CONTINUE to insure against Losses by fire, on the most reasonable terms.

GEO. B. SHAW—Agent.

Burlington, Feb. 6, 1846.

## Farm for Sale,

SITUATED on Brown's river, in Essex Vt., containing 110 acres. There is 85 acres of intervale on it, 50 of which is now meadow land, a good farm house, 3 barns and sheds, a good sugar and apple orchard, and an abundance of water—and is one of the best farms in the county for a dairy. Also, 20 tons of hay. A part only, of the farm or money will be required at the time of the sale. AT SO.

A dwelling house, shop, barn, and four acres of land, on which is a good orchard, lying in the village of Williston, for sale low and on a liberal credit by

Burlington, Jan. 30, 1846. Wm. L. SEYMOUR. 35tf

## AMERICAN PRINTS.

*VILAS & NOYES,*

WOULD invite the attention of *Merchants and Pedlars* who may wish to purchase American Prints. Our stock now is the largest and most desirable ever off red in this market, consisting of a very great variety of patterns, and a number and very neat styles. They were purchased at a time when the agents were closing their Fall business, and the owners of the goods were anxious to MAKE SALES, which enabled us to obtain them at less prices than they had been previously sold. In this way we obtained an advantage of from one to two cents on the yard, on some styles, and put it in our power to sell them as cheap as the *jobbers* in New York.

We would solicit a call from all wishing to purchase, and we do so fully confident that we sell them upon the most favorable terms. Please call and see for yourselves.

Burlington, Jan. 28th, 1846. 35

## M. G. RATHBUN & CO.

Among which are Blue Blk., Brown, Gold Mix'd and Blk. French Beavers, Blue Blk., Brown Green, Blue, and Blk. French Cloths, Plain and Figd. Blk. Doe Skin Cassimeres, Blk. Satin, Plain and Striped, Barathea, Serge de Rome, and Velvet Vestings, Silk, Plain, and Drab Velvets, do do do Serge, and Buttons, together with a large assortment of Fancy Cassimeres and Vestings.

*Also*, Shirts, Bosoms, Collars, Cravats, Suspenders, Tape Measures, &c. &c.

Burlington, Nov. 25, 1845.

M. G. Rathbun. G. F. Ward.

### *FARM FOR SALE.*

FOR SALE, a farm in Underhill, containing one hundred and thirty-six acres, of which one hundred acres of land is under cultivation, the remainder is covered by a large growth of hard wood. On the premises are a convenient dwelling house, barn, sheds, &c. and an orchard of thirty bearing apple trees, sufficient for making some fifty or sixty barrels of cider. Also a farm containing one hundred acres, lying adjacent to the farm above, about sixty acres of which is under cultivation, and lying in a compact form, the remainder is well wooded, principally with beech and maple. The farm are located near the centre of the town and in the main road—are well watered and well fenced, a considerable portion of the lower lying ground is rich alluvial soil, and would be a valuable piece of land for the business of dairying. The above premises will be sold to close a concern for much less than they real value, and payments given on the 1st of April next. For further particulars enquire of A. FOOTE.

Burlington, Feb. 22 1846 38 f

### *LIFE INSURANCE.*

THE State Mutual Insurance Company of Worcester, Massachusetts, offer to issue policies of Insurance on lives on the most favorable terms.—Applications received by

GEO. B. SHAW—Agent.

Burlington, Dec. 17, 1845.

## BRIGGS' PATENT FENCE MACHINE.

R. P. DEWEY,

RESPECTFULLY gives notice, that he is still manufacturing at Winooski Falls, Briggs' Patent Portable Fences, where all orders will be promptly attended to.

