—Among the patents issued from the United States Patent Office, dated July 4, 1854, is one to Galusha J. Bundy of London, Vermont, for improvement in potato diggers.

—The Boston people complain much of the rowdyism that prevailed on the night of the 5th, exceeding anything of the kind on previous occasions. They say that the power which could send off Burns, ought to be strong enough to prevent fellows from throwing rockets through the windows of peaceable citizens.

—The Senate has passed the bill making a grant of public lands in aid of a telegraph to the Pacific. The projected line is estimated to cost only $9,000,000 or $1,000 a mile for 2000 miles. The cost of telegraphing will be $10 for ten words, and 75 cents for each additional word. Government despatches to be sent free to the amount of 3000 words per month. All over that to be paid for at such rates as Congress shall decide. The bill has yet to pass the House.

—Barnum has retired in despair from the Presidency of the Crystal Palace Association, and it is decided to close the exhibition on the 31st of October, when the palace and all the property of the association will be disposed of for the benefit of those concerned.

— Mr. Hiram Cole, of Shaftsbury, sheared from a buck one year old last March, 28 and 1-16th pounds of wool. He also has two ewes, from one of which he sheared 10 pounds and 12 ounces, and from the other 11 and one half pounds. One of these ewes raised five lambs from March, 1853, to May, 1854; and the other has raised three within the same period of time. They are purely French.—*Bennington Banner.*

News of the Week

By Telegraph to the Free Press.

THREE DAYS LATER FROM EUROPE.

ARRIVAL OF THE ASIA.

New York, July 13.

Steamer Asia arrived here at 8 last evening, with Liverpool dates to July 1st, three days later.

The aspect of the war has undergone an entire change and it is difficult to foresee what new complications may arrive. Austria is ready to march 200,000 troops into the principalities thus interposing between the combatants and preventing further hostilities. The whole Anglo-French force is now at Varna preparing it is supposed for an expedition under Gen. St. Arnaud in person into the Crimea.

The whole of the Russian army of occupation is falling back in good order with all its Stores.

Nicholas is on his way to the Crimea from Kiew.

The Position of Russia.

The following from the Paris *Moniteur* indicates that the Emperor of Russia is preparing for a fight with all Europe, that is, if they attack him in his own dominions to which his armies are slowly retreating. "It can no longer be doubted that Russia is sending considerable masses of troops towards the Austrian frontiers. There is no town in the government of Kiew which has not a garrison. Three regiments of guards just arrived at Kiew, have receive orders to march towards the frontiers of Gallicie. A Camp is in course of formation near Dubner.

Accounts from Midnica dated June 3d, state that the Russian government has ordered the peasantry to march from the frontier to the interior of the country towards Kaminiets and Podolski and has organized them into a levy en masse. All holders of property and the nobles are compelled to furnished 3 Cossacks fully equipped."

Washington Affairs.

Boston, July 14.

In the Senate yesterday, Mr. Sumner presented petitions from citizens of Windsor Co., Vt., praying for the abolition of Slavery and the Slave trade in the Territories.

Mr. Jones, of Iowa, from the Committee on Pensions, reported a bill granting a pension to the widow of Batchelder, killed at Boston in the fugitive slave riot.

During the day a message was received from the President accompanied by a tin box supposed to contain the Japan treaty.

The Senate then sent into executive session.

The prospects of the ratification of the reciprocity treaty continue to improve.

Cholera.

The Cholera is prevailing severely at Chicago.

New York News.

New York, July 14.

The $14,000 stolen from Belmont & Co., have been returned through the post-office. The robber first made application to the Chief of Police to know if he would be entitled to the reward.

The Cashier of Mr. Belmont who had been left in charge during his employers' absence has been arrested for the robbery.

The failure of Jno. T. Purdy a member of the board of brokers was announced to-day.

There was a street preaching fight at Buffalo last night, during which 8 Irishmen were injured. More trouble is expected to-night.

The yellow fever is making terrible devastation at Cuba.

Washington, July 15.

In the U. S. Senate yesterday, Mr. Chase of Ohio, introduced a bill to prohibit Slavery into the territories of the U. S.

Anti-Nebraska Conventions.

The Ohio State Anti-Nebraska Convention at Columbus on Thursday, was largely attended, nearly every county being represented. Resolutions were adopted in opposition to the repeal of the Missouri Compromise and in favor of holding a general Convention of the Free States.

The Indiana state Anti-Nebraska Convention was held at Indianapolis on the 13th. Judge Thomas Smith, an old line Democrat, presided. The preamble and resolutions were adopted by acclamation.

