METALLIC OR VULCANIZED Rubber Belting, steam packing and Hose,

MANUFACTURED BY THE

Boston Belting Company.

MANY OF THE HEAVIEST BELTS in the Northern States, are made of the Vulcanized Rubber, or Metallic Gum Composition, (which cannot be affected by heat or cold,) and are in successful operation, giving perfect satisfaction. The experience of the last three years has gained for them the confidence of the consumers; this, together with the fact that great improvements have been made in the quality, warrants the manufacturers in asserting it to be superior to leather for all open Belts, (more especially for heavy or main Belts,) for the following reasons:—

1. Its perfect equality of width and thickness, which it will retain.

2. No danger of heat under 300 Farenheit injures it, and it remains flexible in any degree of cold.

3. It is of great strength and durability, does not slip on the pulleys, consequently a gain of power is obtained, and when adjusted to machinery, does not require alteration, as is the case with leather.

4. In large Belting the cost is much below that of leather.

A large assortment always on hand, and furnished of given lengths at shortest notice.

Packing for Steam Boilers and Steam Pipes, made of the Metallic Rubber, is now universally adopted by the Rail Roads and largest Steam Works in New England, also, on board the Steam Boats of the Western lakes; and when once tried, is sure to supersede all other articles for this important purpose. An assortment of various thicknesses constantly on hand.

HOSE.

Metallic Gum Elastic Fire Engine and Factory Hose.

Suction Hose, of various sizes, which is found much more perfectly are tight and durable than leather, and at a lower price.

Coupling furnished at the customary prices.

CRANE'S Patent Wash Mixture

THIS far famed soap is now brought within the reach of our citizens, so that they may participate in the benefits which thousands of people elsewhere are deriving from its use. It needs only to be made the subject of actual experiment, to insert its complete superiority of all other compounds for

CLEANSING CLOTHES AND RESTORING ONE IT TO ITS ORIGINAL BEAUTY,

to be of the heaviest loads that womankind have back-ar is the weekly washing, with its laborious, rubbreaking, long continued rubbing at the wash board parsn, rub, rub, until the fingers looks like boiled ar haips, with one half of the skin gone and the other eyes if shrivelled up like the corners of a mean man's hoes; and besides all this, the clothes themselves remove of the lady may be *clean*, are so surely done for in this rubbing process, that a few repetitions finish them, and the old man must have a new set of shirts. All this weary labor and destructive attrition.

CRANE'S PATENT SOAP,

is boiled to obviate, and there is no doubt that as fast as its actual merits become known, it will supercede all other means of producing cleanliness by the use of soap.

IN HOUSE CLEANING,

its virtues are pre-eminent, the labor, so much dreaded in the spring and fall, *being reduced MORE THAN THREE FOURTHS*. It leaves paint as good as new in appearance, *without injuring its permanency in the coat.*

The printed directions which are furnished to every purchaser, must in *all cases be scrupulously observed* in order to obtain the benefit of the soap.

The following are among the commendations already obtained from persons who have tested its virtues:—

Burlington, May 27, 1850.

Messrs. WOODRUFF & RAY—

Gentlemen: I have at last arrived at the conclusion in regard to your Patent Soap for Family Washing. I suppose you will consider me rather tardy in reporting to you, but I wanted for several trials, as I found some difficulty in getting fair ones, as washers are so in the habit of relying that it has been on repeated trials that I could get a fair operation, and I am now told by the persons trying for me that they are fully convinced of its utility and entirely establishing what you state in relation to it.

Yours truly, JAMES COOK.

Philadelphia, May 29, 1850.

I have examined Crane's Patent Soap as made by C. D. Knight & Co., and am well satisfied that it contains no ingredients which could be injurious to the most delicate fabric on which it is employed. I have also examined it practically, and find it to possess most excellent detergent qualities

JAS. C. BOOTH,
Practical and Analytical Chemist.

Of Professor Booth, Dr. Reynell Coates, who is hardly less distinguished as a Chemist and Physician than as a literary man, says—

"Mr. Booth is so well known throughout the land that I should hardly think a certificate of his scientific standing necessary. He is universally admitted to be one of the two best Chemists in the U. States."

Crane's Patent Compound Wash Mixture, supplied by L. Woodruff, Agent for Vermont has been used in my family for several weeks with the most gratifying success. I have no hesitation in recommending it as a highly useful preparation, and that its value in the process of washing is unquestionable.

CROSS IMPOSITION.