Owing to the advantages derived in the use of the above improvement, he is enabled to offer a neat and beautiful fence for yards and gardens, at much less expense than the same can be got up for in any other way, while for durability it is not excelled by any in common use. This valuable improvement was first brought out in Western New York, where it has gone into extensive use, and has received the approbation of the Mayor of the city of Buffalo, with many hundreds of the first agriculturists and citizens in that part of the State, also of Gov. Hubbard, Dr. Jarvis, Judge Churchill and many others in New Hampshire. In fact wherever it has been introduced it has been highly approved. As a Farm Fence it combines more advantages than any other fence ever used. It can be used *without posts*, and is therefore not affected by the frost and heaving of the ground, and is admirable adapted to mountainous, subject to severe freshets. It takes less lumber than any other kind of fence, is a certain protection against all kinds of cattle, is not liable to get out of order, cannot be *blown down*, is easily set up, taken down and removed, without injury.

☞No Farmer *should be without* at least a sufficient quantity to throw around his fields of grain and stack yards.

*ALSO,*

In connection with the above, he has a machine for turning Broom Handles.

Burlington Falls, March 12, 1846. 41

### *TO LET,*

FROM the 1st of May, a large Brick House on King st., with a Barn, Wood-house and good well of water.

Also, the House on Champlain street occupied by W. F. Griswold. Apply to

HENRY MAYO, 2d.

Burlington, March 12, 1846.

### *BUILDING TIMBER.*

BOARDS, PLANKS, LATH and SHINGLES, for sale by GEO. PETERSON.

Burlington, March 16, 1846.

## DR. J. SMITH.

MOST Respectfully informs the inhabitants of Burlington and vicinity, that having changed his residence from Champlain to Cherry street, three doors west of the Congregational Church, he continues the practice of

PHYSICIAN AND SURGEON,

adopting the best and most efficacious remedies extant; and while he is unwilling to believe any of the various systems of the day *perfect*, he could confidently select from them such articles of medicine, as he has found from long experience in a diversified and wide extended practice, in both city and country, to be best adapted to each and every case—aware that there are no two cases exactly alike.

How far success has attended his efforts since he has resided in this village, he would most willingly submit to the decision of an enlightened and candid public, for he is confident it must be acknowledged by the *people* that he has effected a cure in some cases where others had failed.

But a *physician* may neglect
To notice e'en a good effect,
Unless the cause as he supposes,
Is nine times plainer than his nose is.

Dr. S. continues to keep for sale, at *reduced prices* a great variety of Botanico, Thrideptic Eclectic and Magnetic remedies, which have been *proved* by millions of persons in the United States for more *safe* and *salutary* in removing disease, than any other known among men, and when administered by the action of his Electro-Magnetic Machine, the effect has been most astonishing in a multitude of cases.

Dr. Smith would also beg leave to inform the public that he has purchased Dr. Rogers the right to manufacture and sell the Bavaria's highly celebrated invaluable

PATENT LACE,

which far surpasses everything of the kind in market. And knowing that the article which has been used in this section has been of an *inferior quality*, causing more evil than good, whereas if a good article had been actually applied as it should have been, the result. He has made arrangements for a supply from the agent in force of the Bavaria, that every Lace may be *perfect* and every patient benefitted by it. The Doctor therefore invites all who need anything of his kind, to give him a call.

For the world *candidly* says that the Lace is for the relief and cure of the following diseases, which cause death, viz: *Weakness of the breast, with shortness of breath; cough and spitting of blood; palpitation of the heart; weakness of the side and stomach; dyspepsia; costiveness and piles; pain in the back with curvature; bearing down with weakness of the hips and lower extremities; and dropping of the body, especially in young ladies and children.*

The effect of what follows is only to add all sufferers to decide as to a trial of the Patent Lace, for relief of their afflictions. It is necessary to say just enough on some complaints, to show that the Lace proposes to remove many apparently opposite affections, in a rational and natural manner.