The resolutions oppose the Nebraska swindle and the repeal of the Missouri Compromise, pledge a general cooperation without regard to predilections, against the extension of Slavery; and they deprecate the action of the Democratic Convention which met at Indianapolis last May. Hon. Henry Ellsworth and other leading gentlemen addressed the Convention. All the candidates for officers at the ensuing elections were nominated on the Anti-Nebraska Principle, after which the Convention adjourned with cheers for Free Soil and Free Labor.

Action of Boston Grand Jury.

The Grand Jury quashed the charges before made against 4 persons, for the murder of Mr. Batchelder, during the late fugitive slave troubles. They have however indicted eight persons for riot.

Cholera News.

There were 141 deaths in Boston the present week, of which 31 were of cholera.

The cholera has made its appearance in the Lunatic Asylum at Cincinnati, and a few deaths have occurred.

At St. Louis the disease was raging as an epidemic. The deaths reaching as high as 80 per day.

There were 575 deaths in Chicago for the week ending July 8th.

The Vermont Central Railroad.

Boston, July 17, 1854.

Edward Crane resigned the presidency of the Vermont Central Railroad Company, on Saturday. He acknowledged a further over issue of 8000 shares of the stock of the Road.

The Cholera.

In New York last week, there were 817 deaths of which 147 were of Cholera. In Philadelphia, 413 deaths including 69 of Cholera. In Boston, 111 including 31 of Cholera. The disease is on the increase in Washington. In Chicago the Cholera continues to rage badly and it is stated that at least 6000 persons have left the city.

Funerals are continually passing and at night many bodies are taken away quietly.

The Japan Treaty Confirmed.

The Japan treaty has been unanimously confirmed by the Senate.

The Steamship Franklin Ashore

Boston, July 15th.

Steamship Franklin from Havre for N. Y., with 165 passengers and a valuable cargo went ashore off Montauk, below New York yesterday.

The vessel is considered in a dangerous position but at last account had made no water. The passengers were all safely landed

Three Days later from Europe.

ARRIVAL OF THE NIAGARA.

FIGHTING ON SEA AND LAND!!

The steamship *Niagara*, from Liverpool, July 8th, arrived at Halifax at 3 P. M., yesterday.

The Czar has replied to the joint demands of Austria and Prussia, that he will consent to resign his exclusive protection over the Greek Christians, if Turkey will accede to a joint protectorate of the five powers.

The Czar will evacuate the principalities when the Western powers evacuate Turkey, but he will retain a strong military position in Moldavia, as provisional security.

The French army was embarking at Cherbourg for Finland

Sir Charles Napier's fleet was lying in line of battle off Cronstadt, but up to June 29th no attack had been made.

Bomarsund was attacked for the second time on the 26th and 27th of June, and the fortifications were destroyed.

On the 5th of June, eight Russian steamers came out of Sebastopol and attacked some ships of the allied fleet, and afterwards regained shelter at the batteries. The allied ships engaged were, the *Furious, Terrible* and *Descartes*. The allied ships seem to have been a running fight. The *Furious* was considerably damaged.

On the Danube on the 21st and 22d, an important battle was fought. The particulars are derived from a dispatch, stating that the Turks, under Gerotti Mussa Pacha, fell on the Russians rear guard of 25,000 men near Silistria, on the 21st, and the battle lasted during two days; the Russians losing 2500 killed, but making good their retreat.

From Asia the news is bad. On the 9th of June the Turks met with a severe check in attempting to storm two redoubts between Ussourgiet and Kutais.

The Russians attacked them in the flank during the assault, and defeated them with 1,500 killed; 13 cannons, 35 standards, and the entire camp equipage was captured.

Cholera was said to have appeared at Cronstadt. There were also some cases in the English fleet.

From Spain the news is that the outbreak as yet is entirely military. An action took place near the village of Viedlaw. The insurgents charged three times successfully, and at length after a great loss retreated upon Toledo. The royalists would again attack them when the reinforcements expected should arrive from Saragossa and Valadolid

Madrid was quiet and there is no general rising in the provinces.

News was received from Barcelona. All was quiet there. Anxiety was felt as to what part Generals Narvaez and Zureno will take. Meanwhile the insurrection is formidable; and it depends a good deal on accidents which will triumph, Royalists or Insurgents

There is no marked change in breadstuffs, business limited.

Loss of the Franklin.

The steamship Franklin will probable be a total loss.

Street Fight in New York

A street encounter occurred in New York between Thomas F. Meagher and J. A. McMasters of the *Freeman's Journal*, in consequence of an article in the *Journal*. Mr. Meagher struck McMasters with a whip when McMasters drew a pistol and fired a ball, grazing Meagher's forehead. Finally Meagher got the better of his antagonist and left him senseless and bleeding on the ground. Both parties have been bound over to keep the peace.

Telegraphic Report of the Cambridge Cattle Market.

