Gen. Taylor's Letter

Accepting the Nomination of the Philadelphia Convention for President of the United States.

"PAON Rotor July 13th, 1848

"Hon. Jno. Sherman and others, Committee, N. Y.

"Gent.—I had the honor to receive your communication of June 29th, announcing that the Whig Convention which assembled in Philadelphia on the 7th of that month, had unanimously nominated me for the office of President of the U. S.

"Looking to the composition of the Convention and its numerous and patriotic constituents, I feel duly grateful for the honor bestowed upon me, and the disinterested and kind motives which have given to the Whigs of the Union a right to my services in the most exalted station among my fellow citizens, and which has been unanimously by the greatest names in our country. But should the selection of the Whig Convention be confirmed by the people, I shall endeavor to discharge the new duties devolving upon me so as to meet the expectations of my fellow citizens, and promote, unmolested, the prosperity and reputation of our common country, and I trust the people will come to a fair and impartial decision.

"Your obedt. servant,

Z. TAYLOR

IMPORTANT FROM MEXICO!—REVOLUTION EXPECTED!—PARRIDES! SUCCESSFUL!

Mexican dates to the 14th inst. have been received. Bustamente with 4,000 men defeated Paredes near Guanajuato on the 21st inst. Neither party was defeated in the battle.—Paredes lost 27 killed and 60 wounded.—Bustamente lost 5 killed and 23 wounded.

Bustamente retreated but would follow Paredes shortly. There were secreted Jarauses conformed, also the desertion of 40 American soldiers. The troops have all embarked except the marines. The [illegible] were marching upon Queretaro. Vera Cruz was quiet. Bustamente has been totally defeated with severe loss on both sides.

CONCORD RAILROAD.—We had occasion one week to pass along the line of this road from the town and Bellows Falls. The work at the difficult points is in such a state of forwardness that there is but little doubt that the road will be open in running order as early as December next. The great work on the summit will be finished in two weeks. At Bellows Falls the road bed is nearly graded along Bell mountain, and the workmen are now laying the bridge over the bridge crossing the Connecticut at the foot of the Bellows road. A depot is to be built on the New Hampshire side, at the junction of the Cheshire and Sullivan roads, at the point where the [illegible] is opened.

Not Bad.—A certain shrewd Democrat says the only thing which renders treason in this state at all questionable, is the murderous attempts of a few discontented democrats to run a third ticket with Mr. Cass as the candidate.—[Rochester American.

Saratoga Springs.—The Season at Saratoga Springs, though late promises to be a brilliant one. A vast number of visitors are now at the Springs. At the United States Hotel 500 guests were dined on Sunday. The Congress and other Hotels are full. Those who have been there intimate that nothing in the wide world is more beautiful than the grounds connected with the United States Hotel. And in the way of beverage, the Congress will be matched in vain. Cooling at once healthful and delicious as the "Nectar of the Congress Springs."—[Albany Eve. Journal.

TEXAS.—According to the Houston Telegraph, in consequence of the high prices of grain and cotton, the farmers of Western Texas are turning their attention to the rearing of sheep. "thousands of Mexican sheep," says the Telegraph, "have recently been driven into our western settlements from the Rio Grande, and several large flocks have been brought to the counties along the Brazos." It is estimated that more than 200 sheep have been driven into Texas this years. The average increase of sheep is at least seven to one in a period of five years.

The same paper says: "We are happy to learn that the ground corn and cotton in the Western Counties are generally excellent, and that a larger quantity of land will be raised than ever before since the Revolution."

HOW IS CONGRESS ON A GUN.—The Troy N. Y. Budget states that on Friday last two burglars effected an entrance into the house of ex-Sheriff Barton, in Lansingburgh. The family were absent, with the exception of an Irish girl, who first discovered one of the burglars as he was coming down stairs loaded with plunder. She seized him and a sharp conflict ensued, which was terminated by the other burglar, who, fearing the danger of his companion, fired a pistol ball at a blow on the backer and fled. Mrs. Barton came home at a short time, and the burglars decamped, without taking away any plunder. The girl was much injured from the wounds and bade fair to recover.