Man, usually considered, is a machine, and that when his mechanical perfection is in any degree lost, there must follow a natural and corresponding inefficiency or depreciation of its functions, as a natural result. This is true of the sofas well as the fixed parts. With reference to the organs, or sections of the trunk, we remark, that they are all connected together, from the top to the base of the trunical cavity, and are under the influence of their own weight; that they, in health, all support each other, from below upwards, not dragging each other down, as the case may be, if the sofas are not in health, or is chiefly effected by the abdominal muscles, when in a serious and healthy state. Of course when these are relaxed, the whole piece of organs will fall, producing a general confusion and displacement of organs and necessarily inducing a host of functional derangements, or a mechanical way. These derangements will be mechanical, and of course only can be restored by the parts to their proper place. The following expresses some of the natural effects of a relaxed and lightsome relaxation upon the fixed which cannot be cured by medicine exclusively, viz:

The whole mass of organs fall, and presses on the urinary organ, producing a too frequent evacuation of urine; or else turning it back, or forward, so as to cramp its stem and retain the urine, producing retention, giving too many a false reason to suppose the kidneys to be at fault; they also press on the lower bowel, shut it up, and thereby mechanically produce costiveness and torpor of the bowels. There will also be exerted a pressure on the uterus, (or womb), causing it down and out of place, bearing its supporting cords on the stretch, producing a sense of pain, wrangling, aching and lameness of the back, pulling or drawing in the groins, where these ligaments are attached, and a great sense of weight or pressing at the lower part of the belly, causing the patient to put his or her hand to that part when walking. The nerves going to the lower limbs, giving the function of sensation and motion, are in some way by the same means, liable to be affected, as seem of the abdominal organs, producing a numbness or else too much sensitiveness, as pricking and wrangling pain extending down the hips and thighs; also, loss of, or impeded motion, especially on moving a spell in the morning, increasing to cramp, or almost entire loss of motion towards night, "all done no-how-ually," which is better in the morning. Also, the feet will swell more night, because the pressure directs the accumulation of the transparent fluids into the body, but will be better in the morning. The veins, also, will be swollen, and relieved in the same manner.

By the pressure upon the lower bowel, producing costiveness, and obstructing the free return of blood to the heart, Piles are produced, which are always relieved by laxative medicines. These are effects of pressure in the parts below. But we also see that the stomach, liver and spleen will now be left unsupported, and are 'hanging' (comparatively) from their upper ligaments, producing in the region of the liver, a sense of hanging and dragging, dull pain, causing the patient to lean over and press that region with the hand. The region of the stomach will be tender and sunken, extended and flat, and the patient will speak of "goneness," sinking, gnawing and other like sensations, all because the organs have fallen away, and left a "goneness" in reality. See we want people to decide well before they work severally, and press the load to the lower abdomen; such people will also complain of heartburn, sour eructations, and distress after eating. Also, the spleen will be dragged downwards, pulling on its upper ligaments, producing a dull, dull, heavy, constant pain in the side, which nothing is an internally cure—and observe has all these feelings set together.

By this means, the diaphragm is pulled downwards and ceases to support the lungs and heart, and the lungs will now be supported, as we have seen, by lifting or palpitation and an sense of sinking there. The lungs will be dragged upon, producing a disposition to lean forward in sitting or standing. Also a shortness of breath and dry cough, and dull pain in the breast and sense of tightness will be felt.

When there exists the descent in public speakers, the throat, and the throat sore, in connection with all the other symptoms just referred to; and the fatigue of bearing the body forward in front of the spinal of the back, or its body axis, and sing so many are leaning on the pew, choose by a cough and weakness, and curvature of the spine, with great pain and sensitiveness.

The above, and other analogous affections, have hitherto baffled all conventional treatment; but, as we they have been viewed as "Mechanical," and have been treated by the Lace, they have all been treated with astonishing success; and we can also see a host of cures, certainly well, or half well, or confined to bed. Cases, requiring the same, who cannot wear lace, or be cured by the mechanical principle of treatment; and why? because their "house is falling down," and by binding them up, their pains vanish, and efficacy to external remedies is thereby given.

