Carding and Cloth Dressing done as usual.

F. S. MUNSON

Winooski Falls, May 16, 1849. w26

DR. PEARSON'S

PULMONIC EXPECTORANT is the most valuable remedy in the world for Coughs, Colds, Asthma, Spitting Blood, Bronchitis, Hoarseness, Difficulty of Breathing, and all other diseases of the Breast and Lungs. This medicine produces immediate and easy expectoration, it never fails to give relief, and if taken in time, a permanent cure may be relied on.

READ THE FOLLOWING.

Hunterdon County, New Jersey.

Dr S A Pearson, Dear Sir—About a year ago, I became severely afflicted with a pain in my breast and side, an extremely hard cough, spitting of blood, debility, night sweats, fever, and other symptoms, which I thought would terminate in a few days, reduced me to a skeleton. I made application to a physician who examined my chest, and gave it as his decided opinion that my lungs were seriously affected. I then applied to another, who was of the same opinion, and after having prescribed, advised me to return to my friends.

Previous to this, I had for a long time been laboring under all the symptoms usually found with persons suffering under diseases of the lungs, and it was thought by all who new me, that I was fast wasting away with decay.

At the time that I applied to the physicians, I was labouring under every symptom of spitting blood, with pain in my breast and side. These presumptions failed to relieve me, and I should have consigned me to the dreadful grave of Mind Fatal, but for your invaluable Pulmonic Expectorant. By the use of which I was somewhat relieved of the fever, night sweats, and skin now seemed to recover its natural hue, and I felt able to travel. I continued the use of the medicine, and in a few weeks I was able to resume my usual avocation, and to expose myself to all weathers, as a healthy person ought to do.

I therefore, confidently recommend every person who is labouring under a cough or any symptom of a diseased lung, to make a trial of your most valuable preparation. I am a mechanic and that alone has made me all your expectorant has done for me, viz: it has enabled me to work for my family, which I was not able to do before I used your medicine. I remain, at the time, March, 1849. Yours &c.

JOSEPH HOAGLAND

DR PEARSON'S
Approved Vegetable Pills.

Are the most safe and best family medicine in the world. They are composed of the purest vegetable extracts, and are free from all mineral poisons, and are so mild and gentle in their operation, that they may be taken by the most delicate female, without the least danger or inconvenience, and are the most effectual purgative pill ever offered to the public. They do not contain a particle of mercury, and the public are hereby warned against purchasing any pills purporting to be Dr Pearson's, unless they have the signature of A. Ketchum, on the wrapper. They are warranted to keep in any climate, and retain their virtues for any length of time. They are highly recommended for the cure of Fever and Ague, Liver Complaint, Jaundice, and all diseases arising from a disordered state of the stomach and bowels. Agents are appointed in every town in the United States, so that every person may be supplied with them at their own door. Pearson's Vegetable Pills and Pulmonic Expectorant are now known and acknowledged to be the most popular medicines of the day. Great numbers of testimonials in their favor have been received by the proprietors, but want of space prevents their insertion here. Suffice it to say, that they are warranted to cure, or the money will be refunded