REMOVAL.—We take this opportunity to inform our friends and Consignors that we removed from 136 State Street on the 1st inst., and have taken the new and spacious store No. 3 CITY WHARF, lot steps only from Faneuil Hall market. This change we regard still more favorable from its locality for our business, and it gives us much better facilities for room, our lofts are among the most extensive for Wool, Cellar is not excelled in its adaptedness for Butter, Pork, &c., and our first floor for Cheese and Produce generally. We would duly acknowledge your favorable influence in our behalf, and increasing consignments for the past few years, we can only promise our best efforts and facilities to promote your interest, and trust we may long continue to enjoy your confidence

ASHES.—No important changes since our last Circular, Pearls are in demand at $8 62½. Pots $7-75, and not a large stock, these are the highest rates this week. The rule in this market is, the purchaser pays all the charges for Inspection.

BUTTER.—The market remains quiet for all qualities, particularly for common Dairy and Store, the wants are still only for home trade, and it is difficult to sell our best invoices for more than 19 cts., and at cell quotations for all other grades, our late increasing stock is being sold, and arrivals were much less the past week. All orders for the best kind of Ground Rock Dairy Salt we continue to fill and forward at the manufacturers lowest prices

CHEESE.—A prime mild article find small sizes sell quick at 9@9½ cts., other kinds are sold low and dull.

FLOUR.—At the decline in Western, noticed in our last, the market has become quite steady, and for a day or two past there has been an increased demand from the trade. Prices, however, are still very irregular and a very wide range is kept up from the fact that considerable of the Flour arriving is likely to sour and is sold immediately, while for a good sound article, holders are not anxious to realize. Later European news was much more unfavorable.

GRAIN.—Corn continues firm, with a moderate demand. Sales of yellow at 88@91 cts.; white at 85 @88 cts. per bushel, cash. Sales of Northern Oats at 65 cts.; Eastern 63 cts Bean dull.

POTATOES.—Have advanced decidedly and taken at quoted rates.

PROVISIONS.—Pork is dull and prices lower.—Sales of clear at $17; extra clear, 17 50; prime 12 50 a 13 00; mess 14 a 14 50 per bbl., 4 mos.—Beef scarce and in good request. Sales of Western mess at $17; extra at $18 per bbl., 4 mos. Lard is in steady demand at 10¼ a 10½ cts. for bbls., and 11 cts. for kegs; Hams 11 cts. per lb., 4 mos.

WOOL.—The prices continue only nominal, and none of the new clip has yet been received to test the market, therefore we can give no quotations that will be a safe guide at present. Our largest purchasers are doing nothing, and cannot, they say, until money is more plenty, and prices rule low enough to meet the necessities of the manufacturer. Present indications are for very low rates.

BRIGHTON CATTLE MARKET.

Thursday, July 13, 1854.

At market 950 Beef Cattle, 150 Stores, 5400 Sheep, and 525 Swine.

Beef Cattle.—The market is quite full but the Beef Cattle sell quick. We quote extra $8 25@8 50; first quality $7 75@8 00; second $7 00@7 50; third $6 00@6 75.

Working Oxen.—Sales at $80, 92, 100, 140 and 155.

Cows and Calves.—Dull, sales at $24, 31, 37, 45 @55.

Sheep.—Sales of small lots at $3 25, 3 42, 3 88, 4 25@6.

Swine.—Dull; one lot to peddle 4½ c, one do 4½ c; Spring Pigs 5c; at retail from 5 to 7½c.

Remarks.—Owing to the extreme warm weather, the market is dull, and thinly attended. Prices have declined from last week. There is quite a number of Western cattle, and there will probably be from 100 to 175 left over.

Selling Off.

F. K. NICHOLS HAVING ASSOCIATED WITH him L. C. BOYNTON, will continue the mercantile business in all its branches as heretofore carried on by him, with an increased stock of goods in their season, and shall endeavor to be able to supply anything usually kept in New York and Boston at short notice, at low prices for cash and short profits. We do not keep everything we have on hand at every low price, wishing to reduce our present stock to make room for our Fall goods.

We would respectfully invite all in want of goods either Wholesale or Retail, to call and examine our goods and prices. Our goods will be up with the lowest prices. The store is the Church Street, and buy your goods.

Important to Farmers!

Time is Money, especially in Haying Time.

FARMERS WILL SAVE TIME AND LABOR by using SOULE'S Patent Premium Revolving horse rakes, which are Manufactured by C. B. SOULE, at Westford, Vt, and will be for sale in Burlington, Cambridge, Milton, Plattsburgh, and other places. These rakes are substantial and durable. They can be used on rough or smooth ground, and do their work in a first rate manner, and are easier to tend than any other horse-rake in use, as a little boy that can manage a horse well, can ride the horse and do all the raking on any decently smooth ground without any one to hold the rake. Those who have used these rakes pronounced them unequalled, and the most perfect rake ever invented.