**These who should wear the Lace.**

Those who are weak from long continuance; who live sedentarily, are of lax fibre, easily fatigued, or who are pregnant predisposed to abortion, or are in child bed, should always wear the Lace; particularly all affected with spinal complaints. Weak and lax-fibered children should always wear it early, to prevent permanent dropping and curvature of the spine.

All laboring under what are called 'female' weaknesses, either of partner, painful or obstructed menstruation. They should be the 'accompaniment' of weak shoemakers, tailors, curriers, seamstresses, and especially of female operatives in factories, also of weak horses and gentlemen in travelling.

Upon an examination of a Committee of eminent medical men, appointed by the American Institute, a Premium Diploma was awarded to this instrument.

**Certificates.**

The undersigned of the Ladies of Boston and its vicinity, take pleasure in certifying that on their persons Dr. Banning's Patent Lace has been immediately and incomparably more efficient for the relief of female weaknesses than the other instruments in common use. We believe it to be an invaluable appliance, and recommend it to the confidence of those requiring support. When well adjusted, we have found it perfectly comfortable in the bearing on the body.

Mrs Newcomb, Mrs Tucker, Mrs Perkins,
" Parker, " Bramhall, " Porter.

*Boston* 1844.

This may certify, that we the undersigned have for several years been afflicted with double spinal curvature, so as to materially distort and enfeeble our bodies and depreciate our comforts; and that by wearing Dr. Banning's Patent Laces, we have found immediate relief to our pains and weakness, and some of us to deformity; but especially to the pain and weakness at the small of the back and between the shoulders. We would not sell the privilege of using the Lace for any worldly consideration. We find it a perfect sub-stitute for the corset's and shoulder brace, and superior to any other article May thousands try it. Elizabeth Chapin,
A Maria Lee,

*Cabotville, Sept.* 1844. Nancy D. Twichell.

N. B. Those who may wish to make trial of the Lace, can call at the residence of Dr. Smith, or he will visit them anywhere in the village, without any additional charge; and he will refer any lady or gentleman who may wish, to some one in this village who has proved the utility of the Lace in their own case. They may also be had of his agents—Harrington & Brother—together with ample directions for application, &c., &c. 40

### ATTENTION—

### *CONSUMPTION!!! &c.*

THE subscriber again calls the attention of the inhabitants of Burlington and vicinity, to (please call and obtain) a pamphlet, detailing particulars, and giving cases of cures of the strongest possible character, effected by using the Rev. N. H. Downs' VEGETABLE BALSAMIC ELIXIR. Notwithstanding *cures*—are full of advertisements of Cough Medicines, yet among the whole there perhaps is no article that ranks so high and appreciates so near a sure fire for Colds, Coughs, Bronchites, and the whole catalogue of Pulmonary symptoms, as this celebrated Elixir.

It has been observed from Maine to Georgia that consumptive patients (after having drank from one to twenty bottles of Wild Cherry, Hungarian Balsam, Oxosomon, and the thousand other articles) have been compelled to *use Downs's Balsam*, before any permanent or lasting benefit to the patient was visible. In Burlington the sales have been principally to those who have wasted their money in porcian on Wild Cherry, &c. ☞A fresh supply has just been opened, and pamphlets ready for distribution at the Drug Store of HARRINGTON & BROTHER.

## STOUNDING DISCOVERY!

A BLESSING! A MIRACLE!! A WONDER!!!

