SEARCH FOR LOST TREASURE.

A vessel belonging to a company of gentlemen of this city, fully equipped with a diving bell, sub-marine armor, and sufficient hands to work them, under the superintendance of a practical engineer, recently left this port for the island of Margorita, near Cumana, for the purpose of recovering the military chest and other treasures and stores lost by the foundering of the Spanish 80 gun ship "San Pedro de Alcantara."

The San Pedro was one of a large fleet of ships-of-war and transports which sailed from Cadiz early in 1815, with an army of 15 000 men, to reconquer the revolted provinces of the Spanish Main. Being the Admiral's ship and largest in the squadron, to her were entrusted all the treasure and military stores necessary for an expedition of such magnitude.

The loss of this ship occurred in April, 1815, at noonday, within a league of the island, and in 10 1-2 fathoms of water. To this severe calamity are to be attributed the failure of the Spanish arms under Morillo, and the subsequent independence of the South American Republics.

Since 1815 the wreck has quietly slumbered at the bottom of the sea, its whereabouts known only to the fishermen of the coast. The hull lies in ten and a half fathoms of water, on a hard and sandy bottom, between the island of Margarita and the main land. The neighboring sea is ordinarily smooth, and seldom violently agitated. Authenti: accounts state that she remains in the same position in which she went down. Her decks are partially fallen in, owing, it is supposed, to the weight of her armament, and the action of the worms on her wood work.

The present expedition has a permit from the Venezuelan Government to recover all the lost treasure and stores, with the sole condition of paying into the Treasury of the republic five per cent on all recovered.—*Balt. Amer.*

FRAUDS AT ELECTIONS.—The speech of the Hon. Mr. Clingman, a member of Congress from North Carolina, which has been republished in the Express, is a document that ought to be printed and circulated throughout the Union, and placed in the hands of every American citizen. The facts which it contains relative to the late presidential election, and the frauds which it discloses, as having been practised on that occasion, ought to be brought to the knowledge of all the people of the Union. It once known by them, every man who regards the existence and security of our Union and Constitution, and the safety of the government and institutions, must be alarmed at the danger with which they are threatened. The statements in that speech are correct, and the election of Mr. Polk was carried by the most gross corruption and the most foul and aggravated frauds; and if the constitution had been provided with the power to canvass and scrutinize elections, this could most unquestionably be set aside and vacated. As it is the Whigs are in duty bound to their country, as well as themselves, to collect as many well authenticated facts on the subject as may be, and publish them, that the people may see that the man who holds the office of Chief Magistrate, if the question could be decided before any legal tribunal having jurisdiction of the case, has no just claim to the place, and is, in truth, no better than a usurper.

It is of the greatest importance that when a man is declared to be elected President of the United States, and has attained that honor by means which no honest or honorable person would submit to, the manner in which that event has been accomplished should be made known to the people, and published to the world. Our system of government, and our country, are involved in the disgrace which necessarily attends such a state of things. By the acts of the people alone can the evil be avoided in future.

We hope this speech, and other public documents, calculated to arouse the attention of the community to this subject, may be scattered far and wide, and placed in every man's hands, that all may see how the election has been conducted, and by what means Mr Polk obtained his honors.—*N. Y. Express.*

A NEW BANK LOCK.—We had thought the burglars, who have cultivated the art of picking locks till they have almost made it a science, the most ingenious people in the world, but the truth is that the lock makers been a little in advance of them. We have just been shown a sample of Newell's Patent Parantogic Bank Lock, which strikes us as a wonderfully ingenious contrivance. So sure is the confidence of the proprietors, that they challenge the whole world, pick locks and all, to open the lock with the key which belongs to it, and offer the reward of a thousand dollars to any one who will perform the exploit. The person accepting the challenge is to have twelve hours to examine the lock, before attempting to move the bolt by means of the key.

