The mean average temperature of September for the last eight years was 59.52.o and the temperature o the warmest September (1841) in that period was 61.9 o The mean temperature of September this year, as appears from the above table, was 64.75.o being 5.1.o warmer than the mean of the preceding 8 years and nearly 3.o warmer than the warmest September in that period. The first 8 days in this month were very remarkably warm, their mean temperature being 76.2.o, which is 3.o warmer than the mean of any July or Aug in the preceding 8 years. The fall of water this month is a trifle more than the average for Sept. in the 8 preceding years, that being 3.01 inches.

We cut the following from the Philadelphia North American:

AN EFFOLUENT WING.—Among those whose eloquence contributed to the recent glorious results in this State, Mr. H. B. Wharton, a washington county New York, should be gratefully remembered. Visiting our State an invalid, he was induced, notwithstanding his indisposition, to address several political meetings, and proved himself one of the most effective speakers in the party. His style is fresh, bold and lofty, yet familiar and winning. We believe that the country cannot boast a more devoted Whig, nor many more eloquent and able. If our sister State has many such champions for the Whig cause there can be little doubt of the result of the coming election.

It is to such "champions" and to the good "WING CAUSE," that the country is yet to be indebted for further and more overwhelming triumphs. Mr. NORTHUP, we undertake to say, will be ready, with his harness on, for the great encounter in 1848. We hear the mutterings of the Whig thunder already——

"The pawing of the courser ere he *rein*."

"Mr. Orator Puff had two tones to his voice,
The one was G-alt, and the other down low."

The Troy *Budget* (loco) of Saturday thus blows hot and cold on the Iowa election in the same number of its paper:

1st. "G. alt."

Democracy Triumphant.

Glorious Iowa. After all the whig brag and bluster, claiming that they had carried the new state of Iowa, it appears, if the following report is true, that the democracy have swept the State—carried everything—and will send two democratic members to the U. S. Senate! HURRA FOR IOWA!!

This is on the *first* page inside. Now turn we to the *second* page, and there we have, under the head of "LATER; BY TELEGRAPH," the following thorough base:—

2d. "Down low."

☞ It is now certain that the whigs have carried the Legislature of Iowa.

These Telegraphic despatches make short work of it!

Communication.

MR. EDITOR.—The late Common School County Convention appointed the 4th instant, as the time of the meeting of the Committees, to recommend *text books* for use in the common schools of Grand Isle County. Those assembled at North Hero at that time, including the County Superintendent, adopted the reports presented unanimously, by the Committees on Arithmetic and Algebra, and the higher branches as follows:

Where two authors are named, the first is for the younger pupils in our schools.

Natural Philosophy—Mrs. Swift's First Lessons. Dr. Reese's Chambers Course.

Chemistry—Uncle Davy's First Lessons. Dr. Reese's Chambers Course.

Drawing—Dr. Reese's Chambers' Course.

Astronomy—Burritt's Geography of the Heavens.

Elocution—Caldwell's Manual.

Botany—Thinker's First Lessons, Phelps' Botany for Beginners.

Mythology—Elements of—by author of Amer. Pop Lessons.

Physiology—First Lessons in—by Dr. Griscom.

Anatomy—Raschenberger's.

Arithmetics—Emerson's First Part. Colburn's Mental Arithmetic. Adams' Arithmetic.

Algebra—Davies' Elementary.

By Order,
ALONZO G. SHEARS.

Grand Isle, Nov. 5th 1846.

P. S. In the absence of the committee who had not seen Tower's Intellectual Algebra, I would mention that work as one well fitted to *precede* Davie's work.

For the Burlington Free Press.

Mr. Editor—Permit one of your readers to suggest a hint through the column of your paper, that among the various projects of reform which are being urged upon the attention of the friends of morality and human rights, it be an an object to try if something cannot be done to secure to the subscribers for newspapers, that have them left at Taverns or other public places, the right of securing their papers before they are carried off by light fingered loafers, not to be seen again. As it must be rather cool encouragement for people to subscribe and pay for a paper, without having a chance to see one in half a dozen that come each week, I would recmend to all fishers of newspapers, and particularly those living in reach of and that are in the habit of calling at a Brick Tavern not more than four miles from Burlington, to consider, whether it would be more than fair to let the owner see his paper before depositing it in their own pockets.

A FRIEND to Newspaper Patrons.