*To cure Eruptions and Disfigurements of the Skin, Pimples, Freckles, Sunburn, Salt Rheum, Scurvy, Sore Heads, &c. &c. &c.*

FOUR years ago last August, the capital of France was astonished in consequence of a discovery made by an Italian Chemist, named Jones—it seemed almost an impossibility that any thing made by the hands of man, could have such singular powers as that chemist by Antonio Vespersi for his invention. Many classed him and his invention as a hoaxing, (and, also! many credulous persons without trying, do the same now) at length, after testing it to the bosoms, the Medical Society of Paris, (the best chemists in the world,) delivered the following report to Signor Vespersi:

"We have now minutely and carefully examined the singular invention of Vespersi. We have analyzed its component parts—we have used it in several cases, and we have not to pronounce it (The Italian Chemical Soap) as a great blessing, and a truly wonderful remedy for any cutaneous eruption or disfigurement of the skin. Its inventor we consider the true philanthropist of suffering mankind."

(Signed) LEOPOLD TUPREY, Pres."

Then comes the report of the "Science de Plaisture," of a contrary nature!

"We are astonished," exclaims the aged president, "at this singular assertation—Vespersi's Italian Chemical Soap! Where, indeed, will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of the skin, and in a short time! Where will the wonders of science end? Where will the Medical Man of the Far West, be able under the influence of this extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of hair, or black, or brown skin." (Here several pages are torn out from the hands of the president, who had fainted, in proof of his assertions.)

READ THIS!

From the Inventor himself to the present Proprietor.

PARIS, Nov. 4, 1842—In consideration of the sum of $3,000 I have delivered to Mr. T. JONES, residing in the City of New York, N. Y., the whole process of manufacturing, together with a statement of the ingredients composing my Italian Chemical Soap.—He is to manufacture it for sale in the United States only, and to have the privilege of naming it

"JONES'S ITALIAN CHEMICAL SOAP."

Witness, Henry J. Holdsworth.

(Signed) ANTONIO VESPRINI.

There are probably few persons of intelligence, who do not recollect the sensation, will doubtless, the introduction of JONES'S ITALIAN CHEMICAL SOAP, in curing Pimples, Freckles, Salt Rheum, Scurvy, Erysipelas, Sunburn, Morphew, Tan, Yellow or Brown Skin, &c.

*HUMAN HAIR,*

IN THE FORM OF A

Beautiful and Delicious Preparation

CALLED JONES'S

CORAL HAIR RESTORATIVE.

NOTE—Among the celebrated, there are few who will doubt that by forcing the roots and scalp of the head to a healthy action, we can cause growth—we, dare, luxuriant growth. The roots being healthy, a sediment called dandruff is next to be discharged from the scalp; the hairs now become stiff and active. Thus the roots strongly fastened in their native soil, proudly and gracefully display their beauty, as a specimen of disease raised from death by the powerful aid of Science.

Having stated as above the actual, true, and real qualities of Jones's Coral Hair Restorative, I leave the intelligent person of this notice to judge of the truth of its pretensions, by the testimonials of the celebrated, the learned, the famous, scientific, eminent, &c. &c. Among the testimonials are the following:

From J. S. Buckingham, Esq., F. A. S. L.

The American Statesman, Lexington, has been favored with a specimen of Jones's Coral Hair Restorative, for the purpose of testing its compound qualities, and reports as follows:—"We have minutely examined and tested Jones's Coral Hair Restorative, and find that it possesses decidedly favorable for nourishing, softening, causing growth curing dandruff, and giving a dark appearance to the hair, being the qualities most recommended by Mr. Jones, which this Society finds perfectly true, and in virtue thereof award Mr. Jones this testimonial."

(Signed) J. S. BARKER, F. A. S. I.

Mr. Phillips, 498 Broome Street, corner of Wooster, has used this in his family, and finds it in every respect, within a single exception, all it is represented.

"I hereby certify that my hair was falling out in immense quantities daily, and was turning gray, and that since I have used Jones's Coral Hair Restorative, it has entirely ceased falling—is growing fast, and has a fine dark hue. Before I used Jones's Coral Hair Restorative, I consulted of hundreds of hair daily." W. TOMKINS.

92 King Street, N. Y.

FACTS REGA' DING THE

*SUGAR COATED IMPROVED*

Indian Vegetable Pills.

