission when a sale is effected.

If you want to sell your land to the immigrants to this country, you must place them in the hands of Agents on the line of travel. Our office being in the city of Dallas, which has now become the center of commerce and travel for the North in Northwestern Texas. We have superior facilities for selling lands, which we have greatly increased by liberal advertising, and we can insure satisfaction to all who place property in our hands.

We buy and sell on commission, Land Certificates. This branch of our business we make a specialty. We are members of the

TEXAS LAND LOCATING COMPANY,

and will locate Certificates for one-sixth interest in the land.

SAINT LOUIS

ROUTE EASTWARD.

The completion of the Missouri, Kansas & Texas Railway from the North to Denison, Texas, has opened up two first-class, all-rail Routes to St. Louis and the East. *St. Louis*, 264 miles from St. Louis, the trains of this "Pioneer line from the North" connect with trains of that new and splendidly built line, the Atlantic & Pacific Railroad, and *at Sedalia*, 186 miles from St. Louis, they connect with the popular Missouri Pacific Railroad. Either Route is a good one—thoroughly equipped with all modern improvements—and lands its passengers in St. Louis, the Metropolis of the Great West, in time to connect with *closed through* routes to the North, South and East.

THE ST. LOUIS ROUTE

is destined to become the popular one to all points East. Passengers have a free choice of routes over the Missouri, Kansas & Texas Railway: *Via Fiatts* and the Atlantic & Pacific Railroad, or *via Sedalia* and the Missouri Pacific Railroad. PUBLIC LIBRARY OF KENTUCKY

CAPITAL PRIZE, $100,000

Drawing to Take Place on July 8th

THE THIRD DRAWING OF THE GIFT CONCERT, in aid of the Public library of Kentucky, will come off POSITIVELY, on the 8th of July, 1873. Governor Bramlette, the manager, has assured the Public that it shall take place at that time, and with the hearty concurrence of the Trustees, has declared that the prizes shall not be "scaled" in any degree, but shall be paid in full. Mr. Yeoch, the cashier of the Farmers' and Drovers' Bank of Louisville, has publicly in a certificate, over his own signature, that the library now has on deposit in his bank the sum of $550,000. The $500,000 then, offered in prizes, will be paid in full, with no deduction; whole tickets to cost $10, and the holder of the lucky number which shall draw the capital prize will receive $100,000, the next number $50,000, the next $25,000, etc., all the 1,000 prizes through. It will be remembered that at the last drawing the prizes were sealed one fourth, and the holder of the ticket which drew the capital prize received $75,000. The sale of tickets for this drawing has been so far unexampled, and it needs to assume that at least 60,000, if not more, will be sold. Tickets are sold at the rate of $10 for whole tickets, $5 for halves, $2 for quarters. The enterprise is one of which these gift concerts are held in a magnificent city. The Trustees have purchased Weissinger Hall, an immense building on one of the most populous thoroughfares of Louisville, at a cost of $110,000. This superb edifice has a front of 168 feet and contains a theater, library of 40,000 or 50,000 volumes (which number the Trustees are constantly increasing), and museum. It should be remembered that the prizes which are "Revel are CASH; and the holders of lucky numbers are not required to receive the proceeds of their tickets in real estate of doubtful value, or any property which may be a drug upon the market, but are paid in greenbacks. 8ewtj8

BEWARE OF COUNTERFEITS.

Job Moses' SIR JAS. CLARKE'S FEMALE PILLS

Are extensively counterfeited. Dishonest druggists endeavor to sell the counterfeits to gain greater profits. The genuine have the name of Job Moses on each package. All others are worthless imitations. The genuine pills are notable in the cure of all those painful and dangerous diseases to which the female constitution is subject. They moderate all excessive and cure all suppression of the menses, when caused by cold, inflammation or disease. In all cases of nervous and Spinal affections, pains in the back or limbs, fatigue on slight exertion, palpitation of the heart, hysterics and whites, they will effect a cure when all other means have failed, and although very powerful, contain nothing hurtful to the most delicate constitution.

Circulars in English, German and French around each bottle gives full directions and advice.

The genuine pills are sold at most drug stores, but if your druggist can not supply you, do not be persuaded to accept any counterfeit or bogus article, but send one dollar to the sole proprietor, Job Moses, 16 Cortlandt street, New York, with name of express office at which you will call for the package, and a bottle of the genuine pills, securely and safely packed in plain wrapper, will be sent by return express.

IT Leads to Happiness!

FEMALE REGULATOR!

It will bring on the Menses; relieve all pain at the monthly "Period;" cure Rheumatism and Neuralgia of back and Uterus; Leucorrhœa or "Whites," and partial Prolapsus Uteri; check excessive flow, and correct all irregularities peculiar to ladies.

It will remove all irritation of kidneys and bladder; relieve Costiveness; purify the blood; give tone and strength to the whole system; clear the skin, imparting a rosy hue to the cheek, and cheerfulness to the mind.

It has saved a score in all the above diseases as Quinine is in chills and fever.

Ladies can cure themselves of all the above diseases without revealing their complaints to any person, which is always mortifying to their pride and modesty.

It is recommended by the best physicians and be clergy.

LAGRANGE, GA., March 23, 1870

BRADFIELD & Co., Atlanta, Ga.—Dear Sirs:—I take pleasure in stating that I have used for it at least twenty years, the medicine you are now putting up, known as Dr. J. Bradfield's Female Regulator, and consider it the best combination ever gotten together for the diseases for which it is recommended. I have been familiar with the prescription both as a practitioner of medicine and in domestic practice, and I can honestly say that I consider it a boon to suffering females, and can but hope that every lady reader whom it may be suffering in any way peculiar to their sex, may be able to procure a bottle, that their sufferings may not only be relieved, but that they may be restored to health and strength. With my kindest regards,

I am respectfully, W. B. FERRELL, M. D.

FORT MARIETTA, GA., March 21, 1870

Messrs. WM. ROOT & SON.—Dear Sirs: Some months ago I bought a bottle of Bradfield's Female Regulator from you, and have used it in my family with the utmost satisfaction, and have recommended it to three other families, and they have found it just what it is recommended. The females who have used your Regulator are in perfect health, and are able to attend to their household duties, and most cordially recommend it to the public.

Yours respectfully, Rev. H. B. JOHNSON.

We could add a thousand other certificates, but we consider the above amply sufficient proof of its virtue. All we ask is a trial.

For full certificates, history of diseases, and receipts of the wonderful cures, can receive a colored copy of the wrapper around the bottle.