DARING ROBBERY.—B. H. Fuller, Esq. of Stowe, while on his way with a horse and wagon from that place to Burlington, on the 27th ult. was overtaken by two men, whose names were Gay and Newland from Hydepark, and who asked to ride; after some hesitation this request was granted, when they persuaded Mr. F. to partake of what was represented to be simply strong liquor, but which very soon stupified him so much that they had little difficulty in robbing him of $300. After this they turned the horse round, leaving Mr. F. insensible on the bottom of the wagon and fled. Mr. Fuller was found in the evening when he was able to reveal what had transpired, and immediate chase was given for the robbers, who were taken at Bolton. The robbery was confessed, and the money found where it had been concealed. The culprits were lodged in Montpelier Jail to await examination.—*St. Albans Messenger.*

HENRY CLAY.—A correspondent of the United States Gazette, writing from Frankfort, Ky., on the 1st inst., communicates the following in relation to Mr. Clay:

"He has been here for several days, trying an important will case from Louisville; and his closing speech was pronounced, by all who heard it, to be one of the best efforts of his life. I was told that he had made several arguments during the last Fayette Court to juries, and it seemed as if olden times had returned. His mental and bodily vigor appears strong as ever, having just heard the glorious news from the Old Keystone, he was in the very best flow of spirit."

Thursday, the 3d day of December next, it is understood, is the day fixed for the complimentary dinner which the citizens of Philadelphia have tendered to Mr. Webster. It will be a brilliant affair.—*Baltimore Patriot.*

A THREEFOLD VIRTUE.

By promoting circulation, strengthening the system and facilitating digestion, Dr. Wood's Sarsaparilla and Wild Cherry Bitters will restore the most confirmed invalid to health. Where either these effects are necessary to the restoration, the "Bitters" will be found to possess every quality desirable. They have been used already with the greatest success, in many obstinate cases of impurity of the blood, Nervous Irritation, Dyspepsia, Low Spirits, Scrofula, Palpitation of the Heart, Chronic Headache and Rheumatism. They are indeed a happy combination of powerful, yet safe and salutary vegetable remedies, of a sterling and unimpeachable reputation. They have won their popularity solely by their intrinsic merits, and that they have been successful, numerous certificates in the hands of the proprietor, and the greatly increasing sales fully attest. Those desirous of an agreeable yet efficient tonic or alterative medicine, need seek no further, for in this preparation they will find all that can be desired. For sale by PECK & SPEAR. 21w3

ANOTHER SEVERE CASE OF ASTHMA,
CURED BY WISTAR'S BALSAM.

Seth W. Fowle,

Dear Sir:—Having for a long while been troubled with Asthma in its worst form, and after having tried various remedies, all to no effect, I bought of your agent A. Rowe, one bottle of the Balsam of Wild Cherry, which relieved me very much. I have continued to use the same, as the disease returns upon me, and find it always relieves when nothing else will; and further, I have no doubt, could I have had the Wild Cherry in the first stages of the disease, but that it would have entirely cured me. I can confidently recommend it as a very valuable medicine for all lung complaints.

Died,

In Phelps, Ontario Co. N. Y., on Wednesday morning, the 4th inst., Rev. LUCAS HUBBELL, aged 59 years. Mr. Hubbell was a graduate of, and for some time a professor in, the University of Vermont. He had been the settled pastor over the presbyterian church in Phelps for the last 7 years. The immediate cause of his death was an affection of the heart. He died suddenly, while attending to some duties at his barn. A large circle of friends sincerely mourn this deep affliction. Mr. Hubbell was universally beloved and respected, and the poor and the rich alike enjoyed his care and protection.

In Ypsilanti, Mich., on the 25th ult., of Pleurisy, at the residence of her brother, Dr. Joel Fairchild, HENRIETTA FAIRCHILD, of Georgia, Vt. aged 43 years.

RESTORATIVE FRANCAISE.
Consumption.

LOUIS FONTAIN, junior partner of the firm of Fontain & Son, Chemists and Prescriptionists to the Royal University, Paris, has established, at Washington City, D. C., a Depot for the sale of their above celebrated compound, which they offer to the American Publick as A SURE ANTIDOTE FOR CONSUMPTION, in its ADVANCED as well as INCIPIENT stages. Acting directly upon the LUNGS, and arresting there decay, it not only soothes and quiets, *at once*, the distress and pain attendant upon this heretofore regarded fatal disease, but restores the Lungs and their sympathizing organs to NATURAL AND HEALTHY ACTION. Accompanying each package are general instructions and directions (translated) for its use, adapted to all cases, and if strictly followed, will not fail in every instance—if the Lungs are not wholly consumed—of restoring the patient to health which may be permanently secured by future care and avoiding too much exposure to atmospheric changes.

