Plastetic Installation.

[illegible] there was a public installation of officers of Franklin lodge, [illegible] held in Benedict block, [illegible] were witnessed by a large [illegible] and invited guests, including [illegible] officers of Dolge. After [illegible] Brown, the following officers were installed by Past Master [illegible]

[illegible] Master, S. W. [illegible] Brim, P. [illegible] Secretary, [illegible] Treasurer, [illegible] Deacons, [illegible] Bryant, [illegible] Stewards, H. Bryant, [illegible] Marshal, Alvin Tyler, [illegible]

[illegible] Master H. H. [illegible] was carried to a [illegible] the objects of the [illegible] contained instructive counsel [illegible] officers of the fraternity [illegible] that want of space [illegible] more than an impromptu [illegible]

In the [illegible] he would, the only hope of [illegible] in the advancement of Masonry [illegible] of the mystic [illegible] but never evils. [illegible] and unfortunate [illegible] was held [illegible] and honest [illegible] institution to preserve [illegible] barbarism; their [illegible] if no power was [illegible] It is on the first the institution [illegible] human hands with educational [illegible] and equal rights; it has been received [illegible] and princes as worthy of [illegible] and the progress has not [illegible] political methods, but by [illegible] exercised virtues and brotherly [illegible] He reviewed the principles of [illegible] and concluded that the whole [illegible] tendency for the influences thus exerted [illegible] heart, its grand object being to inculcate virtue and repress vice. [illegible] is not a religion, and no one claims [illegible] substitute of religion; but it teaches [illegible] to perform their moral and civil [illegible] It does not militate against the [illegible] though its existence is anterior to [illegible] the new dispensation. The institution [illegible] a permanent and reliable foundation [illegible] which religious character can [illegible] though it will not save our [illegible] are not human and [illegible] the principles and [illegible] which has survived [illegible] do and must continue [illegible] some influence upon [illegible] Is regard to the [illegible] that free masonry [illegible] bound up within itself [illegible] on the principle that [illegible] was but natural [illegible] Race, creeds and others [illegible] men, should look well to [illegible] but he claimed that the [illegible] of the order were not confined to their own members, but are felt in [illegible] society. The speaker advised [illegible] installed officers of the [illegible] manner; and closed [illegible] observations on the occasion [illegible] and expressing [illegible] strong in the belief of its perpetuity [illegible]

[illegible] the address, the W. [illegible] invited the audience to [illegible] House, to enjoy a [illegible] for the occasion. Soon the [illegible] was occupied by members, [illegible] and other invited guest to the number [illegible] of about one hundred, and all sat down [illegible] supper, served in Mr. Lay[illegible]

After full justice had been done to the [illegible] generously provided, Mr. [illegible] announced Mr. A. G. Safford as [illegible] master. Mr. Safford assumed the [illegible] with some felicitous remarks, and [illegible] Mr. Park Davis to respond to the [illegible] "Grand Lodge." Mr. Davis [illegible] was rather too broad for a [illegible] he would confine himself [illegible] After explaining the par[illegible] of the grand lodge [illegible] ex[illegible] Freeborn, Esq., he said the [illegible] of Vermont was formed in [illegible] lodges; the first convention [illegible] of Manchester, with forty delegates representing three lodges. Subsequently, the grand lodge formed at Rutland contained five lodges represented by [illegible] delegates. These lodges had extended [illegible] Vermont was admitted into [illegible] From this beginning has grown [illegible] present grand lodge of the state. The present number of lodges is ninety-nine, [illegible] membership of about ten thousand, embracing men of all professions, occupations, and religious views. He contended that there could be nothing in the nature of the institution that was hostile to any interest of community, or subversive of any other institution. The universal sentiment among masons was belief in God and in human brotherhood. Free masonry exerted a wonderful and powerful influence on the community, but not one that was in the least inimical to its welfare. He referred to the anti-masonic crusade, extending from 1826 to 1845; and said, that as the masons do not countenance resistance or contention, they bowed their heads in humility until the storm was passed. He believed that masonry was regarded with high favor by the community of to-day. In this connection he paid an eloquent tribute to the courageous conduct of the late Grand Master N. B. Haswell, who, in the anti-masonic campaign, did so much to perpetuate the existence of the grand lodge; and closed with a complimentary allusion to Grand Master Smith's address.

Mr. Safford then called up Grand Master Smith, who responded with some remarks partly facetious, but referring to particular functions of the grand lodge, and the importance of maintaining harmonious relations between that and the subordinate lodges.

Mr. Safford made some observations on the organization of Euclesby lodge, and called on Mr. R. Mellowall, master of that lodge, to respond, who did so briefly. Mr. Safford said that there was several others who were probably "anxious" to speak, and he was grieved to disappoint them, but one more speech must conclude the exercises. He then called up the W. M. of Franklin lodge, Mr. Myers, who spoke briefly and to the point.

