MONEY AND TRADE.

DALLAS WEEKLY MARKET REVIEW.

Cotton Rallies a Little in Tone, but Not in Price—Meats Easier but Not Lower—Grain Rules Steady—Flour Easy and Quiet—Country Produce Irregular—Notes and Tendencies.

DALLAS, TUESDAY AFTERNOON, March 22, 1881.

Trade has languished and dragged more or less for the week closing this afternoon. It is not hard to tell the causes. There was a rush after winter broke up and every one got well stocked is one of them. Another is the low price and unsatisfactory situation of the cotton market. A third, it has been a week between seasons. Busy times in the country has had a great deal to do with the dullness in traffic. People go abroad to spend money. They are economical at home.

Another thing, and a very important one, the whirligig of commerce has worked around until everything we have for sale is low in price, and almost everything we have to buy is high, many articles even higher than at this time last year. Thus we find bacon 10 cents and cotton 5 to 8 for the grades we have left and are now selling, there being no middling and above. Flour $5.15 per hundred and corn only 35 cents per bushel. We have to pay 50 and 60 cents per hundred for corn when we buy, and when we sell can only get 25 and 30, and oats run the same way. Sugars and coffees are as high as a year ago but our housewives can get only nominal prices for many articles they have for sale. The day we ran out of horses and mules of our own raising and began to buy abroad they about doubled in value. And so attention might be called to all manner of farm and plantation machinery, and to other articles which enter into our necessaries. We fight this condition of affairs by refusing to buy, and this makes commerce languish.

The Course of Cotton.

The figures have not lowered in this market in a week. They have remained about the same. But there has been more confidence, a better demand and more buyers. Comparatively little has changed hands. Liverpool has been in improved tone, that is it has not fallen any and has made one or two efforts to go up, which were not permanent. There has been the usual amount of gambling in New York, and with about the usual fluctuations. The most that can be said is the spot markets of the world have not declined during the week. The receipts in gross are still over 400,000 in excess of this time last year.

The situation of the markets to-day is steady. There is a good demand in Dallas, with light offerings. The cotton here was bought before the fall, and is held for a rise. We quote:

Money and Securities.

Financial affairs continue in a very healthy condition. Large sums of money are held by banks on their own and the account of capitalists for profitable investment. But as they reject promisory notes, refuse real estate, and there are no stocks and bonds held by the people, it is just a trifle difficult to determine the mission of a bank in Texas, after the close of the cotton season especially. "Desirable loans are few, scarce, and far between," remarked a banker to-day. It is even so, and the reason it is so is you cannot borrow fifty dollars upon six blocks of houses in the heart of the city, and the reason for that is there is little trouble stretching a homestead over a whole Texas county. This, of course, is a little strong, but it serves to illustrate the way of loans and credits these days. It is suggested that the whole matter should be simplified by the legislature passing an act as follows: "All laws for the collection of debts in Texas are hereby abolished."

Labor and Wages.

Farmers say they are for the present very well supplied with farm labor. The price paid for number one field hands, is $15 per month and board. From that it descends in proportion to physical ability. In the city, carpenters receive from $2 to $2 25 per day; brickmasons $3 to $3 50; stone-masons and cutters $5; common laborers $1 50 to $2 per day. There is just now no lack of mechanics of al kinds. Contractors find little difficulty in getting the services of all they want. But the railroads are generally scantily supplied, their work being of the hardest character.

The General Markets.

Meats have ruled easy, with the demand very moderate. Short clear bacon sides have brought 10 cents salt along, and dry salt do. 9½. Stocks full, with western advices not favorable for an early advance.

Lard has advanced to 12 cents for tierce western. It is buoyant. Texas is still held at 10 cents in fifty pound cans.

Live hogs in small demand at 3¾ for choice butcher's.

Beef cattle on foot 2¾ to 3¼ cents per pound.

Corn is in improved demand. Arrangements are now made and there is a margin for shipping. Sound of all colors is bringing 30 cents per bushel for loose shack and ear. Damaged stock 25 to 27½ cents.

Oats are in good demand at 35 to 35 cents for loose mediums, with fancy lots some higher.

There was a sale of 700 bushel of wheat this morning at 70c., It classed medium.

Bran is lower. Wholesale 60 to 70c. Retails at $1 per hundred.

Hill seed 75 to 80c loose in lots. Sacked and in small quantities 90c to $1 per bushel.

Coffee is still firm, though the expected rise has not taken place. Stocks ample with demand good.

Sugars, syrups and molases are still conservative, in fair trade and ample stock.

Trade in general shelf goods has been very slow. The same old values still prevail among them.

The hide market has moved along quietly with dry flints still fetching 13 to 13½ cents.

Wool is dreopy. It would be difficult to get over 20 cents in this market for the best unwashed, uncombed.

Potatoes are active at $1 35 to $1 40 per bushel sacked. Apples $4 to $4 50 per barrel. Oranges and lemons $4 50 per box. Seed sweet potatoes $1 to $1 25 per bushel.

Texas butter 20 to 23, oleomargerine 20 cents.

We quote eggs firm at fully 15 cents. Several lots held to-day at 17½ and 20.

Poultry in limited supply at 20 to 25 cents for chickens. No ducks or turkeys offering.

Lumber and Building Material.

Lumber is scarce and the yards are hard run to meet the demand. Prices range from $17 50 for weather boarding per thousand feet to $25 for flooring.

Brick at and the run of the kiln $10 per thousand.

Stone at the quarry 5 cents, laid in wall; rough 16 cents, dressed front 25 cents per cubic foot.

The Permanent Cure of Catarrh

THIRTEEN YEARS AGO

CATARRH was considered an incurable disease. I had then suffered for eighteen years. I was first attacked by a slight cold, followed by deafness and ringing in the ears, soreness of the throat, disgusting nasal discharges, weak, inflamed eyes, hawking, rising of vile matter, black or sometimes bloody mucus, coughing, with great soreness of the lungs. The liver and stomach were polluted with the diseased matter running from the head. Compelled to resign my pastorate, I compounded my **CATARRH SPECIFIC,** and cured myself. Now at the age of sixty-seven, I can speak for hours with no difficulty, and never have had in the whole thirteeen years the slightest return of the disease.

REV. T. P. CHILDS.

TO CATARRH SUFFERERS:

60.000 Catarrhal cases have applied to me for relief. Many thousands have received my Specific and are cured. We deem it only fair that every one that wishes should have the opportunity to ascertain whether we are able to accomplish all that we claim, and for this purpose we add a few of the many hundreds of addresses of those who have been successfully treated, almost any of whom will doubtless respond to any inquiry by letter, if accompanied by a stamp to pay postage. We have thousands of these certificates from all classes—physicians, clergymen, judges, merchants, bankers and business men.

THE BEST OF ALL

LINIMENTS

FOR MAN AND BEAST.

For more than a third of a century the **Mexican Mustang Liniment** has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—**the best of its kind.** For every form of external pain the

MEXICAN

Mustang Liniment is without an equal.

It penetrates flesh and muscle to the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

MUSTANG

Liniment is needed by somebody in every house. Every day brings news of **the agony of an awful scald or burn** subdued, of **rheumatic martyrs** restored, or a **valuable horse or ox saved** by the healing power of this.

LINIMENT

which speedily cures such ailments of the HUMAN FLESH as

Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.

For the BRUTE CREATION it cures

Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.

The **Mexican Mustang Liniment** always cures and never disappoints; and it is, positively,
