Religious Intelligence.

The Conductors of the American Home Missionary Society, announce that their receipts during the first seven months of the present financial year are less by about $11,000 than in the corresponding months of the last year; that the appropriations during the same period have been greater by $9,000; that the Treasury is already exhausted; that the Committee are compelled for the present to decline making further appointments for the Pacific coast, and have much hesitation in sending forth the seven missionaries already commissioned for that field; and that if their appeal for relief does not meet a prompt and liberal response, other plans of enlargement must be abandoned; the inviting fields of labor just opened, in Kansas and Nebraska, must remain unoccupied; the efforts to increase the salaries of missionaries must be relinquished; and their claims for services already performed must lie unpaid. We trust their appeal will not be in vain.

A new Methodist Church in Northfield is to be Dedicated on Tuesday, Dec. 26. Services to commence at 11 o'clock, A. M. Sermon by Rev. E. J. Scott. Preachers' meeting to commence on Wednesday morning at 9 o'clock.

A bill is now before the Canadian Parliament designed to secure a proper observance of the Sabbath. It provides that on that day no post office shall be opened, nor any mail matter be delivered; that no mail matter shall be made up or dispatched; that all those not reaching their destination on Saturday shall hold over; and that the locks on all the canals shall be closed from Saturday at midnight to Sunday at midnight.

The New York and Brooklyn Tract Society is in receipt of late news from the missions in China, India, Sandwich Islands, Armenia, Nestoria, and the Choctaw Indian station.—On the 10th September nine Choctaws were admitted into the church. The church at Hilo, a thrifty town among the palm trees and orange groves of the deep vally of Hawaii, numbers 5,509 worshippers. And the Armenians are to complete two churches lately commenced, with dispatch.

The New York Bible Society distributed to immigrant ships during the past year no less than 23,535 Bibles and Testaments. The aggregate of all the distributions was 50,901 volumes, of which 2,571 were Bibles and 41,330 Testaments.

We take from The N. Y. Evangelist the following synopsis of the Report of Rev. Dr. Stiles corresponding Secretary of the Southern Aid Society.

The report discussed the relative wants of the North and South, and presented some very interesting statistics. In contrasting the ministry of the North and the South, the report stated that the population of the North is near 13,000,000; the population of the South near 9,000,000. In thesix following denominations, Baptist, Methodist, Episcopal, Presbyterian, Congregational, and Reformed Dutch, the ministry of the North number about 14,000—at the South, 7,229. There is at the north something like one minister to every 900 souls—at the South, one minister to every 1,300 souls.

If the wealth of the church may be judged either by the amount of her invested property or annual collections, the church at the North in proportion to her membership, possesses more than twice as much of the property at the North, as the church at the South possesses of the property at the South. The vested property of the six prominent denominations at the North is something like $45,400,000, at the South, $14,500,000. Of Northern property, one dollar of every $91 belongs to the church by investment. Of Southern property, one dollar of every $205 belongs to the church in the same way. The sum total of Home Missionary collections by the aforesaid denominations at the North is $455,640—at the South, 143,899. The annual excess of collections for domestic missions at the North above those at the South is more than $300,000.

The Home Missionary power of our country is expended very freely upon the North—very sparingly upon the South. The six denominations annually send out into the waste places of the nations near 2,993 missionaries. Of this number 2,402 labor in the destitutions of the South.

These denominations annually expend upon our national missions something like $550,498. Of this sum $418,000 is disbursed at the North, and $132,000 at the South.

With all her missionary power, what does the North do for the South? There are annually commissioned at the North, 2,459 missionaries. Of these, 2,402 are employed at the North and North-west, and 57 sent to labor in the South and South-west. There are annually expended by that portion of the six denominations who reside at the North, about $418,000. Of this sum, if we mistake not, more than $400,000 are spent in repairing the desolations of the North, while $10,000 is more than we can find annually expended upon the wastes of the South.

☞ Joseph Bowers, the elder, (or as he is familiarly known, Old Joe Bowers), was born in Ypsilanti, Washtenaw county, Michigan, on the 1st day of April, 1776, of "poor but honest parents." His father, during the troubles of the Revolutionary struggle, was was engaged in business as a malefactor in western New York, from which part of the country he was compelled to emigrate by the prejudices and annoyances of the bigoted settlers among whom he had for many years conducted his operations. Emigrating suddenly, in fact "with such precipitation," that he took nothing with him, of his large property, but a single shirt, which he happened to have about him at the time he formed his resolution, he found himself after a journey of several days of vicissitudes and suffering, upon the summit of a hill overlooking a beautiful valley in the fertile State of Michigan. Here he finally settled, and marrying afterwards a young lady whom the author somewhat obscurely speaks of as "one of 'em," had issue, and finally ended his career of usefulness by falling from a cart in which he had been standing, addressing a numerous audience, in which fall he unfortunately broke his neck.