*For Consumption, Colds, Coughs, Rheumatism, Dyspepsia, Fevers, Worms, Dysentery, and Diarrhœa, also, sure Cure for the Piles.*

TESTIMONIALS.

HAVING been attacked some months with a bad Cough, Weakness in my Chest, and loss of appetite, I used Wright's Indian Vegetable Pills, but grew worse, with cold sweats at night; could not sleep, and believed I was in a Consumption. I procured a box of Dr. Smith's Sugar Coated Improved Vegetable Pills, which restored my health within six days, and I believe them to be the best remedy I ever used. GEORGE W. GRANGER.

Cambridge, Oct. 19th 1834.

I have been afflicted for some time with the Liver Complaint; having pain in my side, weakness in back and st much, and dy-pepsia. I have taken over one dozen boxes of Wright's Indian Vegetable and Brandreth's Pills, but continued to grow worse, and was so reduced that I despaired of ever gaining relief. I then tried Dr Smith's Sugar Coated Improved Liver Pills, and before I had ten had the second box, my pains and dy-pepsia had disappeared. My food now digests well, and I am able to attend to my family duties. Several of my friends have since taken the Pills for bad coughs, and have found great relief from them.

Mr. Otis S. Whitney, 9 Myrtle st.

Boston, May 9, 1845

I have been for four years afflicted with Scrofula, Leprosy and Deafness, and have been unable to obtain any relief until I procured six boxes of Dr. Smith's valuable Indian Vegetable Pills, and in four months all my complaints had disappeared, contrary to all my friends' expectations. I took these Pills for my Scrofula, without any expectation of relief.

James R. Chivers.

Mt. Vernon, Kennebec Co., Me. April 15, 1845.

PERFECT CURE OF WORMS.

Our little girl, 6 years old, has suffered all the worst stages of worms; and we have never found an effectual cure, until we administered Dr. Smith's Sugar Pills which our little girl took without the *least reluctance* in doses of two at a time, and we never witnessed such a change in so short a time. The Pills brought away a mass of worms, and she at once improved. She is now in joyous health. We have also found the greatest benefit from their use.

Jacob Carlock, 8 Staple st. N. Y.

☞We have many certificates of cures in cases of WORMS. Also, they are warranted the Ice Cough remedy now in use—never failing to relieve the most obstinate Coughs or Colds, within 48 hours.

The directions and treatment of the disease accompany every box. Price 25 cents per box.

No "Sugar Coated Pills," can be genuine without the signature of the sole inventor, G. BENJAMIN SMITH, M. D., President of the N. Y. College of Health, upon every box. Office devoted exclusively to the sale of this medicine, No. 179 GREENWICH STREET, New York, and No. 2 WATER STREET Boston.

☞*FOR SALE IN ALL THE VILLAGES AND TOWNS IN NEW ENGLAND STATES.*

N. B. No traveling peddlers are allowed to sell these Pills.

CAUTION. As a miserable imitation has been made, by the name of "Sugar Coated Pills," it is necessary to be sure that Dr. G. Benj. Smith's signature is on every box. For sale by PECK & SPEAR, Burlington, W. B. HATCH & Co., Winooski Falls.

## FALES' MEDICINES.

FALES' Cathartic and Vegetable Purgative Lozenges, and the best and certainly the most popular article, not only for adults but for children of all constitutions and climates, and is every one in mouth life. They are strictly vegetable, with a taste inexpressibly delightful; they cause no griping, nausea or any other contrary feeling of pleasure, cleansing the stomach and bowels more perfectly than any other purgative. Their magic like operation surprises the most eminent physicians, and they are rapidly taking the place of all other purgative compounds. Every traveller should carry them, every family should keep them, and every man, woman and child should take them.

FALES' WORM LOZENGES

Are a sure remedy, and children love them, they act like a charm in removing the symptoms, starting in sleep, grating the teeth, paleness about the mouth and nose, sickness at stomach, precarious appetite, swelled lower and general fever; the child falls into a quiet sleep, the worms are stupified and expelled in every instance as far as heard from the patient is entirely cured.