The key is so contrived that it may be changed in ways innumerable. The *tumblers*, as they are called, adapt themselves to this change, and the lock must be opened by precisely the same form of key with which it is shut. Even the maker of the lock when the key is once out of his possession and a change is made in it by the person to whom it has been transferred, is unable to open it. The other advantages are these, that burglars cannot ascertain the internal arrangement of the tumblers either by phosphoric lights or external pressure.—*N. Y. Eve. Post.*

DISTRESSING CALAMITY.—How frequently we have been called upon to record, during the present winter, the loss of life by burning consequent upon the negligent disposal of hot ashes in out-houses or wooden vessels. The Ogdensburgh Sentinel adds another dreadful casualty to the list:

On the morning of the 31st ult., about 2 o'clock, the house of Robert Barker, of Rossie in this county, was turned by the careless exposure of ashes. Mrs. Barker discovered the fire raging in a temporary shed by the side of the house, and she and her husband attempted for some time to subdue it. The house was now enveloped in flames, and both Mr and Mrs Barker rushed through the flames to save their three young children, sleeping in the house. In effecting this their night clothes were consumed on their persons and the children were so dreadfully burned that they all expired the same day. Both father and mother are so badly burned that they are not expected to survive.

THOMAS W. DORR.—The House of Representatives of Rhode Island, on Friday, passed a series of resolutions, declaring the New Hampshire resolutions relative to the imprisonment of Dorr, disgraceful to the Legislature of New Hampshire, and insulting to the Government and people of Rhode Island, marked as they are by the grossest falsehood, ignorance and impertinence; and instructing the Secretary of Rhode Island to return said resolutions to the Governor of New Hampshire.

The Providence Journal says—"We think that the General Assembly will pass an act extending a pardon to Thomas W. Dorr on the same terms that it has been extended to the inferior actors in the treason of which he was the head."

THE TREATY WITH CHINA.—We are gratified in being able to state that the Treaty lately concluded between Mr. Cushing, Envoy Extraordinary and Minister Plenipotentiary of the United States, and the Commissioner of the Emperor of China, was yesterday ratified by the Senate, by a unanimous vote.—We shall doubtless soon be enabled to lay before our readers a copy of the Treaty, though its official proclamation cannot be made until after the exchange of ratifications, which, we understand, is to take place in China.—*Nat. Int.*

Mr Yancey, of Alabama, whose malicious attack upon Massachusetts has justly rendered him an object of general contempt, resides in this city when a boy. He was also a student of Williams College, and noted for his disorderly and lawless conduct. Being expelled from that institution for disturbing public worship by throwing a barrel of pickles through the window of a Methodist meeting house, he doubtless has an ancient grudge against the State in which it is situated.

DEATH OF MR. HARNDEN.—We are pained to announce the decease of Mr. William F. Harnden, of the firm of Harnden & Co. of this city, who died at his residence in Bedford street this morning of consumption, that insidious disease that carries off so many thousands of our citizens. Mr. Harnden was remarkable for his enterprise. He was the father of the Express business, and it is to him that the world is indebted for the wonderful facilities enjoyed by all classes of the community.—*Boston Transcript.*

THE SMITHSONIAN INSTITUTION.—The bill "to establish the Smithsonian Institution," &c. was yesterday reported back to the Senate from the Library Committee with amendments which have the main features of a National Library in the plan of it (appropriating $20 000 annually towards that object.) Had the Senate sat to-day, instead of adjourning over to Monday, the bill would have been taken up, and probably passed that body to-day; there appearing to be a general disposition to pass it as it now stands.—*Nat. LOUISIANA.—The Governor of Louisiana has sent his annual Message to the Legislature of the State. It occupies about half a column.

The finances of the State are represented as in a very flourishing condition. He congratulates the Legislature that they will have no trouble with the Banks. The state Penitentiary is farmed out, and the plan is said to work well; whether the improvement or punishment of the prisoners is considered, we do not hear. He recommends encouragement to the scheme of annexing Texas.

At a late Whig meeting in Boston, Mr. Morey read a part of a letter from Daniel Webster, which was as follows:

"I look for no great political good to this country, which shall not be accomplished by the Whigs; all the good they can do they can do as Whigs. *There is no reason for changing.* I hope they will not change either their principles, their measures, or their name."

We stated some time ago that the Whig Ladies of Cincinnati intended to present to Gov. Corwin, of Ohio, a massive silver pitcher, as a testimonial of their regard for his services during the Presidential campaign. The presentation took place on the 8th inst. in the presence of a very large company—Mr Guilford acting as the organ of the ladies. Gov. Corwin's reply is so good of its "level and full of poetic fire and beautiful imagery, but tinged with sadness at the disappointed hopes of patriotic millions"—*Nat. Int.*

MECHANICS INSTITUTE.