Series for 1855.
THE HOME JOURNAL
MORRIS AND WILLIS, EDITORS.

The first number of the new series will be issued on the first of January next. New subscribers can be supplied from that date; but immediate application will be necessary for such as desire to begin with the beginning. A home is hardly complete, we think we may safely venture to say, without the *Home Journal*, which, besides being a chronicle of the times, abounds in intelligence designed to enlighten an American Home. Its editors (Geo. P. Morris and N. P. Willis) devote their entire time, skill and experience, to the task of giving, each week, everything worth knowing. They particularly keep an eye on all the whims and novelties of the day. The utmost pains are taken to present the facts and outlines of all news. In the literary department, we aim at sketches and readable criticism, and in our commendations of the productions of the east newspaper world of Europe, we endeavour to avoid the tires ome and the local and transfer to our columns the pick of English information and brilliancy, while we endeavour to select with a true sense of pure morals, true wit, and genuine humor. In addition to the above, we have made new arrangements for a feature that is always attractive in a family journal. From several different sources we are to be supplied with *the news and gossip of New-York Society*. In a metropolis like ours, centre the more sparkling elements of the life of our country at large, and collision and attrition bring out much which would else be dormant. Afloat, in society gossip, is a small world, of which the ordinary newspapers make no report, and of this we think we can promise amusing photographs. In announcing also, *A new series of articles by Mr. Willis*, in addition to his usual editorial labours, we claim the privilege of leaving them to designate their own style and title as they appear. They are to be *quite different from anything which has ever been published in the journal from its first*, and we are very sure that they will be no less attractive, to say the least. The graphic and highly-finished sketches, by "The Lady of Shalott," "Timothy Quaint" and others, will be continued. We have also new correspondents in London and Paris, who will send us much that could never reach us through foreign journals.

Terms.—For one copy, $2; for three copies, $5 or for one copy for three years, $5—always in advance. Subscribe without delay. Address MORRIS & WILLIS, 107 Fulton-street New York.

KNOW NOTHINGS, READ!!
Our 250,000 readers, whether they severally reside here or there, are informed that when they want just as good a daguerreotype picture as skill and art can produce, and at a price that shall please, should go to Clark's well known saloon, 59 Court street, Boston, where the article will be furnished without mistake. Mr. Clark has made his business a study, and like a good student, renders his work a study and admiration for others. All of which is suggestive of a call and a picture. Let everybody make a man.—*Know Nothing and no Cowardes.*
We of the *Dispatch know something* about Capt. Clark's capability as a Daguerreotypist, and cheerfully endorse the compliment paid him by our *Know Nothing* friends. There are hundreds of places in this city where cheap pictures can be obtained at cheap prices.—but bear in mind, you get *cheap* pictures, nothing else. Not so with the artist of whom we write. Those who patronize him will be sure of getting the best productions of the Daguerreotype art, and the prices lower than at any other establishment. Walk in and try. We quote "Let everybody remember 59 Court Street, Boston.—*Sunday Dispatch.*

A CARD.
DOCTOR GEO. M. TIGHE, A STUDENT under Sir Ashley Cooper, late of the City of London, England, has taken up his abode in Burlington, Vermont, and is now prepared to practice upon Cancers, Tumors and Ulcers; Scrofula, Salt Rheum, Venereal Diseases, whether acute or chronic, and all Cutaneous Diseases of the skin. He pledges himself not to take any person under treatment whom he cannot cure, and makes no charge where there is no cure effected. Persons bringing certificates from the Minister of their Religion, of their inability to pay, he will cure without charge, and will forfeit a hundred dollars in every case of failure. This he feels assured will be sufficient to convince the public, that he does not belong to that class of persons called charlatans, or quacks, who live upon the sufferings and credulity of their fellow creatures.
SYMPTOMS OF CANCER.—This disease originates in the form of Pimples, Warts, Scales, Horny Protuberances, Preternatural enlargements, and Tubercular Elevations. Sometimes unusual heat, and very unpleasant itching, succeeded by a twitching, and a sensation felt as if there were a fly or spider crawling over the part, and at intervals a darting, hooting pain, which becomes more frequent as the disease progresses.
It also originates from blows, bruises and the ordinary causes and states of inflammation produce Cancer; grief and anxiety are also its causes.—Sorrow for the loss of relatives, also, often produces it. It is favoured by age and by the unmarried state in women; when it occurs in the married, the menses almost always cease first, showing a connection between them; it also spears very commonly at the period when this secretion disappears. It occurs even in subjects as young as five years, but most common in advanced life, and scrofula predisposes to it.
The Doctor will attend on patients in the country if called on to do so, to inform them of his whereabouts, that they may avail themselves of his services. His address is "Dr. GEORGE M. TIGHE, corner of Pine and Pearl streets, Burlington Vt.
