LATER FROM EUROPE.

Progress of Peace.

NEW YORK, Aug. 7.

The steamship Baltic, from Liverpool, with 167 passengers, arrived at 12 o'clock, having been obliged to decline a large quantity of freight.

The ship I. Z.—from New York to Liverpool, was found at sea July 7, lat. 44, lon. 62. Captain French and all hands were saved by the ship Florence, and arrived at Liverpool. The ship Robert Kelly also went to her assistance. The cause of the fire was spontaneous combustion.

The Turkish difficulty is considered as settled; although the Czar's acceptance of the proposal is not announced, his assent is daily expected, and until received nothing definite can be known.

It is rumored at Constantinople, that the United States are negotiating to purchase the port of Mamoretza.

CHINA.—The Indus mail has arrived at Trieste, with dates from Hong Kong to June 7th, Calcutta 16th, and Bombay 20th.

The Empire of China is divided, and Nankin is independent of the Tartar dynasty. Great anxiety prevailed at Canton, and fears were entertained of a rising.

AUSTRIA AND THE UNITED STATES.—Vienna, July 22.—The misunderstanding between the Austrian government and that of the United States, is likely to be a serious one. On the 5th the Italian and Austrian refugees in Constantinople gave Mr Marsh a serenade, and the American diplomatists came out on his balcony and gave a cheer for the freedom of the United States, Italy and Hungary.

The St. Louis had left Smyrna. Two Austrian frigates had arrived.

THE VERY LATEST FROM TURKEY.—PARIS, July 23.—A private telegraph despatch has been received from Berlin, dated this morning, which states that an Austrian Cabinet courier left Vienna for St. Petersburgh, with an important communication addressed by the Porte to the Russian government. They were to the effect that Turkey would yield on the principle of the Russian demands, but their form should be changed, and that the Porte, being unwilling to take a useless step, desired to know previously whether Russia was disposed to accept the project of arrangement, and if so, that the Turkish Ambassador would be sent to St. Petersburgh.

NEW YORK, Aug. 8.

A terrible riot occurred yesterday on board a steamboat in the North River, among a party of men and women returning from an excursion. Several persons were badly beaten, cut and stabbed. One man was thrown overboard.

A letter received by the Baltic says the claim of Dr. King at Athens, has been settled by the payment of 10,000 drachms, for his land for the public use. His religious gifts were not recognised as entitled to redress.

A writer in the Washington *Republic* says, that an improved plan of Railroad is in progress, and will soon be announced, which will secure a passenger from injury, and accomplish the most ardent wish for speed without danger of running off the rail, or coming in collision with an opposing train; a plan of Railroad that will enable the passenger of the mail to reach the Pacific Ocean in as many minutes as there are miles to overcome.

COMMODORE VANDERBILT has been offered a large price for his yacht, at St. Petersburg. But "money cannot buy her" just now. She is on a genuine Staten Island pleasure trip, and can't be called off. We have it from a reliable source, that very liberal offers have been made by the Emperor to induce the Commodore to build him three or four steamers; but he has respectfully declined every temptation of the sort, averring that he is merely on a pleasure trip, with his family, and is not by any means looking up a job from any body. There is a real dignity in this conduct of the Commodore, comporting well with his character as one of the American sovereigns on a visit of pleasure to some of his regal cousins.—[Staten Islander.

PRETTY LOUD TALK.—Mr Cooley, a democratic Senator from the city of New York, while making a speech in the Senate a few days since, had reference to the Albany Atlas, inter alia, remarked as follows: "I despise the whole concern, and trample the *lying sheet* under my feet—emblematical of the manner in which I regard the *lying, drunken, ragabund scoundrels who edit it.*"

WHIG "EXTRAVAGANCES."—It appears that there was some *twenty-three millions surplus* in the treasury on the 1st of July. This is the prosperous condition a whig administration leaves the country in, yet we everlastingly hear democracy pelting over whig extravagance about election times, and telling the dear people that the whigs are not fit to be entrusted with the public money. When did even a democratic administration leave a surplus in the treasury? On the other hand, they have always left exhausted coffers and an accumulated debt. Already the organs of the party are setting to work to devise some plan to spend the surplus left by the whigs. As the *ostensible* means of making way with it, some of them proposed to plunge the country headlong into another war. The people need give themselves no concern about the disposition of this surplus. A democratic administration can spend it.—[Richmond Whig.

SEARCH AFTER FRANKLIN.—Lieut. Beltut has expressed his conviction that something will soon be heard of Franklin's missing expedition, and that the Phoenix may probably be expected back as early as November.—[English Paper, July 18th.

COMMERCIAL AND FINANCIAL.

[Reported for the Herald.]

In New York the money market is reported to be in a very active state, with plenty of money on call at moderate rates. The depression noticed last week proved to be only temporary.

We report no new prices of Wool, as there have been no large sales; but prices will probably advance.

ENTIRE SUCCESS.—No instance is yet known in which Moses's Compound Syrup of Yellow Dock Root has failed to benefit in only time who have made a fair trial of it as recommended. It is believed that this cannot be said in truth of any other patent medicine. Hence the superior value of this medicine above all others. Who that is afflicted will not try it? For sale by C. BURT & SON.

From the International Journal.

ONE OF THE BEST remedies for coughs, colds, asthma, consumption, and other kindred complaints, at present before the public, is Devine's Compound Pitch Lozenge. The proprietors are that wise would seem to offer an inferior preparation to the affected. We have tested their invaluable Pitch Lozenge ourselves, and we unhesitatingly recommend it to our friends. It can be obtained at the principal drug stores

"I DIGEST!" Such is the true meaning of the word "Pepsin," of of the two Greek words from which it is derived. This is the significant and appropriate title of the True Digestive Fluid, or Gastric Juice, prepared by Dr. A. S. Hoffman, of Philadelphia, from the fourth stomach of the ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders good eating perfectly consistent with health. See figure of the Ox, in another part of this paper. 19-1y

CONSUMPTION.

Consumption is very little known, is a flattering disease. It commences and progresses so insidiously, that before one is aware of it, the lungs are a mass of ulcers, then a sudden exposure or change from heat to cold, produces an inflammation, and in a few days or weeks, it is said, he or she died of hasty Consumption. For all troubled with cough or lung complaint, we would refer to the advertisement in the outside of this paper of Wistar's Compound Extract of "Cherry and Tarsapsin," which is said to be a certain cure for this awful disease.

PURIFIES THE BLOOD.

Nearly all troublesome ailments which afflict the system, are the result of impurities of the blood. Man, with blood coursing through his veins, is a healthy man; without it, he is a prey to all kinds of disease. At all times of the blood, nothing yet discovered equals the Rock Rose. Hear what E. N. Thompson, Esq., of New Haven, Ct., says: "I have used in my family Hayes's celebrated Compound of Rock Rose, and find it a very valuable medicine for all blood diseases. The most so of any I ever used, and so far as I can learn, it has given general satisfaction. I would recommend it cheerfully, as being a most invaluable remedy for the diseases it professes to cure."