CAUTION TO DEALERS! Unscrupulous venders of counterfeit Extractor, put up the spurious and deleterious stuff, with a few boxes of the genuine Dally Salve in each dozen, under a well imitated but Counterfeit Wrapper of the Old Size, and thus offer it to dealers at a reduced price. This Bait takes with many dealers, but the confiding sufferer who happens to use the counterfeit and poisonous stuff, pays the penalty of the fraud! aggravated disease—unsightly deformity resulting from severe burns and wounds and, not unfrequently, loss of life itself, and the woful consequences!

CAUTION EXTRA.

IMPOSTERS, traveling about the country, represent themselves as my agents, and as selling my genuine Extractor, stating that they obtain it from me! I caution the public against all such interlopers and their poisonous nostrums, and hereby distinctly, and without qualification, stamp them as knaves, and as deceiving of public by offering a spurious article with health and life of the unsuspecting. Druggists and Dealers who will countenance such fraud and rascality are equally culpable.

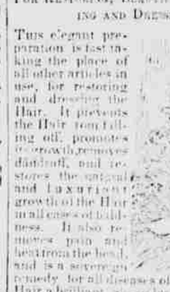
One of the Greatest Discoveries of the Age!

White's Hair Restorative:

A purely Vegetable Compound,

FOR RESTORING, BEAUTIFYING, CLEANSING SOFTENING AND DRESSING THE HAIR.



THIS elegant preparation is fast taking the place of all other articles in use, for restoring and dressing the Hair. It prevents the Hair from falling off, promotes its growth, renders it dandruff, and restores the natural and luxuriant growth of the Hair in all cases of baldness. It also removes pain and heaviness in the head, and is a sovereign remedy for all diseases of the scalp. It gives the Hair a brilliant, glossy lustrous, a silken texture, and a healthy, vigorous appearance. No lady's toilet can be complete without this indispensable article.

RECOMMENDATION.

[Certificate of Dr. PERRY, Portsmouth, N. H.]

PORTSMOUTH, Sept. 29, 1849.

Mr. J. P. MOSES, Agent for "White's Hair Restorative.—*Dear Sir:* I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative. Several weeks ago, after a severe fit of sickness, my wife lost all of her hair, the scalp appeared diseased, and the hair grew on much and uneven. About a year ago, by another fit of sickness, she lost all of her hair a second time, and for a long time there was apparently no action in the scalp. After various applications I was induced to try the above mentioned Restorative, and now after the use of a few bottles her hair has grown even, thick, as lustrous, and of as beautiful a color as ever. Furthermore for a long time I have been afflicted with neuralgic and other pains in my head, and I have found it the best external remedy I have ever tried; I can therefore cheerfully recommend it to all who are afflicted as above as the best article I have ever seen.

Most respectfully yours, &c.,

DR. HOOFLAND'S *CELEBRATED GERMAN BITTERS,*

PREPARED BY

DR. C. M. JACKSON,

AT THE

GERMAN MEDICINE STORE,

No. 120 Arch St., Philadelphia.

They never the above diseases is not excelled, if equaled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, without, safe, certain and pleasant.

READ AND BE CONVINCED

CLAYE RAMSDEN, Esq., Easton, Md., in a letter to Dr. Jackson, Jan. 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the *Dyspepsia and Liver disease.*"

"THE TRAVER LANCET," published at Woodstock, Va., January 10, 1850, said—

"A GREAT MEDICINE"

"We have uniform y refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, prepared by *Dr. Hoofland*, and prepared by Dr. Jackson, of Philadelphia. In our instance in particular to which the superior virtues of this medicine have been tested, it has taken under our observation. During the last summer, a son of Mr. ABRAHAM CRAWFORD, of this county, was very seriously afflicted with bowel Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and it completely restored him to health."

READ FURTHER A FEW FACTS.

The "*Philadelphia Conservator*" the leading German journal of Philadelphia. The editor said, Nov. 24th,

"We again call attention to the removal of the German Medical Store, the principal depot for the sale of Dr. HOOFLAND'S GERMAN BITTERS, from 278 Race, to 120 Arch Street, one door below Sixth.—Owing to the increased demand for this medicine, and for the accommodation of the numerous patrons, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the greatest medicine extant for diseases of the Liver and Bowels. A relation of ours, who is a Druggist, has come under our notice, where the patient had exhausted the Materia Medica of the different schools of medicine with manifest benefit. He was induced to use these bitters, and a few bottles of them having entirely cured him. Many such cases we could report. We hope our readers will recollect this great preparative should they be so unfortunate as to require its use. Dr. Jackson possesses the original unpublished receipt of Dr. Hoofland, and he prepares this medicine without the slight change that should render it less active, or one that by chance is worse instead. The wrapper only is altered, and known to the bottle, as contrasted with all good articles are common."

