THE IMPORTED HORSE.

YOUNG

FLYING CHILDERS.

THIS SPLENDID ANIMAL WAS PURCHASED in England by EUSEBE LAUNTO, of D. Z WARTON, and brought to America in the fall of 1845.

The Subscriber obtained him of the importer at great Cost, and would inform those who are interested in improving the blood of American Horses, that he will be found at his Stable in Shelburne Village, at all times ready to be examined and compared with any horse in the State, in respect to speed, blood, form and carriage.

He is 16 hands high, firmly built, with expanded chest, finest of limbes, and the most active and easy movements. His color is the richest of bay. He has in fact every qualification that constitutes a beautiful, fleet and good bottomed horse. Every feature is an index to his Pedigree, and shows him to be of the very first of

English Extraction.

The Young Flying Childers, was exhibited at the last meeting of the Chittenden County Agricultural Society, and came off with a complete triumph over every other horse present.

The Subscriber, anxious that his horse should establish a reputation upon his actual merits, will now compare him in any respect with the best horses that can be produced, the Sir Henry, or Black Hawk, not excepting and particularly with regard to beauty, activity and speed. The Young Flying Childers will be 6 years old next July, and weighs 1,150 lbs. He is of the Old English Stock, bearing this name, which will be obvious to a single glance to any competent judge of horses. We solicit such to call and satisfy themselves by observation, also a share of patronage.

TERMS.—Any one who wishes to improve by as good a horse, and as cheap a rate as was ever offered in America, this will be their opportunity.

The Young Flying Childers will stand for $7,00 the Season, insurance signed upon. Mares that are returned, if disposed of before foaling time, the insurance must be paid. Good pasturing will be provided for Mares from distance, accidents and escapes at the risk of the owners. Season to end in August.

SIR HENRY.

THIS THOROUGH BRED horse will commence his season, April 1st, 1847, and may be found at the Stable of the Proprietors, West Milton, until Monday, the second of May. And that time until July 5th he will stand each week in

MERIOT FALLS.	BURLINGTON
At the Stable of S. Ward, Mondays, Tuesdays, and Wednesdays.	At the Stable of the Frank lin House, Thursdays, Fridays and Saturdays.

Leap $8, Season $10. Insurance earned on.

Insurance will be claimed in cases disposed of before the time of foaling.

PEDIGREE AND DESCRIPTION.

SIR HENRY was bred by James Badgeste, Esq., of Long Island,—the breeder of Medoc, Midas, Gipsey and other Horses, distinguished in the annals of the Turf. He has taken more premiums, after closest competition, than any other American Horse; having received, besides numerous county premiums, the *first* premium for the best blood horse, at the N Y State Agricultural Fair, several different years,—the last, at Auburn, Sept. 17, 1846, over upwards of fifty competitors, admitted to have been the finest show of horses ever witnessed, even in New York. He is full sixteen hands high, and very muscular; weighs eleven hundred and a half (not dainty condition; is of a bright chestnut color; was never in the hornets or on the Turf; is remarkably sure for a gelding, perfectly sound and healthy, and in the vigor of life. He was got by Henry (the competitor of Ariel, Eclipse in the great race on Long Island) he by Sir Archy, and he by imported Diomed. SIR HENRY'S dam—the dam of Prospect, Sir Lovell and Lt Infantry—was got by imported Lt. Infantry, (a son of Golden Eagle); gr. dam imp. old Maccaroni, (the sire of the dam of Mr Eclipse, and celebrated as a getter of instances); gr. dam Bellisaw, gr. gr. dam imp. Tara Barrow, said to be the sire of the original "Morgan." Imported Lt. Infantry was bred by Richard Gouston, Esq., of Clandon Surrey, and was got by Eng. Eclipse; his dam by Feather; gr. dam Fevine Cottrane.

The above pedigree may be verified by anyone who desires, by reference to the Eng. Stud Book, or Ann. Turf Register, both in possession of the proprietors.

SIR HENRY'S colts are unrivalled for speed, bottom, and style of action, and command higher prices as roadsters, in the markets of Troy, Albany and New York, than those of any other horse. The following notice of Sir Henry is from the March No. of the American Agriculturist, edited by A. B Allen, Esq., who is well acquainted with both the horse and his stock.

"SIR HENRY.—We have received a circular from Messrs. Lucius Sanderson & Co., of West Milton, Vt, informing us that this noble, well bred horse, will stand at Burlington the ensuing season. Sir Henry has taken several premiums at the annual Shows of the N. Y. State Ag. Soc. Celebrated as the Vermont Horses already are, we think it duly patronized, this superb horse will leave a mark behind, which will add still more to their reputation as breeders."

Mr. Hodge, of Cambridge, N. Y. an experienced and obliging groom, who has taken care of Sir Henry for several years, will have charge of him this Season.

Good pasturage will be provided for mares from a distance, but the proprietors will not be responsible for accidents or escapes.

THE MOTHER'S RELIEF,

OR FEMALE EXCITANT.

THIS valuable and highly appreciated Medicine was obtained from an INDIAN DOCTRESS, in the Valley of the Columbia River, Oregon, and since its introduction into civilized life, has been of more benefit to the human race than all other medicines ever used. It will cleanse do away the curse entailed upon our mothers from Eve. It will effect a quick, easy delivery that no other medicine will, except what the real women of the forest use, that is contrary with nature. The patient will get about in half of the time they do treated in the old way.

It is a sure preventative of Broken Breasts and childbed fever, and the proprietor is willing to WARRANT a cure in all who may have occasion for it use. Those who have been imposed upon by Quacks and Quack nostrums, and have the nature fear of a second imposition, can be referred to some of the most respectable families in the town.

All orders from a distance, (post paid) will be attended to upon the shortest notice.