At the annual meeting of the Society held on the 20th inst., the officers were filled for the year ensuing as follows:—

President. D. K. PANGBORN.

Directors. D. K. Pangborn, S. Fletcher, C. F. Ward, A. B. Lowry, H. P. Herrick, S. S. Skinner, J. T. Benedict.

Treasurer. Isaac Dow; *Secretary.* S. Fletcher; *Collector.* S. H. Russell; *Librarian.* D. K. Pangborn.

Much of the right spirit was manifested at the meeting. Eight names were added to the list of members, which for even a year had been gradually diminishing, by removals, &c. The annual assessment of one dollar for each member, to be expended in the purchase of books and a matter one to defray incidental expenses, were unanimously voted.—which, when collected, will pay up the "public debt," leave a small balance in the treasury, and make a handsome addition to the library.

The books and apparatus belonging to the Institute are kept in Mr. Pangborn's Warehouse on Cattle'lane,—probably about as central and convenient a location as could be obtained. But what is of great importance to the society, in its present circumstances, is the fact that, by the liberality of the librarian it will be relieved from any charge for room rent, which has heretofore proved one of its largest items of expense.

Dr. Banning's Spino Uteri Abdominal Supporter, or
PATENT LACE.

WILL be kept constantly on hand by Dr. Joux W. Farrar, of Essex, for having purchased of the original Patentee the *exclusive right to make and vend* the same, within and for the Counties of Chittenden, Franklin, Lamoille, and Grand Isle.

The PATENT LACE has now been before the public for a number of months,—hundreds have been applied in different parts of the country, and with a success never before equalled by any medical agent. Numerous well authenticated Certificates of its efficacy can be seen the removal of diseases of long standing, might be obtained from the immediate vicinity—in addition to the statements in cases and certificates of cures from Dr. Banning and others. Reliable testimony can be given to individuals wearing the *Lace*, in nearly every town in the County.

Physicians have long felt the necessity of a Supporter adequately curative and more perfect in its adaptation to the human form, than any that had been presented to the public. The inventor of Banning's meet with their general approbation, as its design is to relieve extremes, and remedy a class of physical maladies which *cannot* be reached by medicine alone.

The decided advantage of the Lace consists in its relaxation of the *abdominal muscles*, so that exertion is not a burden, but a pleasure; the action of every organ in the human system, and, in many cases, the exertion is to train the natural healthy action of parts, to the great general stability—in Males and Females, of *Dyspepsia*, Affection of the *Stomach* and *Liver*, *Palpitation* of the *Heart*, *Spinal Irritation*, *Hysteria*, *Hypocondria*, *Piles*, *Prolapsus Uteri*, *Suppression of Urine*, the *Bronchitis* (Public Speakers), an *incipient Consumption*—all of which will much relieve, if not entirely remove, by the use of the *Patent Lace*, when their exertions are so greatly by ordinary arrangement and a mechanical displacement of parts, which can be really ameliorated by observing the *form* and *symptoms* of the person afflicted.

The inventor has been examined by Drs. Mott, Roger, Francis, and Cornell of New York—the Faculty of Pittsburgh, Harvard New Haven, and has obtained their favorable opinion.

Application for the Lace may be made to the subscriber, at Essex, or Dr. HEINEBURG, Burlington, Patients are at liberty to make the visit at their residence, if required.

STATE OF VERMONT, } Chittenden County
County of Chittenden, ss. } Court of Chancery
March Term,—1845.

WHEREAS, Henry Boardman of Colchester, in said County, has this day filed in the Office of the Clerk of said Court his bill of complaint against Hiram Bean and Maria C. Bean, wife of said Hiram, of place unknown in the State of Indiana, setting forth in substance that on the 7 1 of September, 1843, the said defendant executed to the complainant a mortgage of one undivided eighth part of the following described premises, to wit: "All that part of lot number one hundred forty-six (146) (in Colchester) which lies west of the road leading from Burlington to Milton, except the following described parcel of land, viz:—Beginning at a stake standing in the west line of said road, about 40 links south of the southerm most fence, on said side of the road which goes by the lot of Spencer Beaman; thence west six rods to a stake and stones; thence south sixteen degrees West six rods to a stake on the east line of said lot; thence south sixteen degrees West five rods to the north line of the road leading from the Mill to Mallet's Bay; Thence following the Northerly and Westerly line of the road to the place of beginning, including the mill, mill yard, fall and privileges of water power."