The occasion was enlivened with music at intervals by Baker's excellent orchestra; and after the speech-making was concluded nearly all of the young people and many of the older ones repaired to Weeden hall, where they dispersed themselves in the festive dance until a late hour; and so terminated a very pleasant and enjoyable occasion.

THE NEW YORK TRIBUNE.

"THE LEADING AMERICAN NEWSPAPER.

Largest Circulation Among the Best People.

I.—It publishes all the news. The servant of no man and the slave of no party, it can afford to tell the whole truth about it.

II.—It is important and independent. Believing in intelligent suffrage, it aims to furnish voters the fullest and fairest information, to qualify them for the wisest discharge of their responsibilities.

III.—It is, as it always was, essentially republican. It may quarrel in the future as it has done in the past, with errors of republican leaders or exceptions to the republican party; but it can never cease to be true to republican principles, and especially to those principles of civil service reform, hard money, the majority of the National Union, and equal justice to all classes at the South which formed the corner stone of Gen. Hayes's admirable letter of acceptance.

IV.—Its moral tone is pure and elevated—The Daily chess is never polluted by anything which appears in the columns of the *Tribune*.

V.—The educational standard and current literature of the Tribune is unexceptionable, including Correspondence, Poems, Stories and Reviews from the most talented and popular writers.

VI.—It is the best and cheapest Farmer's Paper published. "The *Weekly Tribune* can force farmers to make good farmers than any other influence which ever existed."

VII.—The market reports of *The Tribune* are indispensable to every buyer and seller in the country. Quotations are given daily and weekly of almost every article caught and sold in the markets of the world, and with unvarying and almost infallible accuracy. Prices of Cattle, Butter and Cheese, and other Markets are recognized standard.

VIII.—More copies of *The Tribune* are paid for and read by the American people than of any other newspaper of equal price in the country—a fact which is the best demonstration of the value of the paper.

IX.—The readers of *The Tribune* represent largely the best enterprising and progressive minds of the country. Persons who are interested in pure politics, the advance of science, and the progress of opinion, will find their demands met by the *Tribune*.

X.—Public approval and prosperity have rewarded the independent and self respectful course of *The Tribune*. It has a larger and stronger corps of correct workers among its friends than ever before, and constantly receives from old and new readers words of encouragement.

Centaur Liniments.

They take hold of the disease and the wounded made whole. We now know just what the Centaur Liniments will do. They will not mend broken bones or **cure Cancer**, but they will extract soreness, allay pain, cure Rheumatism and a larger range of flesh, bone and muscle ailments than any article ever before discovered.

Scientific skill cannot go beyond the effects of these remarkable preparations. **Chronic Rheumatism** of many years' standing, Neuralgia, Weak-Back, Overworks, **weeping Sinews**, Schiffica, Contracted Diseases, Distorted Joints and Strained Tendons of the worst kind are cured by the White Centaur Liniment.

It will destroy the pain and **heal without a scar** all ordinary Burns and Scalds. It will extract the poison of Bites and Stings, and the frost from Frozen Limbs. It is very efficacious for Ear-ache, Tooth-ache, Joint and **Cutaneous Eruptions.**

Mr. Josiah Westake, of Marysville, O., writes:

"For years my rheumatism has been so bad that I have been unable to stir from the house. The first three bottles of Centaur Liniment enabled me to walk without my crutches. I am mending rapidly. I think your Liniment simply a marvel."

C. Hillemeyer, Druggist, Ironton, Mo., says:

"Centaur Liniment sells better and gives the best satisfaction of anything in the market."

What the Centaur Liniment has done for others it will do for you. It is handy, it is reliable, and it is cheap.

The Yellow Centaur Liniment is worth its weight in gold to owners of horses and mules.

This Liniment has cured more **Sprained, Sweeny, Ring-bone and Galled Horses** in three years than have all the Farriers in the country in an age. Its effects are simply wonderful.

We have thousands upon thousands of certificates as strong as the following:

"My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure, and I considered him worthless until I commenced to use the Centaur Liniment, which rapidly cured him. I heartily recommend it.

"REV. GEO. W. FRIGHES,
"Maysville, Schoharie Co., N.Y."

"DEAR SIRS—I have used your Centaur Liniment in my family, and find it to be of great value. Please send me two dollars' worth, one for the mules and horses. RILEY SICKLES.
"TALLASSATCHEE, WORTH CO., PA."

It makes very little difference what the case is, whether it be Wrench, Sprain, Poll-Evil, Ringbone, Scratches or Lameness of any kind, the effects are the same. Liverymen, Stage proprietors, Farmers, &c., should never be without the Yellow Centaur Liniment. It sold every where, and warranted in its effects.

Laboratory of J. B. Rose & Co.,
46 Dey St., New York.

Castoria.