Sands' Sarsaparilla,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM, VIZ:

Scrofula, or king's evil, Rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago; and diseases arising from an injudicious use of mercury, ascites, or dropsy, exposure or imprudence in life; also, chronic constitutional disorders, &c.

In this preparation are strongly concentrated all the Medicinal properties of Sarsaparilla, combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value.

The following is an extract from a letter received from Rev. William Galusha:

BERKSHIRE, Vt., Oct. 22d, 1845.

MESSRS. SANDS: I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years; suffering at times what language cannot convey, but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally for the last fifteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I. Shaw, by the use of six bottles, was restored to better health than she had before enjoyed for ten years, and Mrs. W. Stevens, who had been severely afflicted with Erysipelas, was entirely cured by the use of a few bottles.

Yours, truly, WM. GALUSHA.

The following testimonial from the Agent to the value of the Sarsaparilla in a case of leprosy will be read with interest by all similarly afflicted:

BEAVER, Pike Co. Ohio, Sep. 7, 1846

Messrs A. B. & D. Sands:—Gents—A man near here used six bottles of your valuable Sarsaparilla for the leprosy, and has received more benefit from it than all other remedies combined for six years past. It restored a hand, leg and foot from a situation that no person would have known they belonged to a human body, as all appeared to be one mass of putrifying sore. His hand and other diseased parts are all restored to their natural size and feeling; are entirely healed over, and his leprosy cured. He intends using a few more bottles to permanently establish his health.

Yours, most respectfully, G. W. RAYNOLDS.

For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

THE BANNING LACE.

DR. Smith, most respectfully informs the public that he has purchased of Dr. Emery the right to manufacture and sell Dr. Banning's highly celebrated and invaluable

PATENT LACE,

which for surpasses every thing of the kind in market. And knowing that the article which has been used in this section has been of an inferior quality, causing many a failure, whereas, if a good article had been faithfully applied, a cure would have been the result—he has made arrangements for a supply from the original factory of Dr. Banning, that every Lace may be perfect and every patient benefitted by it. The Doctor therefore invites all who need anything of the kind, to give him a call.

Let the invalid consider that the Lace is for the relief and cure of the following diseases, which come of a displacement or weakness of the organs of the body, viz:

Weakness of the breast shortness of breath; cough and spitting of blood; palpitation of the heart; weakness of the side and stomach; dyspepsia; costiveness and pain; pain in the back with curvature, bearing down with weakness of the lips and lower extremities, and dreeping of the body especially in young ladies and children.

The above and other analogous affections, have hitherto baffled all medical treatment; but since they have been viewed as "Abscess" they have been treated by the "Lace" they have been easily cured and we can now see a host of cases seemingly well or half well, or combined with real disease, requiring medicine, who cannot enjoy life or be cured upon common principles of treatment; and why? because their "house is falling down," and by binding them up, their proper position, and efficacy to internal remedies is thereby given.

☞ On an examination of a Committee of eminent medical men, appointed by the American Institute, a Premium Diploma was awarded to the instrument.

N. B. Those applied by the doctor, he *warrants to fit* and to *benefit* the patient, but the same may be had at Burlington's, who also has an assortment of *Jewett's Medector*, at the lowest cash prices.

Doct. J. Smith

MAY be consulted at his residence on Cherry street, three doors west of the Congregational Church, at any time, when not professionally engaged—all the *false assumptions and vile exaggerations* of certain Knights of the *Lancet* and *Counsel*, to the contrary notwithstanding, and he wishes his friends and patrons to understand, that he is not in the least disappointed or discouraged on account of any opposition or even persecution he may receive at the hands of old school Physicians—for they know their *craft* is in danger. It is not strange that more than three thousand dollars worth of Electric, Introleptic and Magnetic medicine, which he has dealt out to his numerous patients in this vicinity, in less than four years—during multitude of cases given over by the Medical brethren, as wholly *incurable* by all their "*fallacies*," should excite their *fears* and call forth their *bitterest indignation*. But let the "gulled gade wince." True, they have, by calling to their aid *old opinions, old educational prejudices, and prejudices*, excited and kept up in the minds of the people by the *low cussing and cant* of a swarm of hungry doctors, whose bread and butter is in danger, taken some *three or four fever* patients from him, in as many years, with no other *apparent* effect, than to hurry them to their graves: but *in no case*, have they been able to show the *superiority* of their treatment, by *curing* a patient which he could not.

To prove beyond all controversy and to the entire satisfaction of the Public, that what he has said above is true, the Doctor offers the following testimony of H. E. Hubbell, Esq., which will not be doubted by any who know him, as a specimen of hundreds more which he might adduce, were it necessary.

CERTIFICATE.

"This may certify that Doct. Smith, of Burlington Vt., has made a very important *cure* upon one of the members of my family—being an *Ulcer* involving the whole ankle joint and nearly the whole foot, which had baffled the skill of several eminent Physicians for about four years, during which time the *Ulcer* continued to increase and spread. I am happy to say that, in my opinion the *cure* would do honor to any Physician or Surgeon. H. E. HUBBELL."

Root Porter.

THIS PORTER, being manufactured from some of the most celebrated Roots of Germany and the United States, acts powerfully as a *Purifyer of the Blood*, and is the best CATHOLICON ever discovered for the cure of *DYSPEPSIA*. The most free and liberal use of this beverage, so far from being followed by an unpleasant reaction, tends to restore, regulate and invigorate the nervous system. The most delicate females may partake of it, not only with impunity, but with the most sensible advantage.

The Anti Dyspeptic Root Porter is composed entirely of vegetables, and as a temperance beverage, is not surpassed.

The following Gentlemen have been appointed agents for the sale of the above, and as they will keep a supply constantly on hand, all orders, written or verbal, addressed to them or the Proprietor will be promptly attended to.
