Burwort of Clarenceville. He was asked if he was the man whose name was signed to the note, and replied he was. He was informed if he would wait until the next day they would then let him know whether he could have it or not. They then sent a man to the notary at Henryville to know if Mr. Derick was good for the amount, and was informed he was good for five times the amount. The next day the man went to the bank and got the money. A few days ago Squire Derick and the endorsers were informed the note was due and payment requested. As this was the first they had heard of the affair, they at once went to the bank and denied ever presenting or endorsing such a note. Mr Derick was requested to write his name, which he did. Upon comparing the two the bank was satisfied they had been duped. The man who drew the money is represented as a short thick man with sandy whiskers.

A MIDDLEBURY MAN ROBBED AT TROY.—On Friday one A. K. Carr of Middlebury, Vt., says the Troy *Press* came to that city with about $75 in his possession, apparently to have a "time." Sunday morning he put $58 in an old pocket book and placed it in his inside pocket in his vest for safe keeping. He then got gloriously drunk on about $15 in loose change. He finally found himself in a saloon on Federal street kept by Nat Wood. While in there, according to his own story, a crowd got around him and he soon felt a hand on his pocketbook, and another had hold of his watch. In less than no time he lost both of them, and was pushed out into the street. He was followed by a man named Shaughnessy, who was quite as much under the influence of liquor as Carr. The latter was hardly able to stand, and Shaughnessy stood him up against a building and searched all of his pockets, but found nothing. Two men had some words inside and came to blows. Shaughnessy and Carr walked down the street, and Officer Murray of station 2 and Walsh of station 3 took the two to the station house and locked them up. Carr did not have a cent and Shaughnessy had only sixteen cents. The latter says that Carr asked him to drink and then did not pay for it. He says he was so drunk that he does not know what transpired in the saloon. The operation of robbing the man while standing against the building was witnessed by the driver of the Rankea steamer and several others. Shaughnessy is represented as a hard citizen.

Shaughnessy was arraigned in court Monday and pleaded not guilty to the charge of larceny from the person. His counsel said that all of Carr's money was at the Union House where he left it. Only $12 of his money is there and he took away with him over $35. He left the balance there to be taken care of. Carr was held as a witness and the case was to be examined on Tuesday.

The Canadian Judiciary.

A numerously attended meeting of the Bar was held in the Court-house in Quebec on Friday, to take into consideration the means of bringing the present condition of the Court of Queen's Bench under the notice of the Minister of Justice. The following resolution was unanimously adopted:

Resolved, That the administration of justice in the Court of Queen's Bench has been of late years inefficient and such as to destroy the confidence which it as the highest tribunal of the country should enjoy, and that the bar of the district of Quebec is of the opinion that a speedy reorganization is absolutely necessary for the protection of suitors and disposal of causes pending before the Court.

A copy of the resolution is to be transmitted to the Minister of Justice at Ottawa and to the Attorney-General of the Province of Quebec.

A SAD CASE.—Patrick O'Neal and Frank Miller, two of the crew of the school Tubal Cain of Gloucester, who left the vessel to visit their trawls on October 14, and disappeared in the fog and were supposed to have perished, have been heard from at London. The men were six days and nights in the boat without anything to eat or drink, except a little rain on one occasion which soaked their clothing and gave them relief. On the seventh morning they were picked up nearly dead from exhaustion by a Norwegian brig bound for London, and kindly cared for. No tidings have yet come to hand of the two men, Geo. Cook and Jesse Oliver, belonging to the same vessel, who nobly risked their lives to go in search of these, their companions, but never returned.

BOSTON BOOT AND SHOE MARKET.—Since the date of our last report the boot and shoe business has taken quite a favorable turn, but we cannot yet chronicle an active market, although the various signs tend that way. There are some few buyers around, chiefly prospecting, however, but still a good many orders have been given for light goods, and also a few for plough shoes, but no general movement has taken place, or, indeed, is considered likely to, until after the advent of the new year. The tone of the correspondence of our southern and western customers shows that dealers in those sections are looking for concessions in prices in this market but from careful observation we should say that they will look in vain. There has certainly been a temporary falling off in the price of serge goods, but as soon as the market becomes more animated they will recover, undoubtedly from the fact that most raw materials are advancing—gold, cotton, hides, pork, &c,—and labor, certainly, will not remain long underpaid; indeed, there are already rumors afloat of strikes in contemplation in the spring. From all indications we argue that last fall's prices will prevail, and that no falling off from that standard will take place. Jobbers out west are engaged just now in making collections. The panic, it appears, alarmed them, and they sold but little on credit, and this cautious policy prevented them placing as large orders here as usual, so the prospective outlook on that account is so much the more favorable in this department. Our own jobbers are very conservative also. They are not making many sales, but are watching the market. The New England trade is comparatively quiet, and is likely to continue so for the remainder of the year. The approach of the Christmas holidays promises, as usual, a fair field to the city retail trade, and they are making the most of it.—*Shoe and Leather Record.*

CONCERNING BANDS.—In answer to an item in our last issue to the effect that Wildman's Band was without a leader, Mr. Wildman writes that he has not abandoned the field, that he is determined to have a good band here, and hints at reorganization, and continued success. We don't know how the dreadful error occurred, and are very sorry it did occur, but we don't want the band to feel that because we put up a new office, and filled every corner of it so the band has no chance to rehearse under it, nor over it, nor up against it, that we have any feeling against the band. We moved from the other building because we were cramped for room; there and not because we wanted to get away from the band. Neither did we move from the Palquioque block to get away from the band. If we did we slipped up mightily on it, because the band followed right after us. We wish it to be understood here in Danbury, and also in Europe and Asia Minor that if there is any one thing above another thing which we desire in this life, it is a genuine brass band with three torch boys about it and a hemlock platform under it. We hope to keep a brass band with us as long as we live, and when we die we want one on our tombstone.—*Danbury News.*