PRICE, Eight Francs. LOUIS FONTAIN.

☞ For the information of persons residing in the interior—any part of the Government—he would state that the remedy is prepared and imported direct from their Laboratoire, Paris, and that the same can be transported through Mail, as he is advised by Officers of the Post Office Department, to any Post Office in the country at the same charge as for a double letter. Any persons therefore residing distant from this City, who may wish to avail themselves of the remedy, can do so by addressing him through the mail, post paid. Two dollars accompanying an order will entitle a person to one *whole*, and one *third* package.

STATE OF VERMONT, } A Probate Court
DISTRICT OF GRAND ISLE, ss. } holden at the Probate office in North Hero, within and for said district, on the 12th day of November, AD. 1846.—

On Instrument, purporting to be the last Will and Testament of Robanson Ferriss, late of Grand Isle, in said district, deceased, being presented to the Court here by Stephen R. Ferriss, the Executor therein named for Probate; It is ordered by said Court, that all persons concerned therein, be notified to appear at a session of said Court, to be holden at the dwelling house of Geo. H. Porter, of Grand Isle, on the first Saturday of December next, and show cause if any they may have, against the Probate of said Will; for which purpose it is further ordered, that a copy of the record of this order be published in the Free Press, a news paper printed at Burlington in Chittenden County, three weeks successively as soon as may be.

In witness whereof I have hereunto affixed the seal of said Court, and subscribed my name at North Hero in said District, this 12th day of Nov. 1846.

READER READER
IF YOU ARE AFFLICTED WITH

Bronchitis, Asthma, obstinate or common coughs and Colds, Spitting of blood, bleeding of the lungs, Whooping-Cough, Difficulty of Breathing, sore throat, Hoarseness, first Stages of Consumption,

AND ALL OTHER PULMONARY OR LUNG COMPLAINTS, It is known as

DR. EMANUEL'S
BALSAMIC LUNG AND COUGH JELLY.

The materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich or poor.

Names and residences of persons residing in the city of New York, who have been cured or benefitted by DR. EMANUEL'S BALSAMIC COUGH AND LUNG JELLEY, *when it was prescribed in another form:*

Mr. HIRAM ANENTS, 113 William-st., N. Y., had, for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of *Dr. Emanuel's Balsamic Lung and Cough Jelly*, which perfectly cured him.

Mrs. MORGAN, 162 Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and *Dr. Emanuel's Balsamic Lung and Cough Jelly* entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint,—cough, cold &c. &c.

Mr. L. W. CONKLIN, 102 Eldridge-st.
Mr. ALONZO BROWN, 72 Reade-st.
Mrs. MORGAN, 162 Front-st., Brooklyn.

Although the inventor must again reiterate his opinion, that he considers consumption, in its confirmed and worst stages, incurable, yet he must own there is still hope, when we read the following letter:

Orange county, April 19, 1846.

DR. EMANUEL,

Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fear of your never recommending your Jelly to the care of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured,

ISAAC J. REED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this BALSAMIC LUNG JELLY—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not be unwilling from me your name, and a statement of your cure.

DR. EMANUEL'S

BALSAMIC LUNG AND COUGH JELLY, is sold, by the Agent. Price Fifty Cents a Bottle, or larger sizes, One Dollar.

The New England
MUTUAL LIFE INSURANCE COMPANY,
BOSTON,

HAVE established an agency in Burlington, Vt., and will grant policies on the Mutual principle, on as favorable terms as any similar institutions in this country or England.

For the better security of the insured, in addition to the amount received for premium, deposited in policies, this company has a guaranty capital of $100,000, one half of which was paid in and safely invested before the company went into operation, and the balance is liable to be called in whenever the business and exigencies of the company shall require it.

The object of this company is to furnish every one an opportunity to make a small annual saving during his life, for the benefit of his family after his decease, without paying any more than is actually required to meet the requisite expenses and payments of the company. At the expiration of every period of five years, each member is entitled to have his interest, or so much thereof as remains unappropriated, credited to him on account of his future premiums. He is also entitled to receive back, at the same time three-fourths of the surplus of his premiums over and above what may be requisite to meet the liabilities of the company, to the benefit of the income of which, he will be entitled as long as he remains a member.

SCALE OF ANNUAL PAYMENTS,
FOR EACH HUNDRED DOLLARS.

Age	On a policy for the whole life	For seven years.	For one year.	Age	On a policy for the whole life	For seven years.	For one year.