Which mortgage was given to secure the payment of a note dated 1st Sept. 1843, for the sum of one hundred dollars, payable to creditor or order in one year—which note was signed by said Hiram Bean.

That after the execution of said mortgage, by a decree of the Probate Court of the District of Cornwall, the said parcel of land, on the session of John W. Weaver and Artemisia his wife, was divided between the owners and deeded to them severally one tenth part thereof being deeded to severally to the said Maria C. Bean wife of Hiram Bean; and that thereafter the said premises were duly divided under the authority of and prior to Court, between the several persons to whom the same had been deeded and that the following described premises were upon such division set to the said Maria C. Bean wife of said Hiram, as and for the said tenth part thereof so by said Court decreed to be in severalty and in fee; to wit: "Beginning at the Northeast corner of the land set to Samuel Lane, J. C. Wolcott, Jr., Lyndon A. and John V. B. Lane, heirs, thence Easterly on the South line of the lands set to Lane heirs to the Southeast corner of the land set to said Lane heirs, thence Northerly on the East line of the land set to said Lane heirs, to the place of beginning, containing eighteen acres."

And setting forth that the money due and owing on said note had never been paid, but was then due and owing—and praying that the said Hiram and Maria C. may be decreed to pay to the complainant the sum of money and full interest thereon and to foreclose the said equity of redemption of the said Hiram and Maria C. may be forever foreclosed and that on all right, title, and equity of redemption of, in, and to the said undivided premises, so set out to said Maria C. be absolutely foreclosed.

Therefore, it is ordered that the said Hiram Bean and Maria C. Bean, his wife appear before the Justices of the Court of Chancery next to be holden at Burlington, within and for said County of Chittenden, on the last Tuesday next after, on the 18th day of March A. D. 1845, being the eighteenth day of the same month, to make answer to the matter in the said bill contained, and it is ordered that the said Hiram Bean and Maria C., his wife, be notified of the object and bill of complaint by publication of this order in the Burlington Free Press, a newspaper printed at said Burlington, three weeks successively, the last of which shall be at least twenty days previous to the commencement of said Term.

Dated at Burlington in said Chittenden County this second day of January A. D. 1845.

THE Subscribers are in debt, and their creditors are impatient for their pay. Their means of payment are in the hands of their debtors. They cannot pay but by being paid, and they must be paid or be in close quarters out of debt. They are the more in earnest in consequence of the business pressure of the country growing out of the election of Polk and Dallas. For although they are Democrats elected by the well, they have fears that the policy of the approaching administration may operate in a manner hostile to business, and they are determined to be out of debt before the Whig principles of the Association of the tariff, the annexation of Texas, and the bank policy and rain consequent upon these measures, shall be decided.

The subscribers therefore give notice to all persons indebted to them, that they must be paid by the 15th day of January next, or collection will be legally enforced.

COOKE, FIELD & CO.
EXPRESS LINE
OF U. S. MAIL COACHES.
FROM BURLINGTON, VT., TO ALBANY, N. Y.
Through in day and half.

COOKE, FIELD & Co. have stocked the road with splendid Concord Coaches, and six horse teams the whole distance, which leaves Burlington every morning, (except Sunday) at 6½ o'clock, passes over the centre road via. Vergennes, Middlebury, Castleton, Salem to Troy to dine the second day, and arrives at Albany in so soon to take the train of Cars for Springfield and New Haven, at half past one, P. M., and arrive at New York at 5 o'clock, A. M., on the third morning, making *forty-six* hours from Burlington to New York. Virgil & Co.'s Express between Montreal and New York passes over this route twice each week. At Middlebury this line intersects with the Boston and Fairhaven Rail Road line, via. Rutland, Bellows Falls and Keene, through from Burlington to Boston in 2 days without any night riding. At Castleton this line intersects with the Rutland and Whitehall daily line.