FALES' COUGH LOZENGES,

For coughs, colds, bronchitis, incipient consumption, whooping cough and croup, the most happy effect is observed in a few moments, the symptoms disappear and the disease is at once broken up. A single trial is sufficient to satisfy the most sceptical.

FALES' DYSENTERY LOZENGES

Cures dysentery, diarrhœa and all bowel complaints of adults or children. Pay particular attention to the directions which accompany each box and they are not known to fail. Price 25 cents.

FALES' CAMPHOR LOZENGES,

For common and sick headaches; also, mania, epilepsy, melancholy, hysterics, St. Vitus Dance and all other cases of languor and oppression of the vital powers, they are perfectly safe for women or children in all conditions.

FALES' CYPRIAN HAIR TONIC.

Is now so extensively known that comment is useless. We can say, however, among thousands who have purchased and used it, not a single case, none have complained, but on the contrary expressed their wonder and admiration on beholding its effect.

CLEAR OUT YOUR RATS.

The gnawing and panting of these destructive creatures can be completely forever in our houses and store if you will procure a box of the genuine

Malagascar Rat Exterminator,

and use it according to directions.

You cannot depend upon the genuine medicines unless it is found in the signature of J. J. Fales, 96 Commercial street, Boston; to avoid counterfeits the agent has a certificate with the written signature to J. J. Fales, M. D. Member Mass Med. Soc. and Boston Med. Ass. Dr. Fales' medicines are sold wholesale and retail at No. 96 Commerce st. Boston.

### *TO PHYSICIANS.*

**Dr. Robert Thompson's Uteri Abdominal Supporter and Abdomido Pelvic Bandage.**

WE have purchased the exclusive right of making and vending the above meritorious instruments, within the Counties of Chittenden and Franklin, in the State of Vermont; and we now offer them to the public, confident that they are equal in every respect, and in many particulars far superior to any thing of the kind ever offered. They have the unqualified approbation of the Medical Faculty in almost all cases of the country where they have been introduced. HARRINGTON & BROTHER.

We have carefully examined Dr. R. Thompson's apparatus for the relief and cure of *Prolapsus Uteri*, (falling of the womb) and unanimous of highly eminent experts, the following, and are of the decided opinion that they are well adapted to the purpose for which they are recommended.

Burlington, Feb'y. 26 39

A SUPERIOR ARTICLE FOR COUGHS COLDS, ASTHMA, AND ALL PULMONARY COMPLAINTS.

PREPARED FROM VEGETABLES ONLY.

THIS Balsam is offered to the public generally, from a full conviction that it is superior to any other medicine now in use, for the cure of various diseases of the chest. Its effects were first tested in private practice, and the medicine more extensively circulated at the earnest solicitude of many, who received the most signal benefit from it, in diseases at once distressing and alarming. The preparer of this Balsam has for several years paid particular attention to pulmonary complaints, by watching the progress, investigating their causes, and curing the various forms of the numerous and most approved remedies which have been prescribed by physicians of all orders, as well as of almost every patent medicine ever offered to the public. But, on careful trial, it is fully shown, that the Compound Pulmonary Balsam will not fail in the comparison with any of the Balsams, Cough Drops, Pectorals, or Syrups; it has, in numerous cases, gained the ascendency as a curative, in the following complaints: Consumption, Asthma or Phthisic, Whooping Cough, Measles, Catarrhal affections of the Lungs, Hydrothorax or Dropsy of the chest, Influenza, Croup, Spitting of Blood, pain in the Side, Shortness of breath, and common colds. It regulates the natural secretions of the system, procures a free expectoration, and allays morbid irritability. Hence its great utility, in all diseases of the lungs. As the Compound Pulmonary Balsam has thus far established an unriv