MORE EVIDENCE.

The "*Philadelphia Saturday Gazette*," the best family newspaper published in the United States, the editor says of

DR. HOOFLAND'S GERMAN BITTERS

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, moreover, when we recommend Dr. Hoofland's German Bitters, we do so in the decidedly undeserved fact that we are not speaking of the nostrums of the day, that are noised about to a mind period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval in the family circle."

Evidence upon evidence has been received in the foregoing, from all a quarter of the Union, the last three years, *and the strongest testimony in its favor is, that there is more called for in the practice of the regular Physicians of Philadelphia than of other preparations combined*, a fact that can easily be established and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in *all bilious diseases*—it is mild in its operation. They can be administered to INFANTS OF INFANT with entirely and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has obtained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are unscrupulously deceived.

LOOK WELL TO THE LABELS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, *without which they are spurious.*

CONSUMPTION

in all Christianized and civilized countries, has caused a larger proportion of deaths than any other malady that afflicts the human family; and, until within a few years, there has not been a sure remedy to stop the devastation of the destroyer. But now—

BRANT'S INDIAN PULMONARY BALSAM

Cures not many of the most strongly marked and developed cases of *Pulmonary Consumption*—yes it, *unbidden* cases of *ulcerated* and *diseased LUNGS*—such *hopeless* cases as were never before cured by any other medicine. So utterly hopeless were some of the afflicted persons, as to have been pronounced by physicians and friends to be ACTUALLY DYING. Some who had their burial clothes made, have been cured, and yet live—others, who it was said would not live another day, are now as well and hearty as they ever were.

It possesses all the cleansing and purifying virtues nearly as powerful and active as the PULMONARY which we sold.

BRANT'S INDIAN PURIFYING EXTRACT.

This differs from that, because this possesses *several other Medicinal* virtues which are *peculiarly adapted* to, and are *essentially necessary*, to cure

Coughs and Consumptions,

and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

This *BALSAM heals and cures Ulcers in the Lungs*, and also *when taken internally*, as certainly and easily as the PURIFYING EXTRACT cures and heals ulcers externally. This Balsam cures *when cases of Coughs and Consumption* out of ten, after all other remedies have *failed to do good.*

Thousands of Consumptions

and *Chronic Coughs*, abundantly prove its *unfailing efficacy* in such diseases, and its undoubted curative power, and soothing, healing properties in following complaints and diseases, viz: *Spitting of Blood, Bleeding of the Lungs, Pain in the Breast and Side, Night Sweats, Nervous Complaints, Palpitation of the Heart, Chronic Influenza, Dyspepsia and Summer Complaints in Children and Adults, Asthma, and ALL*

FEMALE WEAKNESSES AND COMPLAINTS.

No remedy that has been offered to the public has ever been *half as certain and effectual in correcting ALL the incidental weaknesses and irregularities* of the female sex, as *BRANT'S PULMONARY BALSAM*. It makes no difference whether the derangement be *suppression, excess, or other incidental weaknesses*, it *regulates ALL*, by *strengthening the system, equalizing the circulation, and soothing and allaying* NERVOUS IRRITABILITY. *See our Pamphlets* for proof.

CONSUMPTION.

A Dying Woman Cured!

We state this case to prove the *power to save life*, when this BALSAM is used, even after the person is *considered* by physicians and friends to be in the *last stages* of disease—actually *dying*—and, in this case, *as far gone* that the friend and *hard* relative were brought. For the particulars of this case, and the testimony of the parties, and proof of all the circumstances and facts, we refer to our PAMPHLETS. This case was effected on Mrs. ZIBA DYKEMAN, of *Ballston Spa, Saratoga Co., N. Y.* We can prove, beyond a doubt, many other cases equally as hopeless and conclusive cases of Consumption and Consumption *CURED*, which were pronounced *incurable* by skillful *physicians*.

LIVER COMPLAINT.

See the cure of *Dr. Hubbard*, of Stamford, Ct., and others.

Dyspepsia!

See the cure of *T. S. Hobart*, merchant, of Utica, Wyoming Co., N. Y., and many more, in our Pamphlets.

Dysentery and Summer Complaint

in *Children* and *Adults* are *always cured*. *Weakly Children* will become *fleshy, healthy* and *hearty*, and grow rapidly, by the use of the BALSAM.

No mother need ever mourn the death of her child by Cholera Infantum, when the BRANT'S PULMONARY BALSAM is administered. It should be, for such cases, given in larger than the ordinary doses.
