WASHINGTON'S LIBRARY

We learn from credible authority that the Washington Library has been recently purchased by Henry Stevens Jr. Esq. of Vermont, who has for the last two or three years been rambling among the famous old libraries of Europe. The collection comprises, we hear, about ten thousand volumes and pamphlets, many few and of which have been the staples of Washington on the title pages, and many others have the autographs and presentation notes of authors. We doubt not the collection is rich in the military and agricultural books which were bequeathed to the "Sage of Mount Vernon" and that there must also be in every many trade relating to the American Revolution as well as in the remarkable and all upon of the Federal Constitution.

We are unacquainted with the disposition Mr. Stevens intends to make of these sacred relics of the Father of his country, but we are sure that no one knows better how to appreciate their value than himself. Under a feeling that he will not on any condition, allow the Library to be broken up and separated, we prophesy that he intends it for some European Library—perhaps the British Museum which he has enthusiastically aided in obtaining the most perfect collection of American History and Literature in the world.—[Albany

Death of a Soldier.—We have seen a letter from Mr. Gray of Mexico, written by surgeon Dunning to Thomas Tod Esq. giving information that Lyman F. Butler who enlisted at Waterville in December last, after fighting gallantly at Cerro Gordo died on Tuesday on the 18th of September last. He was known to be friendly to order. Mr. Tod Esq., who knew him thinks that he was from Vermont.

Cal Sentry arrived at N. Orleans March 30 on her way to the city of Mexico. He will leave this afternoon or to-morrow, in the U. S. steamship New Orleans.—[N O Pic, April 3.

☞ The number of persons wounded in France in the three days of February, and received at the hospitals, amount to 625, of which 521 were men and 18 women. Of these 86 died 255 still remain in the hospital.

Changes in the Cabinet.—A letter from Washington to the Boston Journal says—"I predict that Secretary Marcy will go minister to Russia, and that Gen. Franklin Pierce of New Hampshire, will succeed him in the War Department, so that as soon these changes take place, Mr. Cushing now Solicitor of the Treasury, will be appointed Attorney General."

The Fairness of the Press in Austria is a great concession to the people. Every article here after published has had first to be submitted to the inspection of the government, and imprisonment was sure to follow any publication indicating liberal sentiments. The Emperor's fears were particularly roused against American newspapers, and lest the contagion of a Republic should spread to his own dominions, he prohibited all newspapers from the United States under severe penalties. They were not allowed to be sent through any of the post offices of Austria or its dependencies. The Emperor had been forced to cede the freedom of the press, and now these restrictions will doubtless, be resumed.

The Railroad.—The engineers we understand commence laying the rails between Troy and this town. The distance nine miles. The expectation is that the road will be opened previous to the annual meeting in May.—*Keene Sentinel*

All Over.—The James H. Hooker, Steamer, did her business, pushing her way through the ice, and arrived at our dock this morning from Whitehall. She proceeded on her way to St Johns. Capt. Chapman with the Sarsenet has gone to Whitehall.—*Burlington Free Press* 14th

A Swimming in the Blood, like every other unhealthy motion of the blood, is owing to corrupt and stagnant humors which, when floating in the general mass of the circulation, are the cause of headache, giddiness, pain in the heart, and many other uneasy sensations, and when the same agents the various parts of the body, are the cause of every malady to which man is heir. Wright's Indian Vegetable Pills are always certain to remove headache, giddiness, and every complaint, because they completely rid the body of all morbid humors, and every thing that is impure and noxious.

Wright's Indian Vegetable Pills also act and regulate digestion, and therefore give health and vigor to the whole frame, as well as diseases of every kind from the body.