It is a mistake to suppose that Castoria is not adapted to grown persons as well as Children. They only need to increase the quantity, for children have as many complaints for which Castoria is adapted—like **Wind Colic**, Sour Stomach, Worms, Tetter, **Teething** and Croup, that it is especially recommended for them.

Its effects are more certain than **Castor Oil**, it contains no alcohol and is as **pleasant to take** as honey. It never gripes. By regulating the stomach and bowels the Castoria **cools the blood**, expels worms and prevents feverishness, quets the nerves and produces healthy sleep. Of course **children can sleep** in quiet and **mothers can rest.**

Castoria is **recommended** by all physicians and nurses who have used it, and it is having a rapidly increasing sale. It is prepared with great care after the recipe of Dr. Samuel Pitcher, of Mass., at the Laboratory of J. B. Rose & Co., 46 Dey Street, New York.

U. S. MAIL!

All Persons at a distance treated by Mail with Perfect Success by describing their Symptoms.

Dr. Townsend showing manner of Inhaling

OXYGENATED AIR!

Send for our large and beautifully illustrated pamphlet, free to any address.

CURES

CATARRH!

WE MAKE A SPECIALTY of treating for this disease by Mail. Please write and describe your symptoms.

Why? because inhalation is the only way that the Air Plants can be reached, and Curative Agents of the Air Passages of the Head. The Treatment is so direct, which is easy and pleasant, and we guarantee a perfect cure of Catarrh.

Bronchitis!

ALL PERSONS THAT read this are invited to send for our large and beautifully illustrated Pamphlet, free to any address.

Why? for the same reason as in Catarrh above. The Remedies all Today are simply palliatives to carry off the Lungs, merely. Inhalation meets the disease at the seat of the disease, and of course is a sure cure.

ASTHMA!

WE GUARANTEE to Cure Coughs, Colds, Bronchitis, Pneumonia, Neuralgia, and nearly all other complaints, with our Oxygenated Air, we will warrant a Cure. We have cured cases of 20 years standing.

CONSUMPTION

DYSPEPSIA WE CURE. Liver and Kidney complaints are effectually reached by oxygenated Air.

Can be cured. We have cured hundreds of cases, almost given over to die by physicians, being given over to die by all physicians of other schools or practice. Consumption is a disease of the Air Passages and over two-thirds of cases are cured by Oxygen. We guarantee a cure if treated in season.

BLOOD DISEASES!

CANCERS AND TUMORS!

Dr. Townsend's Oxygenated Air treatment is the only one that will cure Cancer. It is a well-ascertained fact that Cancer is a disease of the blood, and is caused by the blood being forced out of the heart to the lungs, and the pure oxygen purifying the blood, when Oxygen comes in contact with the impurities in the blood, it enlarges and burns, causing the blood to be hot—so that it warms every part of the body, as it goes on its revolutions through the system. If your blood is pure, you need fear no sickness. We give Mercury and all other impurities out of the blood. We purify the blood, and if the blood is pure, all the diseases cannot exist in the body.

Address all letters as heretofore,

E. F. TOWNSEND, M. D.,
122 High Street, Providence, R. I.

Physicians wishing to locate in some town in order to do this business, can be furnished with testimony and our illustrated papers for advertising the same, by addressing as above.

Caution!

There are unprincipled persons in Boston and elsewhere that are putting up a BOGUS GIVE Dr. Townsend's pamphlet of his TREATMENT, or Oxygenated Air, and claiming it to be like mine. None genuine unless the words "DR. TOWNSEND'S OXYGENATED AIR" ARE BLOWN IN BOTTLE AND PORTRAIT ON LABEL.

PATENT SLATE PAINT

READY MIXED

Fire-Proof, Water-Proof, Durable, Economical, and Ornamental.

One-Third the Cost of Reshingling.

The expense of slating new shingles is only about the cost of simply painting them. The paint is brought on to the roof in a liquid form, ready for use.

IT STOPS EVERY LEAK,

and for its durability has never yet been equalled by any other paint. It is not affected by the action of the sun, or any chemical fumes, or any corrosive exhalations, and will not crack, blister, or become brittle with age. It is also fire-proof, and protects the roof from sparks and cinders.

Not a Tar Paint.

It is not a tar paint, but is made of the best Linseed Oil and Asphaltum, and is free from all acids, and will not injure the most delicate fabric.

It is ready for use in all colors, stops the leaks—and is warranted to stop them—dries down as fast as a new shingle dries, and does not crack or blister like other roofs.

CHEMICAL COLOR,

which not only preserves, but actually improves with age, changing in a few months to a uniform slate color, and is in every way suitable for ornamental purposes.

TIN ROOFS

our red color is specially recommended, as it is equal to five of any ordinary paint. For

BRICK WALLS

our Bright Red is the most durable slate paint ever introduced, and will effectually prevent dampness from penetrating and discoloring the plaster.

These paints are also largely used on carhouses and fences, or as a priming coat on fine buildings.

Our only colors are Chocolate, Red, Bright Red, and Orange.