Cooke, Field & Co. have taken great pains to procure good Coaches and Horses, and experienced, gentlemanly drivers, who will drive through half day's ride, so passengers will not be annoyed with shifting drivers and coaches every few miles as on many other routes, and we pledge ourselves to make this line one of the best conducted lines of stages in the New England States and every thing will be done by our Agents and Drivers to make the traveling public comfortable and satisfied that we are willing to fulfil all we advertise.

Extras, for private parties, furnished at all times, from two Horses to six.

At Albany enquire of R. P. Dobson & Co., and HARNDEN & Co.; Troy, S. P. Whitney.

DOCT. B. J. HEINEBERG
ONCE MORE AT HOME.

HAVING become convalescent I beg to offer my services to the community at large, my health still being precarious will not allow me to enter into the arduous duties of a public practice, I have therefore opened (with a determination of establishing upon a sound basis) a DRUG STORE under the appellation of B. J. HEINEBERG & Co., to which I have attached a Consulting Office, where all persons wishing to avail themselves of my professional advice may consult me between the hours of 9 and 12 A. M. and 2 and 9 P. M. My medical cabinet is well known in Burlington, &c., to require comment.

The selections of the numerous Drugs, Chemicals, Instruments, &c., have been made by myself from the first and most eminent houses in New-York; my purchases being entirely for cash we shall be enabled to offer to the public Goods that cannot be surpassed in quality, and at such prices as cannot fail to please.

Having engaged the assistance of a gentleman a Licentiate of the Honorable Company of Apothecaries London, England, they can now prescriptions and Family Recipes will be dispensed with neatness and accuracy.

B. J. Heineberg & Co. most politely invite the Ladies to inspect their valuable and choice selections of Perfumery obtained from the first Parisian houses.

Their assortment of Hair, Tooth, and Nail Brushes are of superior manufacture.

Medical Wines and Spirits of superior quality and choice variety.

TRUSSES, Male and Female on the most improved principles remarkably low priced.

A variety of the most valuable Patent medicines.

Chemical preparations of all kinds warranted genuine.

A selection of Domestic Wants, such as Macaroni, Vermicelli, Salad Oil, Sardines, Olives, Prunes, French and American Chocolate, Cocoa, Refined Isinglass, Keechen of various kinds, Pickled Lobsters, Irish Moss, French Mustard.

Every attention will be particularly paid to ensure the good graces of the public.

B. J. Heineberg & Co. invite the public to make an early call and view their establishment. It is fitted up without regard to splendour. It contains the most superior quality of goods to be obtained in the market.

The store is accessable at all hours of night and day.

Doct. B. J. Heineberg takes this opportunity to return his sincere thanks to the inhabitants of Burlington and vicinity for the numerous favors conferred upon him, and trusts he is not now to be forgotten by his old friends.

N. B. The Store is situated next to Messrs Brinsmaid & Brothers' Variety Store, Church St., where the Doctor can be consulted daily.

THE RESULT OF OUR EXPERIMENT.

SINCE the establishment of our House in this City, we have met with unprecedented success which enables us to contemplate and make still further improvement. In size and extent, we are determined our ware-house shall not be excelled, and we think not unequalled in this city.

As an experiment we established an agency in Europe last Spring and on trial we have found it to operate exceedingly well, we have now made more liberal arrangements in order to carry more fully into operation and the better to test the expediency of an agency at home.

The more successfully to carry out our plans and make room for our spring importations we shall commence a great sale of our entire rich and extensive stock of Fancy and Family Dry Goods on Monday the 16th of Dec. 1844. This will be no ordinary selling as we are determined to close our entire stock as early as possible, and we are aware to do this, we must offer our goods at a SACRIFICE particularly to CASH or 6 months, our entire stock has been REMARKED at the LOWEST possible rate, so that all may readily see we have actually made a GREAT DIMINUTION in prices. We solicit your attention to our prices and styles and should you not find them satisfactory and go away without purchasing, we assure you we shall not be offended. We employ none but the most courteous and attentive salesmen, and our visitors will be sure of receiving all possible attention.

LOCKE & AKERMAN.

90 and 92 Broadway, and 3 James St., Albany, N. Y.

N. B.—Our Ware Rooms covers upwards of 4000 square feet. Our stock consists of upwards of $100,000 worth of useful and Fancy Dry Goods. In point of Richness, Variety and extent of style, cannot be excelled in the United States. Please rec
